Program Resource Planning Process

Fashion Studies 2022

1.1a Mission

The Fashion Studies Program provides theoretical knowledge as well as practical applications of the skills needed for employment in various phases of the commercial fashion industry. The Fashion Studies Program offers two Certificate of Achievement options. The Fashion Fundamentals Certificate totals 19.5 units and the Fashion Design Certificate totals 28.5 units. The program provides excellent opportunities for building entry level skills in all areas of the fashion industry. The Associate of Arts Degree is also available for Fashion Studies students to pursue by completing either of the Fashion Studies Certificates plus the required combination of General Education and Electives classes to meet a total of 60 units.

1.1b Mission Alignment

The Fashion Studies Program supports the district's mission and initiatives in a number of areas:

1. We provide both academic and vocational education to students.
2. Graduates of our certificate programs are trained in areas that will enhance the economic development and competitiveness of Sonoma County and the North Bay area.
3. Our courses are offered only on the Petaluma campus due to the equipment and lab requirements necessary to teach the courses effectively.

1.1c Description

The Fashion Studies Program provides students with skills needed for employment in various phases of the commercial fashion industry. Our range of courses includes theoretical and hands-on training in variety of fashion industry skills including apparel construction, patternmaking and draping techniques, textiles, merchandising, and fashion entrepreneurship.

The Fashion Studies Program offers two Certificate of Achievement options. The Fashion Fundamentals Certificate totals 19.5 units and the Fashion Design Certificate totals 28.5 units. The program provides excellent opportunities for building entry level skills in all areas of the fashion industry. The Associate of Arts Degree is also available for Fashion Studies students to pursue by completing either of the Fashion Studies Certificates plus the required combination of General Education and Electives classes to meet a total of 60 units.

1.1d Hours of Office Operation and Service by Location

The program is in the process of hiring a full-time faculty anchor. It does not have an administrative assistant even on a part-time basis to help administer the following Career and Education requirements or the programs in addition to enrollment-based courses. The following duties currently fall to the Fashion Studies Program Coordinator who is adjunct faculty. Once the full-time faculty is in place, they will take over these duties.

Administrative Tasks:

- Purchasing and organizing the repair of classroom equipment
- Monitoring budgets
- Assembling hiring pools
- Schedule development and teaching assignments
- Developing and maintaining curriculum currency

Site-related Duties include:

- Organizing the annual "Fashion Design Contest"
- Fundraising for the annual contest prizes
- Overseeing the annual fashion show
- Coordinating a current advisory committee

1.2 Program/Unit Context and Environmental Scan

The Budget Code (1303) is for the Fashion Studies Program.

The type of class, lecture versus laboratory, will significantly affect some of the data outlined below. Lecture classes have a limit of 30 students per class, whereas, lab classes have a limit of 25 students.

Growing online retail job opportunities

Online Styling services are a growing market and job opportunity for our Retail Merchandising Students. These are online personal styling subscriptions that help consumers discover unique style with a personal *stylist*. Personal styling services such as these are available for men & women. They select and send professionally curated clothing to your door. Whether shopping for a special occasion or work and casual clothes to wear day-to-day, these styling services can help you update your closet (and even save some money while you're at it). There are many to choose from on-line. Three notable companies along with the service each provide follows.

Stitch Fix

When you sign up for **Stitch Fix**, you'll take an in-depth survey of your sizes, your style, and pricing preferences. After choosing when you'd like to receive your delivery, your stylist will hand-pick 5 clothing and accessory items just for you! Keep what you love, return what you don't.

Trunk Club

Trunk Club is Nordstrom's personal styling service for sizes XS-3X! You'll fill out a survey and even chat online with a stylist to pick the perfect assortment of pieces. You can even swap items out before they ship. Trunk Club price matches within 14 days of purchase exclusively to Nordstrom.

Dia & Co.

The Products: Dia & Co. is a plus size styling service that sends you 5 awesome pieces of clothing and accessories picked just for your size, weight, height, price range, and personal style. Keep what you love, and return what you don't. They even price match if you find a better price for an item elsewhere!

Social Media Trends:

The use of social media such as Facebook and Instagram to connect with our present and potential new students has become an important component to updating students, industry professionals and the general public about what is happening with Fashion Studies Program. Regular postings with photos and videos about events within our program such as design contests, workshops, and demonstrations create interest and increase enrollment in the program. Those interested in learning what types of projects are completed in the courses offered in the program can browse the photo albums that have been posted for classes each semester. The Fashion Studies Program has designated several administrators to edit and update posting regularly in an effort to maintain a current and dynamic Facebook page. Input from our Fashion Studies students and Fashion Studies Advisory committee members regarding popular social media trends factor into choosing the most effective social media for our program. We are considering developing an Instagram page as well.

2.1a Budget Needs

The Fashion Studies Program (1303) has experienced a 1.5 percent reduction in the overall budget from 2019-2021. This discipline's requests are relatively modest but desperately needed.

