

Santa Rosa Junior College

Program Resource Planning Process

Medical Assisting 2022

1.1a Mission

Edited 3/17/22

The Mission of the Medical Assisting (MA) Program is to provide education to prepare entry-level Administrative and Clinical medical assistants with the skills, techniques, strategies, and knowledge to work in medical offices, hospital outpatient clinics, and health centers. This is one of the FASTEST growing health care fields with jobs available in the community or nearby. We are constantly working to improve the program and changing it according to the needs of the community.

1.1b Mission Alignment

Edited 3/17/22

The Medical Assisting Mission Statement aligns with the SRJC mission statement by offering programs with high academic standards and promoting awareness of and maintaining sensitivity to ethnic, cultural and gender diversity and institutional goals to help students become proficient in technology, to listen actively and respectfully and to locate, analyze, evaluate and synthesize relevant information. We strive to offer courses that reflect academic excellence and integrity and which serve the variety of needs and abilities of our students.

Medical Assisting:

Our program aligns with the District's Mission and Strategic Goals. Our program is committed to:

- Helping students succeed in meeting their educational goals and eliminating barriers to college education by providing guidance and support services through academic advising and referral to SRJC support services, including library, scholarship, financial aid, workforce development, etc.

- Challenging students to be responsible for their academic success and development as efficient, knowledgeable, ethical MAs.
- Promoting cultural awareness, sensitivity, and respect that are integral to success in working with the diverse populations in our county.
- Securing faculty who are knowledgeable, have current experience in their particular area of medical assisting, demonstrate strong teaching skills, and who are committed to student success.
- Working closely with community experts in developing curriculum that meets both professional and student needs.
- Promoting active participation in class, clinical and/or computer labs, and an externship practical experience in a medical office and outpatient clinic.

1.1c Description

****Edited 3/17/22****

Medical Assisting (MA) is a career path that can be its own career or a stepping stone to nursing, radiology or many other medically based careers. Students can obtain a certificate and be working in as little as 4 semesters.

Medical Assisting is a career with many jobs available. As are one of the fastest growing occupations in California, and especially in Sonoma County. Employment growth is expected because of the aging baby boom population, current working MAs that are nearing retirement age, and the increase in the number of group practices, clinics, and other healthcare facilities that need greater numbers of support personnel. Because many health care employers prefer a trained staff, job prospects are best for MAs with formal training or experience, and for those who are certified.

MA GRADUATES FROM SRJC OFTEN PURSUE HIGHER EDUCATION

Students who complete the MA program at SRJC often go on to pursue education as a licensed vocational nurse (LVN) or registered nurse (RN). Students who complete the MA program with an associates degree, often work as an MA while at the same time pursuing a bachelor's degree or higher.

AVERAGE WAGES:

According to the U.S. Department of Labor, Bureau of Statistics (2020), the median annual wage for MAs across the United States in 2019 was \$34,800 per year.

According to the State of California, Employment Development Department (2020), the median wage in 2020 for MAs in California is \$38,772 annually, or \$18.64 hourly. The median wage for MAs in Sonoma County is \$45,786 annually, or \$22.01 hourly.

Source: State of California, Employment Development Department. (2020). Medical assistants in California. Retrieved from:

<http://www.labormarketinfo.edd.ca.gov/OccGuides/detail.aspx?Soccode=319092&Geography=0604000097>

Source: Bureau of Labor Statistics, U.S. Department of Labor (2020). Medical assistants. Occupational Outlook Handbook. Retrieved from: <http://www.bls.gov/ooh/healthcare/medical-assistants.htm>

JOB OUTLOOK FOR FOR MAS IN THE UNITED STATES

According to the U.S. Department of Labor, Bureau of Labor Statistics (2020), employment of medical assistants is projected to grow 23 percent from 2018 to 2028 - much faster than the average for all occupations.

The growth of the aging baby-boom population will continue to increase demand for preventive medical services, which are often provided by physicians. As a result, physicians will hire more assistants to perform routine administrative and clinical duties, allowing the physicians to see more patients.

Source: Bureau of Labor Statistics, U.S. Department of Labor (2020). Medical assistants. Occupational Outlook Handbook. Retrieved from: <http://www.bls.gov/ooh/healthcare/medical-assistants.htm>

JOB OUTLOOK FOR MAS IN CALIFORNIA & SONOMA COUNTY

According to the State of California, Employment Development Department (2020), in California, the number of MAs is expected to grow much faster than average growth rate for all occupations. Jobs for MAs are expected to increase by 29.2 percent, or 24,800 jobs between 2016 and 2026.

