

Santa Rosa Junior College

Program Resource Planning Process

Behavioral Science 2021

1.1a Mission

The Department of Behavioral Sciences (hereafter the DBS) consists of Anthropology, Psychology, and Sociology disciplines. Courses satisfying Ethnic, Global, and Environmental Studies requirements are also found within our programs. Together, we pursue a mission in keeping with that of our District. As a department, we seek the following:

To provide students with the highest quality educational opportunities with culturally relevant and diverse general education courses to prepare them for transfer or degree completion.

We are committed

1. To encourage intellectual, professional, and creative development;
 - to teach mastery of the theories and data common to our fields;
 - to prepare students for careers in professional fields;
 - to provide a diverse group of students opportunities to learn about themselves and others;
 - and to foster a complex understanding of the nature of being human in ever-changing and often fragile social, cultural, and natural environments.

2. To foster the development of critical thinking, writing, reading, oral communication, and quantitative and qualitative analysis as well as a commitment to lifelong learning and international perspectives needed to contribute to communities and fields of endeavor.

3. To support faculty in developing ongoing awareness and currency in their academic fields and to help them develop an innovative curriculum and pedagogy that is responsive to the intellectual and professional needs of students.

1.1b Mission Alignment

The mission of the Department of Behavioral Sciences aligns with the mission of the District as a whole. We provide lower division academic education, with numerous courses in Anthropology,

Psychology, and Sociology that are transferable to four-year institutions. Our courses incorporate basic skills to help students enhance and improve their writing skills. Throughout the curriculum as well as in specifically focused courses (such as Race and Ethnic Relations), diversity is a focus of learning. Our faculty and staff provide student and academic support services (in-person, via telephone, and online via email) and, to improve student success and retention. We regularly review our curriculum and assess student learning outcomes. We insure that our classes provide high quality education with culturally relevant and diverse content and pedagogy that prepares them for transfer or degree completion.

1.1c Description

The Department of Behavioral Sciences (DBS) consists of regular and adjunct faculty in Anthropology, Psychology, Sociology, teaching in these three disciplines as well as offering several Ethnic Studies classes. Courses are taught in small and large lecture classes, online, blended, and lab formats.

The Anthropology program within the DBS maintains the Santa Rosa Junior College Museum (with Multicultural and Anthropology Exhibits) with one Museum Director/Instructor (40% reassigned time), one classified employee (Rachael Minor-Curator), and several student assistants. In addition, Anthropology maintains complex science labs (Anthropology 1L-Biological Lab) at both the Santa Rosa and Petaluma campuses.

1.1d Hours of Office Operation and Service by Location

Classes are taught throughout the college week, with some courses on Fridays, Saturdays and online. Instruction locations include Santa Rosa and Petaluma.

The Emeritus Service Center, stationed at the Santa Rosa campus, serving 6 departments, is open from 7:30 – 4:30, Monday thru Friday. It is staffed by Administrative Assistant III (100%, 1.0 FTE) Lori Derum (retiring), and Administrative Assistant II (47%, .47 FTE), Louise Crabtree, both classified staff.

A mailroom and a common office/service area are available to Petaluma faculty during class hours and by personal key.

The Jesse Peter Museum is open to the public Monday through Thursday from 10:00 am to 4:00 pm during the academic school year, and 10:00am to 1:00pm during the Summer. **They are closed inter-session from the last day of classes before finals week, through July 1st.**

The Physical Anthropology Labs are open only during scheduled class hours.

1.2 Program/Unit Context and Environmental Scan

The Behavioral Sciences Department generally conducts around 10 sections of classes in Newman Auditorium (in hybrid or full face-to-face format) Monday thru Friday, with a capacity of 198 students per section. Classes enjoy a robust enrollment.

The department also has multiple sections of classes online (Psych 1A, 1B, 3, 4, 5, 7, 8, 9, 34, 35, 40 and 56; Anthro 1 and 2; Soc 1, 2, 10 and 30), with more courses in the pipeline for approval (e.g., Psych 8).

