

Santa Rosa Junior College

Program Resource Planning Process

Medical Assisting 2018

1.1a Mission

Edited 2/6/18

The Mission of the Medical Assisting (MA) Program is to provide education to prepare entry-level Administrative and Clinical medical assistants with the skills, techniques, strategies, and knowledge to work in medical offices, hospital outpatient clinics, and health centers. This is a growing field with jobs available in the community or nearby. We are constantly working to improve the program and changing it according to the needs of the community.

1.1b Mission Alignment

****Edited 2/6/18****

The Medical Assisting Mission Statement aligns with the SRJC mission statement by offering programs with high academic standards and promoting awareness of and maintaining sensitivity to ethnic, cultural and gender diversity and institutional goals to help students become proficient in technology, to listen actively and respectfully and to locate, analyze, evaluate and synthesize relevant information. We strive to offer courses that reflect academic excellence and integrity and which serve the variety of needs and abilities of our students.

Medical Assisting:

Our program aligns with the District's Mission and Strategic Goals. Our program is committed to:

- Helping students succeed in meeting their educational goals and eliminating barriers to college education by providing guidance and support services through academic advising and referral to SRJC support services, including library, scholarship, financial aid, workforce development, etc.
- Challenging students to be responsible for their academic success and development as efficient, knowledgeable, ethical MAs.

- Promoting cultural awareness, sensitivity, and respect that are integral to success in working with the diverse populations in our county.
- Securing faculty who are knowledgeable, have current experience in their particular area of medical assisting, demonstrate strong teaching skills, and who are committed to student success.
- Working closely with community experts in developing curriculum that meets both professional and student needs.
- Promoting active participation in class, clinical and/or computer labs, and an externship practical experience in a medical office and outpatient clinic.

1.1c Description

****Edited 2/6/18****

Medical Assisting is a career path that can be its own career or a stepping stone to nursing, radiology or many other medically based careers. Students can obtain a certificate and be working in as little as 4 semesters.

Medical Assisting is a career with many jobs available. According to the State of California, Employment Development Department (2015), the number of Medical Assistants in California is expected to grow much faster than average growth rate for all occupations. Jobs for Medical Assistants are expected to increase by 27.7 percent, or 22,400 jobs between 2014 and 2024. An average of 2,230 new job openings per year is expected for Medical Assistants, plus an additional 1,690 job openings due to net replacement needs, resulting in a total of 3,920 job openings.

Students can choose to complete one or all of the Medical Assisting certificate programs and work for an A.S. Degree with any of the areas as a major.

- The Administrative Medical Assistant track is a 29.5-unit Certificate of Achievement program, and can be completed in 4-5 semesters.
- The Clinical Medical Assistant track is a 38.5-unit Certificate of Achievement program, and can be completed in 4 semesters.
- The Administrative & Clinical Medical Assistant track is a 46.5-unit Certificate of Achievement program, and can be completed in 5 semesters.

All programs can also be taken on a full-time or part-time basis. Recommended sequencing of classes can be viewed on the SRJC Medical Assisting web site at medical-assisting.santarosa.edu.

Finishing a Medical Assistant certificate/degree contributes towards a career involving working in a medical office or clinic that involves direct patient care like rooming patients, taking vital signs, assisting with medical procedures and diagnostic testing and/or assisting the provider with billing, insurance and coding.

1.1d Hours of Office Operation and Service by Location

****Edited 2/6/18****

Medical Assisting:

All MA-prefix courses are offered on the Santa Rosa campus. Courses with other prefixes, e.g., HLC and CS are offered on the Santa Rosa and Petaluma campuses and some are also online. Courses are offered during a variety of hours -- mornings, afternoons, evenings, and some weekends for HLC 160 and CS 60.11A.

Clinical Medical Assisting includes onsite clinical experiences in the fall and spring at Kaiser Permanente Outpatient Clinics in Santa Rosa and Rohnert Park, and Sutter Health offices in Santa Rosa. Students and instructors spend one full 9 hour day onsite per week, for a total of 262 hours between both the fall and spring semesters. While onsite, the students practice Clinical Medical Assisting in accordance with all federal, state, county, District and health care organizational policies (HIPPA, OSHA, etc.).