In Sonoma County, the number of MAs is expected to grow much faster than average growth rate for all occupations. Jobs for MAs are expected to increase by 32.5 percent, or 400 jobs between 2016 and 2026.

Source: State of California, Employment Development Department. (2020). Medical assistants in California. Retrieved from: <http://www.labormarketinfo.edd.ca.gov/OccGuides/detail.aspx?Soccode=319092&Geography=0604000097>

Effective Fall of 2019, the Medical Assisting certificate program changed to include both clinical and administrative skills with a total of 40 units. Students can also obtain an Associate of Science (AS) degree.

Recommended sequencing of classes can be viewed on the SRJC Medical Assisting web site at medical-assisting.santarosa.edu.

Finishing a Medical Assistant certificate/degree contributes towards a career involving working in a medical office or clinic that involves direct patient care like rooming patients, taking vital signs, assisting with medical procedures and diagnostic testing and/or assisting the provider with billing, insurance and coding.

1.1d Hours of Office Operation and Service by Location

****Edited 3/17/22****

Medical Assisting:

All MA-prefix courses are offered in person on the Santa Rosa campus, Monday through Friday during the day. The pre-requisite courses like HLC, LIR, ANAT and PSYCH vary as to their offerings.

Currently, the externship is offered in the summer only, and requires that the students complete a total of 240 hours of externship time. Students are generally placed in Sonoma County medical offices and clinics at Kaiser, Sutter, Santa Rosa Community Health, St.Joe/Providence, and other smaller offices that vary. While onsite, the students practice Clinical and/or Administrative Medical Assisting (rooming, vital signs, procedures, coding, insurance billing, etc) in accordance with all federal, state, county, District and health care organizational policies (HIPAA, OSHA, etc.).

All instructors and the MA Coordinator are available by email at their www.santarosa.edu addresses, by phone and during office hours which are posted on the office windows of each and every staff member. We believe that as professionals and instructors, what we teach them should be correct and reflect what an ethical, well taught Medical Assistant should do in the clinical and administrative areas. Our instructors excel in both experience and teaching ability.

This is a growing and vital program at SRJC and it is one where jobs are highly in demand.

1.2 Program/Unit Context and Environmental Scan

****Edited 3/17/22****

Medical Assisting:

Trends in Medical Office employment show that providers started using Medical Assistants differently around 1990. At that time, they began to give them more duties and today they are actually even able to give injections and draw blood.

Medical Assisting jobs are highly in demand in California, please see PRPP section 1.1c for a detailed job growth outlook with references.

Medical Assisting in the clinical and administrative area is growing in our community and in the greater economy because of the addition of the Affordable Care Act, the decreased cost of using Medical Assistants in the office rather than nurses and the amount of people expected to retire in the next decade.

Medical Assisting does not see students transferring to a four year program because it is focused on workforce training. We **do** see returning students who later attend our other healthcare programs including associate degree nursing (ADN) who consequently transfer on to Sonoma State University's ADN-BSN program. They can also transfer to a 4 year college if they finish their associates degree which many do. Many simply finish an associates degree in Medical Assisting.

There is currently one full time tenure faculty member that is the Coordinator of the program, and is also instructing in the program. The rest of the instructors are adjunct faculty.

As the economy continues to improve, more and more students will seek short term training programs, especially in programs that often result in jobs. The Medical Assisting program is 4 semesters long, and results in jobs often with excellent benefits and moderate pay.

We expect to see continued growth in the SRJC MA program, **because it is the most rapidly growing profession in the decade according to every medical assisting college website including our own and the US Government!**

2.1a Budget Needs

With an increase in enrollment the supply needs of the Medical Assisting program are rising.

Medical Assisting - FY 2020-21

*****Updated 3/17/22*****

3 adjunct faculty members of the current 3 are within retirement age.

2.3d Analysis of Faculty Staffing Needs and Rationale to Support Requests

The demand for the medical assistant program is growing with full classes every semester. Jobs for medical assistants in the community continues to grow with students getting jobs from their externship sites immediately upon graduation. There is demand for our students in the community due to the quality of the graduates. Kaiser and Sutter continually request students.