The newly approved Psych 1C, which is of central importance for psych majors, needs both equipment support (SPSS) as well as full time faculty support in order to support the success of our students. Presently the course articulates but does not replace Math 15.

The department curriculum as well as schedule continues to grow; online delivery continues to be a particular growth potential, which presently is limited by the number of available classes and the number of faculty teaching online.

2.1a Budget Needs

All three disciplines (Anthro, Psych & Soc) in the Department of Behavioral Sciences Budget are very large “producers” of enrollment in relation to the expense required of the District to run these programs.

The Anthropology discipline is requesting funding for an Anthro Lab faculty coordinator, with approval for 15% per semester release time for a lead faculty member.

Santa Rosa Campus

Expenditure Category	Unrestricted Funds	Change from 2016-17	Restricted Funds	Change from 2016-17	Total	Change from 2016-17

2.1b Budget Requests

Rank	Location	SP	M	Amount	Brief Rationale
0001	Santa Rosa	02	01	\$20,000.00	15% Release time for Lead Anthro Faculty to Maintain Lab

2.2a Current Classified Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Administrative Assistant III	40.00	12.00	Supervises the Lower Emeritus Service Center where 6 academic departments process their schedules, budgets, faculty hiring, evaluations, and campus forms.
Administrative Assistant II	20.00	12.00	Assists the supervising of the Lower Emeritus Service Center where 6 academic departments process their schedules, budgets, faculty hiring, evaluations, and campus forms.

2.2b Current Management/Confidential Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Department Chair (All DBS)	28.00	11.00	Coordinates the curriculum, scheduling, evaluation, hiring, and facilities support for all academic programs.
Museum Manager	40.00	12.00	12 month position provides the Santa Rosa Junior College Museum with collections management for over 5000 pieces of art or artifacts, supervises student employees, plans and installs exhibits with the Faculty Supervisor at the Museum, and manages the day-to-day operations.

2.2c Current STNC/Student Worker Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Student Museum Employees	10.00	9.00	Two student assistants work a total of around 20 hours per week during the school year. They represent the essential work force for visitor support, general clerical work, and supervised collections care. They work under the supervision of both the Exhibit Curator and the Museum Director.
	0.00	12.00	

2.2d Adequacy and Effectiveness of Staffing

Museum:

The Museum Store continues to provide additional revenue for categorical program needs. The recent launch of the online store is continuing to generate revenue.

The continued increased of foot traffic, student use and community visitors, in the Museum has confirmed the importance of maintaining the Museum Director position at 40% reassigned time. The Museum Director position is currently vacant and we are working to fill the opening through the faculty staffing process. The Museum plays an important role in instructional curriculum and course credit for students.

The Behavioral and Social Sciences disciplines integrate course curriculum with Museum exhibits and planning which has led to increased student demand; therefore, creating a demand for the development of a Museum of Science Certificate.

Due to the common large lecture class size in the department, faculty workload has increased. Therefore, it is essential that professors receive instructional assistance with grading papers and exams by continuing to provide reader assistance.

In June 2022, there will be a retirement in the service center staff and we will be requesting a replacement.

2.2e Classified, STNC, Management Staffing Requests

Rank	Location	SP	M	Current Title	Proposed Title	Type
0001	Santa Rosa	02	01	Admin Assistant II	Emeritus Service Center AAIII	Classified

2.3a Current Contract Faculty Positions

Position	Description
5 Anthropology	4 Regular Faculty at SR campus and one Petaluma anchor position.
7 Psychology	5 Regular Faculty at SR campus and 2 in Petaluma. All Psychology courses are offered on both campuses and online, using a semester course rotation. Classes close early with wait lists and maintain high enrollment demand. The discipline utilizes hybrid, online, and face to face instructional formats. Key courses are also offered in Extended Large Lecture (ELL) format. All courses are approved for online instruction. All students are able to fulfill the requirements for an AA-T in Psychology online and or Psych AA. Five of the seven regular Psychology faculty members are of potential retirement age. All Psychology course SLO assessments have been completed this year.
3 Sociology	2 Regular Faculty at the SR campus, 1 Regular in Petaluma.