Administrative Medical Assisting includes an onsite experience in the summer only, and is done at many different outpatient clinics or medical offices in the community. Students are onsite 20.5 hours per week, for a total of 183 hours. Instructors check in with students once per week. While onsite, the students practice Administrative Medical Assisting in accordance with all federal, state, county, District and health care organizational policies (HIPPA, OSHA, etc.).

All instructors and the MA Coordinator are available by email at their www.santarosa.edu addresses, by phone and during office hours which are posted on the office windows of each and every staff member. We believe that as professionals and instructors, what we teach them should be correct and reflect what an ethical, well taught Medical Assistant should do in the clinical and administrative areas. Our instructors excel in both experience and teaching ability.

Our program is keeping up with the rapidly changing health care scene by adding an Electronic Health Records course that was implemented in 2014. In addition, phlebotomy is being considered as an addition to the program.

This is a growing and vital program at SRJC and it is one where jobs exist. Our last cohort held a 100% rate of employment of the graduates.

1.2 Program/Unit Context and Environmental Scan

****Edited 2/6/18****

Medical Assisting:

Trends in Medical Office employment show that providers started using Medical Assistants differently around 1990. At that time, they began to give them more duties and today they are actually even able to give injections and draw blood.

According to the State of California, Employment Development Department (2015), the number of Medical Assistants in California is expected to grow much faster than average growth rate for all occupations. Jobs for Medical Assistants are expected to increase by 27.7 percent, or 22,400 jobs between 2014 and 2024. An average of 2,230 new job openings per year is expected for Medical Assistants, plus an additional 1,690 job openings due to net replacement needs, resulting in a total of 3,920 job openings searches show many jobs are available in our community right now.

Medical Assisting in the clinical and administrative area is growing in our community and in the greater economy because of the addition of the Affordable Care Act, the decreased cost of using Medical Assistants in the office rather than nurses and the amount of people expected to retire in the next decade.

The electronic health record (EHR) has had a significant impact on all health care programs, and in Medical Assisting, we have added an Electronic Health Records course which began in 2014 in order to keep current with these technology changes in health care.

Medical Assisting does not see students transferring to a four year program because it is focused on workforce training. We **do** see returning students who later attend our other healthcare programs including associate degree nursing (ADN) who consequently transfer on to Sonoma State University's ADN-BSN program. They also return to the LVN program or can transfer to a 4 year college if they finish their associates degree which many do. Many simply finish a associates degree in Medical Assisting.

There is currently one full time tenure faculty member that is the Coordinator of the program, and is also instructing in the program. The rest of the instructors are adjunct.

As the economy continues to improve, more and more students will seek short term training programs, especially in programs that often result in jobs. The Medical Assisting programs last about 4 semesters and results in jobs often with excellent benefits and moderate pay.

We expect to see continued growth in all of the programs we offer, and especially in **Medical Assisting, because it is the most rapidly growing profession in the decade** *according to every medical assisting college website including our own and the US Government!*

2.1a Budget Needs

With an increase in enrollment the supply needs of the Medical Assisting program are rising.

Medical Assisting - FY 2016-17

2.1 Fiscal Year Expenditures

Santa Rosa Campus

Expenditure Category	Unrestricted Funds	Change from 2015-16	Restricted Funds	Change from 2015-16	Total	Change from 2015-16

2.3c Faculty Within Retirement Range

4 adjunct faculty members of the current 8 are within retirement age.

2.3d Analysis of Faculty Staffing Needs and Rationale to Support Requests

The demand for the medical assistant program is growing with full classes every semester. Jobs for medical assistants in the community continues to grow with students getting jobs from their externship sites immediately upon graduation. There is demand for our students in the community due to the quality of the graduates. Kaiser and Sutter continually request students.

The need for trained medical assistants will be increasing with the recent health care reform as evident by the quick employment and requests for more students.

Coordination of background checks and immunizations with the assistance of Administrative support requires the oversight of a full time faculty member for a program the size of MA.