Equipment Repair (5659) and Equipment Maintenance (5652): The Fashion Studies Program owns and uses more than 35 sewing machines. In a typical semester at least 20 of these are used heavily by students in our clothing construction and patternmaking courses. In addition there are three industrial sewing machines, 20 dress forms, 4 industrial irons, as well as other miscellaneous equipment all of which must be serviced on a yearly basis in order for it to function properly. To date, all maintenance demands for all of this equipment have fallen upon adjunct faculty as the anchor full time faculty member retired in 2015. These adjunct instructors, in addition to their teaching responsibilities are already overwhelmed with the administrative and operational duties of running the program and are not trained or qualified in sewing machine maintenance and repair. We are requesting that a \$2000 budget be put into place for our program to cover our repair and maintenance needs.

Supplies (4390): The Fashion Studies Program has course fees in place to cover some of the classroom materials required for students to use, but there are supplies that are needed in the classroom which must be replaced and upgraded each year to keep the sewing lab functional. In addition there are office supplies required each semester to maintain regular program functions.

Periodicals (4320): It is essential to this discipline to keep subscriptions to *Women's Wear Daily*, *Vogue*, and *Textile World*. It is critical to access the latest magazines to study the job market and trends in fashion. Fashion also needs to diversify magazines by offering subscriptions that cover male (for example, GQ) fashion trends since there are a number of men enrolling in the program. Also, in the past, fabric stores discarded old, pattern catalogs by donating them to the community. About ten years ago, this practice was discontinued. Since then, the discipline has to pay for these. Also Fashion Studies would like to subscribe to current trend sites. Now, students only have free access to trend sites of the previous season. Fashion Studies is asking for an increase to \$300.

Adjunct Faculty Pay:

The Fashion Studies program has moved to the Petaluma campus and this move requires significant work by adjunct faculty to design and set up the new classroom space in order to receive students back in the classroom. The program is requesting 50 hours of pay in 2021/2022 for Adjuncts to complete this work. In addition, the move to Petaluma presents an exciting opportunity for Fashion to extend their student base southward into Marin County. The Fashion Program is requesting pay for adjunct faculty to do outreach to high schools and industry groups in Marin. Also it is important that based on recent curriculum updates, work is needed to update articulation agreements with 4yr colleges that our students prefer for transfer.

2.1b Budget Requests

Rank	Location	SP	M	Amount	Brief Rationale

2.2d Adequacy and Effectiveness of Staffing

2.2d Adequacy and Effectiveness of Staffing

Program Administrative Assistant:

When the Consumer and Family Studies Department was splintered into various disciplines and transferred to other clusters, the administrative assistant who supported the department was eliminated. Fashion Studies needs the employ of a part-time administrative assistant for 8-10 hours per week. Currently classified support for the discipline is shared by the Theatre and Fashion administrative assistant and the assistant to the Dean of Arts and Humanities. Their jobs are demanding enough and do not need the extra work that our program requires.

Fashion Studies is an active and busy CE program. An Administrative Assistant is required for day to day support with program concerns such as purchase and repair of lab equipment, addressing student questions, and creating program publicity materials. In addition, an Admin. is needed to support annual events such as the Advisory Committee meetings, the Spring Fashion show, and the Student Design Contest.

Program Full Time Faculty:

The Fashion Studies Program is in the process of hiring a full time faculty member. This new faculty will work on projects that have been difficult for the Adjunct Program Coordinator to keep up with such as: Increasing online course offerings, fundraising, community outreach and recruitment, event planning, program promotion, updating and posting on social media, and effectively supporting students who wish to complete our degrees and certificates. The full time faculty will hope to guide the Fashion Program to increased enrollment, increased certificate completions, increased transfers, and would help to increase our profile within the school and the community.

2.4b Rationale for Instructional and Non-Instructional Equipment, Technology, and Software

Fashion Studies equipment requests are all related to the recent move out of Garcia Hall in Santa Rosa and into the new classroom space in Petaluma. The old classroom had significant built-in storage space and cabinets which housed the sewing machines, held classroom supplies, contained ironing boards and mirrors as well as space for hanging garments. The new classroom has limited cabinetry that is not designed to hold the equipment and supplies used for Fashion Design. The new classroom is carpeted, which is something we would like to change in the long run as it is not ideal for a sewing lab. In the short term we are requesting a vacuum to help keep the floor free of pins and thread. In addition, Fashion was in need of an update to the computer used by faculty in the office, and our previous printer had been broken for several years.

Additionally, the bookshelves are required due to a recent donation of a significant collection of fashion related text books that the program has received and would like to house in the classroom as a resource to students.

2.5a Minor Facilities Requests

Rank	Location	SP	M	Time Frame	Building	Room Number	Est. Cost	Description
0001	Petaluma	04	07	Urgent	Doyle	247	\$0.00	Remove the carpet inPetaluma 247 classroom

2.5b Analysis of Existing Facilities

The new classroom space in Petaluma has a lot of potential for Fashion Studies but the carpet is not ideal for a sewing studio for many reasons. Pins and needles that fall to the floor will become tangled in the carpet and threads and fabric scraps are difficult to pick up from carpet also. Also, the dress forms that are regularly used in classes are on wheels which are not designed to roll well over carpet and will tend to tip over and fall if rolled too quickly.