2.3b Full-Time and Part-Time Ratios

Discipline	FTEF Reg	% Reg Load	FTEF Adj	% Adj Load	Description
Anthropology	4.1200	60.0000	2.8000	40.0000	In fall 2020, Museum Director returned fulltime to classroom and 1 FT faculty was on sabbatical.
Psychology	5.6000	50.0000	4.8500	50.0000	This year had a fulltime faculty member on sabbatical, returning fall 2021.
Sociology	1.2000	27.0000	2.6000	73.0000	This discipline is growing back - and will need to plan for the addition of a FT faculty member in the next few years. There was a FT faculty member on sabbatical this year as well as the department chair is from this discipline.

2.3c Faculty Within Retirement Range

According to the data provided for this PRPP document, five of our current 15 regular faculty are age 55 or older.

2.3d Analysis of Faculty Staffing Needs and Rationale to Support Requests

The Sociology discipline serves numerous JC students looking to fulfill G.E. requirements, transfer to UCs and CSUs, and those majoring in Sociology (ADT) and Social & Behavioral Sciences. We are also in the process of cross-listing a course with Ethnic Studies in order to serve students needing to meet the new Area F requirement. This will add students taking courses in the Sociology discipline. While we have stellar full-time faculty with expertise in Race & Ethnicity, Social Problems, Gender, and Relationships, we lack faculty with expertise in Sociological Research Methods and Symbolic Interactionism. We currently have just one adjunct willing to teach those classes, and he is actively looking for full-time employment elsewhere. Sociological Research Methods (Soc 5) is a core class in the Sociology major, and it is imperative we hire a full-time faculty member to teach that class while building up offerings in both research and symbolic interactionism. We would also ask that any prospective faculty members be comfortable teaching Critical Race Theory and Intersectionality, as both are woven into the fabric of all of our courses.

The Behavioral Sciences department houses three main disciplines: Sociology, Anthropology, and Psychology. Though Sociology graduates far more majors than Anthropology, Sociology has far fewer sections and faculty. At one time, Sociology had 4 full-time faculty members. In 2009, it was down to just one. Over time, it has built itself back up to 3, but a 4th full-time position is needed! For spring '22, we have 3 adjunct faculty members who are maxed out at 3 sections each and two full-timers reluctantly taking overload assignments in order to keep our sections in the schedule of classes. The most recently hired adjunct (2020) is taking time off now while another adjunct is nearing retirement and another is actively interviewing elsewhere for full-time employment. One of our long-time adjuncts has also just retired and moved away. Recent adjunct searches have brought few qualified candidates forward. A full-time position would bring much-needed stability to the discipline and allow us to function with certainty, especially when one of our colleagues takes a sabbatical leave in the next few years.

Sociology, by its very nature, attracts students of all backgrounds, especially those who are disproportionately impacted. It is particularly attractive to those students interested in looking at issues such as stratification, race, class, and gender. While classes in other Social Science research methods and statistics often ignore such issues, a Sociologist teaches research methods by examining just those things. Sociological research methods done right can help our students to understand not only the theories and facts they are given, but also how to go about doing the work to answer their own questions. Currently, students majoring in Sociology often

find themselves with no choice but to take methods classes in Psychology or Statistics classes in Math because our research methods class is not staffed every semester. This is often daunting to students and keeps some away from completing our major. By bringing in a consistent presence in research methods, grounded in Sociology, we would be able to serve more students and teach methods using the social issues students who are disproportionately impacted will be able to relate to. Moreover, faculty in our department are encouraged to write or revise all of their syllabi and course materials using a DEI lens. Our CORs are currently being revised in this way as well. Our department, and the Sociology discipline in particular, are deeply committed to changing past practices and working for equity.