Medical Assisting - FY 2016-17

2.3e Faculty Staffing Requests

Rank	Location	SP	M	Discipline	SLO Assessment Rationale
------	----------	----	---	------------	--------------------------

2.4b Rationale for Instructional and Non-Instructional Equipment, Technology, and Software

The Strong Workforce Program (SWP) just awarded Health Sciences with a \$230,000 budget to create an ambulatory skills lab space. This is desperately needed to accommodate our increasing health science programs, stay current with our industry, and provide realistic ambulatory skills training (versus inpatient training).

2.4c Instructional Equipment Requests

2.5a Minor Facilities Requests

Rank	Location	SP	M	Time Frame	Building	Room Number	Est. Cost	Description
------	----------	----	---	------------	----------	-------------	-----------	-------------

2.5b Analysis of Existing Facilities

Additional skills lab space for all health science programs is needed, since these programs continue to expand and it is difficult to effectively teach students in crowded spaces. An ambulatory skills lab space is preferred, because the current skills lab space is modeled for inpatient care with hospital beds.

Space needed is a minimum of 2,500 sq ft (50x50), which will primarily serve Medical Assisting, CNA/HHA, Pharm Tech, Radiology, and occasionally ADN/LVN.

As our programs grow, lecture space is becoming more difficult to schedule as well. Projecting that the trend will continue for health sciences, we also need to plan for more lecture space. Ideally, another auditorium lecture room that holds over 60 will be needed.

Finally, the computer lab in the Health Sciences building needs to expand from 30 computers to 62. There is no room space available for this conversion in the RACE building. It is important to be able to offer online testing because this prepares our students for online testing and to use technology in healthcare like electronic health records.

3.1 Develop Financial Resources

—

3.2 Serve our Diverse Communities

The Medical Assisting program is seeing an increase in Latino, especially Latina, students, which is not reflected in our faculty. Currently the program has one bilingual English/ Spanish instructor. Consideration of a Spanish class or immersion for current instructors has been discussed as a possibility to assist with this issue or the use of an online program. I think this has become less of an issue with the incoming students being a large mix of all races which is a wonderful thing to see at SRJC.

We should still look at a Spanish class for instructors and I am looking at immersion classes currently offered at SCOE.

3.3 Cultivate a Healthy Organization

No classified staff though it would be helpful if we had one dedicated office worker for MA since we are the second largest program in the Health Sciences cluster with 87 students currently.

3.4 Safety and Emergency Preparedness

Department safety leaders for Health Sciences are located in the health sciences office and in the skills lab office. Students are taught safety in all medical procedures and in fire safety within the Race building. All students and instructors are required to be certified in Cardiopulmonary Resuscitation techniques through the American Heart Association.

Instructors are advised to lock office doors when working after hours or when building is not in full use or when they are simply alone.

Meetings with students are not to take place when no one else is in the Race Building.

Teachers are advised to make effective ground rules about the kind of behavior that is expected and tolerated in the classroom and to include it in the syllabus. They are also advised to call campus police if any undue behaviors occur as early intervention is vital and having trained colleagues present that are prepared to assist is of the utmost importance.

Plans are being made for classes in safety and responding to an immediate problem. Santa Monica College is using a training program that is an online simulation program called "at-risk" where they are given 5 classroom scenarios and asked to pick 3 students who are the most at risk. Then you are asked to be the faculty person and have a simulated conversation and are given feedback. This appears to help staff in dealing with problems in the classroom and might be a good program for SRJC to adopt.

3.5 Establish a Culture of Sustainability

Clinical medical assistants do use bloodborne pathogens exposure prevention protocols when giving injections and handling syringes and needles. Instructors are familiar with exposure protocols used in the Health Sciences department. Students have also been aware that they need to be cognizant of recycling taking place in the Race Building.

4.1a Course Student Learning Outcomes Assessment

Medical Assisting Program SLO Assessment Cycle

Program	Semester/Year Last Assessed	Assessed By	Semester/Year Due For Next Assessment
Admin & Clinical Cert & Major	Spring, 2015	Muwafaqu Al-Asad	Spring, 2021
Admin Major & Cert	Fall, 2014	Lynne Conde	Fall, 2020
Clinical Major & Cert	Spring, 2015	Anna Valdez	Spring, 2021

4.1b Program Student Learning Outcomes Assessment

Program evaluation is being completed on an ongoing basis, with a maximum of every 6 years. The MA Coordinator will submit a program assessment for the results of the successful completion of the program for each of the certificates and majors.