The need for trained medical assistants will be increasing with the recent health care reform as evident by the quick employment and requests for more students.

Coordination of background checks and immunizations with the assistance of Administrative support requires the oversight of a full time faculty member for a program the size of MA.

2.4b Rationale for Instructional and Non-Instructional Equipment, Technology, and Software

Updated 3/17/22

Rationale for EKG leads: We currently have several laptops in health sciences that are shared among programs (Nursing, Medical Assisting) that are specifically dedicated to practicing EKGs. All of them already have the CardioCard software installed, but they also require the leads that run from the laptop to the patient to record the heart rhythm and produce a tracing. Only ten of them currently have these leads. So in order to make use of the rest of the laptops for EKG practice, we need to buy and install more leads.

Rationale for Exam Tables: When we first set up the new ambulatory skills lab, we thought we only had space for four exam tables. However, now that we've been using the space, we found we can put five more exam tables in the room, which will allow for more efficient use of our lab time for more students to practice their skills.

Rationale for curtains and tracks: We need to add more simulated clinic spaces for students to practice skills.

Rationale for TV: The instructor needs to be able to show short training demo videos and use the large TV in the front of the room without having their back to the students to see what's on the screen. So we need a large TV mounted in the back of the lab so the instructor can teach the students face to face.

Rationale for the babies and scales: We teach pediatric skills in the program, and we need more realistic baby mannequins and scales to allow more students to practice at the same time.

Rationale for patio furniture: Students, faculty, and staff should be able to use the outdoor balcony/patio space on the 2nd floor comfortably for breaks. The furniture there now is all rusted out, and extremely uncomfortable and needs to be replaced.

2.5b Analysis of Existing Facilities

Updated 3/17/22

Additional lab space has been created in 4044 as an ambulatory skills lab, and is in use for all programs, not just MA.

3.1 Develop Financial Resources

—

3.2 Serve our Diverse Communities

The Medical Assisting program is seeing an increase in Latino, especially Latina, students, which is not reflected in our faculty. Currently the program has one bilingual English/ Spanish instructor. Consideration of a Spanish class or immersion for current instructors has been discussed as a possibility to assist with this issue or the use of an online program. I think this has become less of an issue with the incoming students being a large mix of all races which is a wonderful thing to see at SRJC.

We should still look at a Spanish class for instructors and I am looking at immersion classes currently offered at SCOE.

3.3 Cultivate a Healthy Organization

3.4 Safety and Emergency Preparedness

Department safety leaders for Health Sciences are located in the health sciences office and in the skills lab office. Students are taught safety in all medical procedures and in fire safety within the Race building. All students and instructors are required to be certified in Cardiopulmonary Resuscitation techniques through the American Heart Association.

Instructors are advised to lock office doors when working after hours or when building is not in full use or when they are simply alone.

Meetings with students are not to take place when no one else is in the Race Building.

Teachers are advised to make effective ground rules about the kind of behavior that is expected and tolerated in the classroom and to include it in the syllabus. They are also advised to call campus police if any undue behaviors occur as early intervention is vital and having trained colleagues present that are prepared to assist is of the utmost importance.

Plans are being made for classes in safety and responding to an immediate problem. Santa Monica College is using a training program that is an online simulation program called "at-risk" where they are given 5 classroom scenarios and asked to pick 3 students who are the most at risk. Then you are asked to be the faculty person and have a simulated conversation and are given feedback. This appears to help staff in dealing with problems in the classroom and might be a good program for SRJC to adopt.

3.5 Establish a Culture of Sustainability

Clinical medical assistants do use bloodborne pathogens exposure prevention protocols when giving injections and handling syringes and needles. Instructors are familiar with exposure protocols used in the Health Sciences department. Students have also been aware that they need to be cognizant of recycling taking place in the Race Building.