Sociology is the one discipline that looks at all aspects of society and uses its theory and methods to explain the many social problems we grapple with as a society. Students trained in Sociology and sociological research methods can go into the world armed with the tools to help us better understand pandemics, racial injustice, violence, gender and sexual discrimination, wealth inequities, and a host of other issues plaguing our world today. No matter which fields our students may choose to pursue later on, if they start with a firm grounding in Sociology, their ability to see the world using their sociological imaginations will serve them and the rest of society well.

As we shift our focus statewide and district-wide to prioritizing diversity, equity, and inclusion, Sociology has become invaluable in helping people understand systemic racism, inequity and injustice. Critical Race Theory and the acknowledgment that racism is systemic is built into the fabric of our discipline. It is clear that our students understand the importance of studying Sociology as well. In recent years, the numbers in our Sociology for transfer major have grown significantly. As you can see on our data form, our degrees awarded have gone from 84 and 85 in 2018-2019 and 2019-2020 respectively to 111 in 2020-2021! The Sociology AA-T degree is now among the top 5 majors at SRJC, and we are core contributors to the largest major, Social and Behavioral Sciences. Growing Sociology at SRJC is an absolute necessity if we are to continue to serve the needs of our students.

2.3e Faculty Staffing Requests

Rank	Location	SP	M	Discipline	SLO Assessment Rationale
0001	Santa Rosa	02	01	Sociology	The growth of Sociology and student demand in the field provide a need for this growth position. departments.

2.4b Rationale for Instructional and Non-Instructional Equipment, Technology, and Software

Interactive (Touch) Flat Panel Screen for Museum

As a learning resource for the district and community, the Museum tells the "story" of many cultures through static displays. The addition of a large interactive flat screen monitor will allow us to display digital exhibits and include the voices and sounds of the culture with it. The first digital exhibit planned is the "Living Wall" which currently is only photos of Native American faculty, staff, and community members with their tribal affiliation. This collection would then include their voices - the tribe they are from, samples of their language, and items from the collection which represent their heritage and culture. This would make it possible for the classes which use the Museum as a part of their curriculum to include a multi media teaching resource. This also will greatly enhance the Museum's ability to showcase items and cultures from the archives. (some items are too large to display in the cases)

2.4c Instructional Equipment Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
0001	Santa Rosa	04	07	laptop computer for projector	1	\$1,100.00	\$1,100.00	Theresa Molino	SRJC Multicultural Museum	Theresa Molino
0002	Santa Rosa	04	07	Interactive Flat Panel Screen	1	\$12,500.00	\$12,500.00	Theresa Molino	SRJC Multicultural Museum	Theresa Molino

2.4d Non-Instructional Equipment and Technology Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
0001	Santa Rosa	04	07	flashing emergency lights	1	\$0.00	\$0.00	Rima DasGupta	1678 Emeritus	Rima DasGupta
0002	Santa Rosa	03	07	Laptop	1	\$500.00	\$500.00	Rachel Minor	Jesse Peter Museum	Rima Das Gupta

2.4f Instructional/Non-Instructional Software Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
------	----------	----	---	------------------	-----	-----------	------------	-----------	------------	---------

2.5a Minor Facilities Requests

Rank	Location	SP	M	Time Frame	Building	Room Number	Est. Cost	Description
0001	Santa Rosa	04	07	Urgent	Emeritus 1594	1594 Lab	\$5,000.00	Updated lighting. Currently all the lights are on or off, which makes it hard to show any kind of media on the screen. Updated lighting to provide an option to have part of the light on and part off.
0001	Santa Rosa	04	07	Urgent	Emeritus	1st floor staff restrooms	\$1,000.00	Upgrade bathroom lighting and fan, deep clean and paint.
0001	Santa Rosa	04	07	Urgent	Emeritus 1594	1594	\$2,500.00	Install transom window or change doors to include window allowing for natural light in room. Transom would allow for ventilation.