4.1c Student Learning Outcomes Reporting

Type	Name	Student Assessment Implemented	Assessment Results Analyzed	Change Implemented
Course	MA 160 - Introduction to Medi	Spring 2013	Fall 2014	Fall 2013
Course	MA 161 - Law and Ethics, Medic	Fall 2012	N/A	Fall 2013
Course	MA 162 - Disease Processes	Fall 2012	Fall 2013	Fall 2013

4.2b Narrative (Optional)

Course and program SLOs and LAPs for Medical Assisting were completed in 2012 as required by AACJC. They were revised again to fix prerequisite problems. Student handbook has been updated and distributed.

Plans to review courses annually to maintain currency are being made now. Updates are being made to prerequisites to allow for smooth transitions and ability to take classes when should be taken. SLO's will be checked every 3 years.

The course sequences were just revised for all 6 tracks in the MA program, and all MA course offerings are now better aligned with the intended flow of the sequence of courses that are recommended.

Curriculum changes have been approved and will begin this summer 2016 for MA 166.1 Administrative Externship. Other changes have been requested in the clinical courses that are in queue to be reviewed by curriculum. These changes will provide a smoother clinical experience both for the students, and the sites that accept them. We are hoping for an increase in skills lab time, which would necessitate purchasing the listed instructional supplies. Without these supplies, we cannot provide an up to date educational experience for the students that will be entering the health care workforce very soon.

State certification by CCBMA continues to remain an important goal that the coordinator and instructors are encouraging the students to pursue. Part of the clinical certification requires that students do a minimum number of injections on patients, so plans include placing students at more injection-friendly sites, and also scheduling attendance at flu clinics.

The field of medical assisting is growing and changing. Sonoma County Helpwanted.com states there are currently 434 job openings for medical assistants in the bay area. This demand continues to increase, and no forecasts show that it is slowing down. Kaiser is continuing to increase a program called MDMA where each MD has his own MA. This is a great field which is growing and changing.

5.0 Performance Measures

Clinical medical assisting skills- lab checkoffs and clinical experience

Medical language skills - use of medical terminology, anatomical terms, and pathophysiological terms

Administrative medical assisting skills - front office techniques and procedures

Procedural and diagnostic coding - for use with insurance claims

Professionalism in the clinical setting - externship experiences include reviews by staff and check off lists

Recruitment occurs as MA's finish final rotation. Several MA students get offers of employment in their final Spring semester, or Summer semester.

Local community physicians continue to reach out to our program asking for clinical and administrative students for externship with the intent to hire them.

5.1 Effective Class Schedule: Course Offerings, Times, Locations, and Delivery Modes (annual)

All classes shown are from the clinical and administrative major track because this track includes every class offered in the entire MA program:

- **First Semester (Fall)**

CS 60.11A Microsoft Word Part I, offered F, SP & SUM, in person, online, day, evening

HLC 160 Medical Terminology, offered F, SP & SUM, in person, online, day, evening

PSYCH 1A General Psychology, offered F, SP & SUM, in person, online, hybrid, day, evening

ANAT, Human Anatomy offered F, SP & SUM, in person, day, evening

- **Second Semester (Spring)**

MA 160 Introduction to Medical Office Practice, offered SP, in person, Fridays 5:30-8:30pm

MA 161 Law and Ethics for the Medical Assistant, offered SP, in person, Mondays, 4:30-6pm

MA 162 Disease Processes, offered SP, in person, Wednesdays, 8am-12pm

MA 168 Basic Medical Office Insurance Billing, offered SP, in person, Wednesdays, 5-6:30pm

- **Third Semester (Fall)**

- MA 163A Clinical Procedures I, offered F, in person, Wednesdays, 1-6pm**

- MA 163AL Clinical Experience I, offered F, in person, Thursdays, 8am-5:30pm**

- MA 165 Pharmacology and Administration of Medications, offered F, in person, Tuesdays, 12-5pm**