In the long term, Fashion requests that the carpeting be removed and some type of hard flooring be installed in its' place.

3.1 Academic Quality

Fashion Studies discipline works consantly to generate funding from local organizations, i.e., American Sewing Guild, Santa Rosa Quilt Guild, Pointless Sisters, and Art Quilt group. Local sponsors, manufacturers, and advisory members also contribute to our funding. Contributions to the Bronson Lee Memorial Fashion foundation fund had a sum of \$5,700 at the beginning of this year. This fund has been important to pay stipends, purchase fashion contest prizes, finance awards ceremony, and anything that benefits and showcases our students' endeavors.

3.2 Student Success and Support

Faculty and staff within the Fashion Studies Program are committed to supporting diversity both in the classroom and in the work environment. For recruiting faculty we follow the standard procedures set out by the SRJC Human Resources department. When applications for new positions are requested, we ask all candidates for their statement on diversity.

3.3 Responsiveness to Our Community

Fashion Studies discipline cultivates a healthy organization by keeping the lines of communication to the wider district opened and keeping abreast of any change in district policies.

4.1b Program Student Learning Outcomes Assessment

Program Student Learning Outcomes:

Upon successful completion of this program, the student will be able to:

1. Communicate design concepts through technical sketches and illustrations.
2. Translate garment design concepts from sketches to patterns.
3. Execute the pattern and construction of a garment from concept to finished product.
4. Relate the history and social context of fashion to current industry trends.
5. Apply technical and professional skills expected in the fashion industry as both an employee and an entrepreneur.

Fashion Fundamental Certificate:

1. Execute industry standard garment construction techniques.
2. Select appropriate fabrics for apparel based on fiber content, fabric construction, and environmental impact.
3. Relate the history and social context of fashion to current industry trends.
4. Apply technical and professional skills expected in the fashion industry as both an employee and entrepreneur.

5.9a Curriculum Responsiveness

The Fashion Studies Advisory Committee has seven members from industry represented. All of these members (except one) represent industry and business for all of the Certificates and Associate of Arts Degree. The one exception is a high school faculty member.

The Fashion Studies Advisory Committee meets two times during the year with additional subcommittee work meetings on an "as needed" basis.

5.9b Alignment with High Schools (Tech-Prep ONLY)

The Fashion Studies Program has established an Articulation agreement with Rancho Cotate High School which has a Career Education program and offers classes in Fashion Design. The Fashion instructor is Debra Bee who is also a member of the SRJC Fashion Studies Advisory Committee. Students from Debra's classes will have the opportunity for dual enrollment so that when they complete the year of Fashion Design at RCHS, they will be able to submit the assessment to receive Credit By Exam for FASH 70A Clothing Construction 1. These students will then have a head start on completing one of our certificates or degrees.

Additional outreach to other area high schools is an important goal for the new full time faculty member. Because the program has moved to Petaluma, outreach to Marin County High Schools would help to expand our reach into the bay area.

5.10 Alignment with Transfer Institutions (Transfer Majors ONLY)

If ever staffed appropriately, the Fashion Studies Program would love to begin the process of articulating with four year college, universities, and private universities for transfer agreements in Fashion Studies and developing a Fashion transfer major.

5.11a Labor Market Demand (Occupational Programs ONLY)

In March 2021 we received the [Fashion Occupations Labor Market Information Report](#) which was completed for the SRJC by the Centers of Excellence. Occupations that were

included in the report: Fashion Designers, Merchandise Displayers and Window Trimmers, and Fabric and Apparel Patternmakers all of which are listed as some of the job descriptions for which our degrees and certificates will prepare students.

The recommendation of the report was as follows:

“Based on all available data, there appears to be an “undersupply” of Fashion Studies workers compared to the demand for this cluster of occupations in the Bay region and in the North Bay sub-region (Marin, Napa, Solano, and Sonoma counties). There is a projected annual gap of about 268 students in the Bay region and 89 students in the North Bay Sub-Region.”

In addition to the COE report quoted above which states that there is a demand for Fashion employees in the North Bay, there are also hundreds of fashion related jobs that are not counted by the Bureau of Labor Statistics. Fashion entrepreneurs, fashion bloggers, Etsy sellers and other areas of employment are thriving and growing as there is a continued trend in the industry towards consumers wanting to purchase clothing that is designed and made in the USA and even more specifically, locally made and produced. Fashion magazines, newspapers and industry standards like Women’s Wear Daily have all reported on these new trends in fashion retail.

Many Fashion Studies students who complete the program go on to have success starting and working for small businesses making and selling their designs, products and services.

5.11b Academic Standards

Academic Standards are included in all of the courses are discussed when new courses and course revision occur. Some courses are UC transfer courses and require formal term papers and/or culminating term projects as part of the course requirements.