2.5b Analysis of Existing Facilities

Recent curriculum re-alignments for Anthropology, needed for compliance with state ADT's, have expanded Anthropology offerings to include 2 additional courses requiring lab space for instructional purposes. Per this need DBS is requesting an additional room (adjacent to current room 1594) 1596 to be re-assigned as a lab classroom. Due to enrollment demand, the lab classes are in dire need of additional space.

The Emeritus Hall restrooms need refurbishing. Only cleaning and small cosmetic changes have taken place in the past 30+ years. Their overuse and overcrowding should be analyzed for a better way to serve students and visitors as well as maintain the space.

Much of the furniture is cumbersome and not supportive of student interactivity.

3.1 Develop Financial Resources

Museum:

The Museum Store launched successfully this year, providing an additional revenue for categorical program needs. The recent 5-day Museum sale brought new visitors and supporters into the Museum, while generating close to \$10,000 in revenue. The Museum is open, and exhibits are focused on the local Native American community during the SRJC Day Under the Oaks Open House and the Annual Native American Celebration.

3.2 Serve our Diverse Communities

All of our regular and adjunct faculty advertisements state we are seeking individuals with familiarity with diversity and ability to teach diverse student populations. Our applications request a statement from each applicant regarding their sensitivity to diversity or their experience teaching or working with diverse students and/or learning styles.

The current DBS is among the most diverse departments in the District in ethnicity, gender, age, and general social background.

Hiring trends in recent years has found the department employing more women to teach than men; this is also reflected in a larger number of female applicants.

The Santa Rosa Junior College Museum is another means by which the DBS promotes sensitivity to diversity. Ten years ago, the SRJC Museum grew in breadth by including "Multicultural Exhibits" in its title and description. The collections have always held some African, Hispanic, Asian and other artifacts, but the larger collections have been and currently are Native American in origin. Along with the inclusion of diversity through the title shift to a Multicultural label, we have increased both permanent and borrowed collections from a diverse range of cultures. We have exhibited and held activities for Asian, African, Hispanic, and Jewish cultures. This year, we have included an Eritrean exhibit that has reached out to both our own local populations as well as population in surrounding states.

Every May (with the exception of the cancellation of event due to the H1N1 scare and two years due to budget cuts), the campus community in conjunction with the SRJC Museum, partake in Days Under the Oaks. Here is a brief description:

"For nearly three decades, Santa Rosa Junior College has proudly held one of the most popular and unique community events in Sonoma County, Day Under the Oaks. Each year thousands of members of the community come to the beautiful, park-like Santa Rosa Campus on the first Sunday in May from 10:00 AM to 4:00 PM for a free open house and community education fair. DUO attendees explore SRJC's outstanding instructional program exhibits and demonstrations and a festive array of other colorful activities, plus sample the delicious array of food prepared by student clubs! At Day Under the Oaks you can visit the stunning world class Pomo basket collection in the Jesse Peter Museum and watch the colorful Native American dancers or the dramatic Chinese Dragon Dance Troup. Attend the children's theatre, enjoy sports clinics and fencing and karate competitions, do crafts at the Bookstore, and discover dazzling magic shows in the Chemistry Lab. There are free shuttles and campus tours, pony rides, fire and emergency equipment, craft booths galore featuring the works of local artists, space travel in our Planetarium, jazz and other live music under shaded oaks, and so much more at Day Under the Oaks."

Virtually hundreds participate in this colorful, welcoming, and heartfelt event and many thousands more are visitors to the event. The museum is typically open on this day as well. At one recent time, over 1600 individuals were counted entering the main museum door. The event produces cultural education, pride, and sensitivity and unites peoples of all generations. Dr. Brenda Flyswithawks, a Psychology Instructor in the Department of Behavioral Sciences, has become the most recent coordinator of this large and complex event; Museum staff and other faculty concurrently support the museum displays and visitation. Due to budget cuts in recent years, Brenda Flyswithawks (and the event) is dependent on variable and unpredictable private support and funding. She has raised funds for this year from outside sources and has led the activity for five years. The 2008 costs for the Native American Celebration at Day Under the Oaks are approximately \$8,200.00.