- MA 169 Procedural Coding, offered F, in person, Tuesdays & Thursdays, 5:30-7:30pm and 5:30-8:30pm**

- MA 171 Electronic Health Records, offered F, in person, NOT OFFERED UNTIL FALL 2017; Days/times unknown**

- **Fourth Semester (Spring)**

- MA 163B Clinical Procedures 2, offered SP, in person, Tuesdays, 12-2pm and 4-7pm**

- MA 163BL Clinical Experience 2, offered SP, in person, Mondays, 8am-5:30pm**

- MA 164 Laboratory Techniques, offered SP, in person, Tuesdays, 9:30-11:30am**

- MA 166.4 Externship: Clinical Medical Assisting, offered SP, in person, Thursdays, 8am-5:30pm**

- MA 167A (1st 8 weeks) Basic Diagnostic Coding, offered SP, in person, Tuesdays & Thursdays, 7-9pm**

- MA 167B (2nd 8 weeks) Intermediate Diagnostic Coding, offered SP, in person, Tuesdays & Thursdays, 7-9:15pm**

- **Fifth Semester (Summer)**

- MA 166.1 Externship: Medical Assisting, offered SUM, in person, varied days/times, generally 8am-5:30pm**

- LIR 10 Intro to Info Literacy, offered F, SP & SUM, in person, online, day, evening**

5.2a Enrollment Efficiency

Narrative: Our goal is to have ENOUGH seats for the amount of students wishing to take medical assisting classes. Most classes are at 110% -120% fill for every class we have. We are offering 1 large section (60 students) of the first course and would like to offer 2 sections of MA

5.3 Instructional Productivity

narrative: **Our medical Assistant Teachers are very productive and often take larger classes than expected because of student needs. This needs to be addressed. I am sure our instructors are willing to teach 2 sections or split it up. Productivity ratios do not work here as we have only one full time employee.**

(Not sure where the 2012 numbers came from unless it was downloaded from other info?)

Medical Assisting - FY 2014-15 (plus current FY Summer and Fall)

5.3 Instructional Productivity The ratio of Full-Time Equivalent Students (FTES) to Full-Time Equivalent Faculty (FTEF) in each Discipline at first census.

5.5 Successful Program Completion

Students at SRJC medical assisting program have a 100% pass rate on the medical assisting certification exam. They are often hired by the better paying larger organizations in Santa Rosa because they are well trained and ethically the best.

With increased support from Coordinator I expect course completion rate to increase in next 2-3 years.

Medical Assisting - FY 2014-15 (plus current FY Summer and Fall)

5.6b Successful Course Completion

The percentage of students receiving a grade of A,B,C, or CR in each Discipline (duplicated headcount).

Santa Rosa Campus

Discipline	X2012	F2012	S2013	X2013	F2013	S2014	X2014	F2014	S2015	X2015	F2015	S2016

5.6 Student Success

Narrative: A lot of change has disrupted the program in the last 2 years. It is now becoming more comfortable for students with a new coordinator who is supportive of staff and student needs. Expect increases in retention of students and successful course completion in next few years. Hope is to make coordinator a full time employee and further give stability to program and help students.

Medical Assisting - FY 2014-15 (plus current FY Summer and Fall)

5.7 Student Access

In Medical Assisting we are seeing an increase in Hispanic attendance and enjoy a diverse population of students ethnicity and diversity in age. We expect this to continue in the future as the population of Sonoma County changes and becomes more diverse. We could benefit from diversity in staff but in the meantime we may need diversity training for all instructors.

Medical Assisting - FY 2014-15 (plus current FY Summer and Fall)

5.7a Students Served - by Ethnicity The number of students in each Discipline at first census broken down by ethnicity (duplicated headcount).

ALL Locations (Combined totals from ALL locations in the District)

Medical Assisting	Ethnicity	2012-13	Percent	2013-14	Percent	2014-15	Percent	2015-16	Percent
	White	335	60.3%	339	56.3%	262	50.4%	172	36.8%

5.8 Curriculum Offered Within Reasonable Time Frame

Both clinical and administrative students begin the program in the Fall with their prerequisites of anatomy, medical terminology, psych, and microsoft word.

The core MA classes are then taken in the following Spring. After that, depending on which track the student has chosen, they will either take their clinical and/or administrative focused classes.

All tracks are completed in either 4 or 5 semesters, depending on the specialty chosen.

5.9a Curriculum Responsiveness

One way that the curriculum in the MA program is responding to students and the needs of the local health care community is that all course sequences for all 6 tracks of the MA program have been revised to provide a more streamlined experience for all MA students. These new sequences are better aligned with having all students take the required courses in the required order, instead of the student being able to "skip around" and take classes out of order. Taking courses in the recommend sequence prevents errors in educational plans, prevents delays in finishing courses, and provides for better graduation rates overall. In addition, this forced cohort allows for more opportunities for stronger student relationships to form which result in more peer support, and better outcomes overall.

Another way the curriculum in the MA program has responded to the students and the needs of the local health care community is by specifically addressing one class in particular: MA 166.1 Administrative Externship. This class was teaching both clinical and administrative skills, instead of just administrative. The feedback from our community, our students, and our instructors is that the clear deliniation between clinical and administrative needs to remain separate and well defined. For example, a student taking an administrative only track (which includes only office tasks) should not be made to learn how to do hands on patient care skills, like taking blood pressures and physically transporting patients. This class, MA 166.1, was revised through curriculum, and now as of Summer 2016, only teaches what its name implies: administrative tasks.

Another way the curriculum is responding in the MA program is that there are currently several revisions to the MA clinical courses that are in queue and awaiting approval. These changes include more skills lab time, less onsite clinical time and generally more alignment with regionally accredited MA programs.

The MA Advisory Board meets every Fall and Spring. Attendance includes members from Kaiser, Sutter, St. Joe, and the smaller private physician offices in the community. Attendance at these meetings has been very good, and it is a very diverse population of members. Attendees that are faculty are 3-5 people. We have also had our MA student class reps in attendance at the last meeting. The last meeting reaffirmed that our local health care organizations do not wish our MA program to become accredited, and they are wanting our students to spend more time in Family Medicine offices, rather than going into specialties when they are new. We have responded by placing more students in FM offices, rather than specialty areas. There was also a desire for phlebotomy, so we are currently looking at the possibility of adding that to the program.

5.9b Alignment with High Schools (Tech-Prep ONLY)

Meet with high school counselors on a regular basis. Gave talk for Petaluma class and talked to group of students regarding the program. Recently met with a class from Marin County.

5.10 Alignment with Transfer Institutions (Transfer Majors ONLY)

Considering working with LVN program to form a bridge to that step.

5.11a Labor Market Demand (Occupational Programs ONLY)

Students are employable and in demand upon graduation. The shift towards more online/computerized health records has helped us to focus on providing the new Electronic Medical Records class, as well as to work with the clinical sites to train our students on the patient charting software found there.

Recent job search for Medical Assistant jobs showed hundreds of job openings for medical assistants in Sonoma County. Medical assisting Certificates are awarded by Empire College and College of Marin (only area junior college and only competition monetarily).

5.11b Academic Standards

Academic standards are high at SRJC. All students in last 17 years have passed certification exam.

6.1 Progress and Accomplishments Since Last Program/Unit Review

Rank	Location	SP	M	Goal	Objective	Time Frame	Progress to Date
0001	Santa Rosa	02	01	To maintain an academically excellent MA program.	To perform SLO assessments for classes from Spring 2017.	Fall 2017	Adjunct instructors who taught the lectures will complete SLO assessments and be compensated per AFA contract. **Update - this was completed.**
0002	Santa Rosa	08	07	To provide enough adjunct staff to teach in the MA program.	To hire staff to teach in MA.	Fall 2018	HR, time to go through applicant pool and schedule interviews **Update - this was completed.**
0003	Santa Rosa	01	01	Dedicated space and equipment to meet the needs of the changing workforce.	Provide student the opportunity to develop skills in a skills lab equiped for medical assisting.	Fall 2018?	Skills laboratory space in addition to the current skills laboratory. **Update - this is in progress with the SWP funding approved.**