3.3 Cultivate a Healthy Organization

Both Administrative Assistants in the Lower Emeritus Service Center seek and are encouraged to obtain opportunities to learn new software. When requested, work on other classified hiring committees or District groups is encouraged if their own work schedule permits.

Adjunct and Fulltime faculty hiring is done with a focus on building a strong, diverse, and robust instructional team. Professional development is encouraged for all faculty and staff in the department, several faculty members participate as presentors or attendees at discipline conferences or symposiums. Classified staff are encouraged to participate in opportunities offered at the JC and elsewhere to strengthen their skills.

3.4 Safety and Emergency Preparedness

Department Safety Leader(s). List the names of department safety leaders in Emeritus:

Brenda Flyswithawks

Lori Derum

3.5 Establish a Culture of Sustainability

The Department has worked assiduously to use the available online resources to avoid printing and copies. The majority of syllabi are now available on line and many classes have required online components to save paper. All faculty have been and continue to be encouraged to make full use of our online environments.

4.1a Course Student Learning Outcomes Assessment

DBS is in the process of bringing all disciplines to 100% on SLO assessments on all active classes.

4.1b Program Student Learning Outcomes Assessment

The department is dedicated to supporting student learning.

Course and Program SLO Assessment

5.1 Effective Class Schedule: Course Offerings, Times, Locations, and Delivery Modes (annual)

Overview

All disciplines in the DBS offer courses throughout the traditional 7:30am-10pm MTWTH week. We also offer Psychology and Anthropology on Fridays at SR, and have rotated all three disciplines through the weekend college since its inception. Our teaching styles vary and we offer small sections of lab style classes (Anthro 1L and Psych 1B), regular lecture and discussion sections ranging from 25-60 students each, as well as the majority of the Large Lecture Load sections in Newman Auditorium (198 seats) and Ellis Auditorium (250 seats).

Delivery Method

Psychology has become a phenomenal role model for all other JC general education programs in its rich and varied creation of online courses. To date, Psych 1A, 1B, 3, 4, 5, 7, 30 and 56 are all offered online. More online courses will be developed within the coming year. Anthropology has begun to offer online classes (Anthro 1 and 2). Sociology is currently offering two online class (Soc 1 and 30).

Locations

DBS courses are offered at SR, PET, and Gualala. Due to the recent budget cuts, classes in Windsor, Rohnert Park, and Sonoma are no longer offered.

Serving Students

In the last five (5) years, DBS has averaged around or above the District statistics for Retention and Course Completion. The minor fluctuations both between Psych, Soc, and Anthro seen below most likely reflect the challenge seen in online education where retention and passing are known to be challenging, especially with students unprepared (and insufficiently supported) to be successful in an online environment.

5.2a Enrollment Efficiency

As the DBS has been willing to schedule classes in some of the largest of classrooms found in the District (Newman Aud 198 seats and other 45-60 seat classes), our Efficiency figures can and do fluctuate at both the SR and PET campuses. Holding so many of our DBS sections in Newman Auditorium (and increasingly in Ellis Auditorium) has an interesting impact on our efficiency. A class of 170 students still has about 25 empty seats...if productivity is measured by empty seats alone, we are disadvantaged by this statistic.

“Efficiency” is not always a fair or full measure of the heavy loads carried in the DBS programs. The following figures make the most sense only when seen in relation to the following section on Average Class Size.

DBS is the most productive department in the district with a ratio of expenses to revenue, the highest across all departments.

5.3 Instructional Productivity

Overview

The ratio of Full-Time Equivalent Students (FTES) to Full-Time Equivalent Faculty (FTEF) in each discipline at first census.

Instructional Productivity

Core areas of the DBS are compared to the District below.

All DBS disciplines in all locations exceed this ideal by a major range that in some years, approaches double the District Productivity. The ability of the DBS to “carry smaller enrolled programs” around the District is great. It is hoped that all staffing committees in the future realize that we are carrying that responsibility and at present are willing to continue and enlarge upon that support if provided with new Regular Staff positions.

Without the College Service contributions of Regular Faculty for assisting the Chair to manage evaluations, orientation, curriculum, SLOs, labs, and the museum, we cannot continue to add new Adjunct Faculty. The PRPP data demonstrate that we can manage large enrollments, but we cannot manage all the support needed for such large enrollments without a better PT/FT ratio of instructors. At present, our PT/FT ratios are not supportive of the load we carry. See section 2.3.b

Behavioral Science - FY 2017-18 (plus current FY Summer and Fall)

5.3 Instructional Productivity The ratio of Full-Time Equivalent Students (FTES) to Full-Time Equivalent Faculty (FTEF) in each Discipline at first census.

5.5 Successful Program Completion

Anthropology, Psychology, and Social & Behavioral Sciences degrees currently have MAJOR courses of study while Sociology has submitted their Major for approval this semester.

While it is always satisfying for a student to declare a major in one of our disciplines, providing the broad based General Education courses for all transfer students is an equally important goal in our programs.

The DBS Faculty should add a discussion on “The Role of the Major at a Community College” to

future department agendas. It is a discussion that would help us maintain a broad balance for student success in both majors and general education study.

This department does not award certificates, but our courses are included in the other Certificate Programs.

Behavioral Sciences Degree Completion

Description	Prog Type	2009 2010	2010 2011	2011 2012

5.9a Curriculum Responsiveness

Courses in DBS have grown to correspond to the changing needs of the student population. In recent years, we see more Veterans (from the war in Iraq), returning students (from declining economics and growing unemployment), and 65+ year old students (from the baby boomer generation) enroll in courses at SRJC. DBS offers courses that incorporate social, emotional, and physical characteristics into our curriculum that is appealing to the growing student population mentioned above.

According to the National Center for Education Statistics, 31% of graduating students earned credits in a psychology course during high school. More than 150,000 students took the AP Psychology exam in 2009, up from 4,000 in 1992. The Psychology discipline attempts to fulfill this growing field by creating a major, designing new courses, and increasing the number (and/or the enrollment size) of classes to fulfill the demands of the students.

5.9b Alignment with High Schools (Tech-Prep ONLY)

Not Tech Prep

5.10 Alignment with Transfer Institutions (Transfer Majors ONLY)

More than 50% of the courses in the Psych and Anthro Majors align with the transferable major courses at common CSU's and UC's that SRJC students transfer to.

All three departmental disciplines now have approved transfer majors.

5.11a Labor Market Demand (Occupational Programs ONLY)

Not Occupational Program

5.11b Academic Standards

The Behavioral Sciences Department regularly engage in conversation about academic standards. Discussions are on the following topics:

1. Textbook use and their appropriateness for the courses and students at SRJC.
2. Course outline of record and the type of assignments given.
3. Academic integrity and the consequences of cheating.
4. Instructor teaching and student learning styles in the face of growing technology.
5. Online and hybrid delivery.

Our hope is to provide the best education for our students in the face of changing demographics and advances in technology.

6.1 Progress and Accomplishments Since Last Program/Unit Review

Rank	Location	SP	M	Goal	Objective	Time Frame	Progress to Date
0001	ALL	02	01	Provide release time for SR Anthro faculty member to oversee lab, 5% per semester, 10% for summer	Course improvement, student success.	2021-2022	Not happened
0002	ALL	03	06	Develop new curriculum as required and needed. (e.g.Intro to Positive Psych)	Discipline improvement, student success.	2019-2020	Curriculum has been expanded to allow for Psych AA-T to be completed fully online.
0003	ALL	02	06	Increase Distance Education online instruction.	Meet student demand and provide student success.	2020-21	Due to the College being remote for the last academic year, more faculty have completed Canvas training and become online proficient.