4.1a Course Student Learning Outcomes Assessment

Medical Assisting Program SLO Assessment Cycle

Course	Semester/Year Last Assessed	Assessed By	Semester/Year Due For Next Assessment
MA 160	Fall, 2014	Gloria Strasburg	Fall 2020
MA 161	Spring, 2014	Ron Redmon	Spring, 2020
MA 162	Fall, 2013	Ezbon Jen	Fall, 2019
MA 163 (fka MA 163A)	Fall, 2014	Muwafaqu Al-Asad	Fall, 2014
MA 163L (fka MA 163AL)	Fall, 2014	Muwafaqu Al-Asad	Fall, 2020
MA 174 (fka MA 163B)	Spring, 2015	Muwafaqu Al-Asad	Spring, 2021
MA 164	Spring, 2014	Ron Redmon	Spring, 2020
MA 165	Fall, 2014	Muwafaqu Al-Asad	Fall, 2020

4.2b Narrative (Optional)

Course and program SLOs and LAPs for Medical Assisting were completed in 2012 as required by AACJC. They were revised again to fix prerequisite problems. Student handbook has been updated and distributed.

Plans to review courses annually to maintain currency are being made now. Updates are being made to prerequisites to allow for smooth transitions and ability to take classes when should be taken. SLO's will be checked every 3 years.

The course sequences were just revised for all 6 tracks in the MA program, and all MA course offerings are now better aligned with the intended flow of the sequence of courses that are recommended.

Curriculum changes have been approved and will begin this summer 2016 for MA 166.1 Administrative Externship. Other changes have been requested in the clinical courses that are in queue to be reviewed by curriculum. These changes will provide a smoother clinical experience both for the students, and the sites that accept them. We are hoping for an increase in skills lab time, which would necessitate purchasing the listed instructional supplies. Without these supplies, we cannot provide an up to date educational experience for the students that will be entering the health care workforce very soon.

State certification by CCBMA continues to remain an important goal that the coordinator and instructors are encouraging the students to pursue. Part of the clinical certification requires that students do a minimum number of injections on patients, so plans include placing students at more injection-friendly sites, and also scheduling attendance at flu clinics.

The field of medical assisting is growing and changing. Sonoma County Helpwanted.com states there are currently 434 job openings for medical assistants in the bay area. This demand continues to increase, and no forecasts show that it is slowing down. Kaiser is continuing to increase a program called MDMA where each MD has his own MA. This is a great field which is growing and changing.

5.0 Performance Measures

Clinical medical assisting skills- lab checkoffs and clinical experience

Medical language skills - use of medical terminology, anatomical terms, and pathophysiological terms

Administrative medical assisting skills - front office techniques and procedures

Procedural and diagnostic coding - for use with insurance claims

Professionalism in the clinical setting - externship experiences include reviews by staff and check off lists

Recruitment occurs as MA's finish final rotation. Several MA students get offers of employment in their final Spring semester, or Summer semester.

Local community physicians continue to reach out to our program asking for clinical and administrative students for externship with the intent to hire them.

5.1 Effective Class Schedule: Course Offerings, Times, Locations, and Delivery Modes (annual)

All classes shown are from the clinical and administrative major track because this track includes every class offered in the entire MA program:

- **First Semester (Fall)**

- CS 60.11A Microsoft Word Part I, offered F, SP & SUM, in person, online, day, evening

- HLC 160 Medical Terminology, offered F, SP & SUM, in person, online, day, evening

- PSYCH 1A General Psychology, offered F, SP & SUM, in person, online, hybrid, day, evening

- ANAT, Human Anatomy offered F, SP & SUM, in person, day, evening

- **Second Semester (Spring)**

- MA 160 Introduction to Medical Office Practice, offered SP, in person, Fridays 5:30-8:30pm

- MA 161 Law and Ethics for the Medical Assistant, offered SP, in person, Mondays, 4:30-6pm

- MA 162 Disease Processes, offered SP, in person, Wednesdays, 8am-12pm

5.3 Instructional Productivity

narrative: **Our medical Assistant Teachers are very productive and often take larger classes than expected because of student needs. This needs to be addressed. I am sure our instructors are willing to teach 2 sections or split it up. Productivity ratios do not work here as we have only one full time employee.**

(Not sure where the 2012 numbers came from unless it was downloaded from other info?)

Medical Assisting - FY 2020-21 (plus current FY Summer and Fall)

5.3 Instructional Productivity The ratio of Full-Time Equivalent Students (FTES) to Full-Time Equivalent Faculty (FTEF) in each Discipline at first census.

Review will again take place in 2018

5.5 Successful Program Completion

Students at SRJC medical assisting program have a 100% pass rate on the medical assisting certification exam. They are often hired by the better paying larger organizations in Santa Rosa because they are well trained and ethically the best.

With increased support from Coordinator I expect course completion rate to increase in next 2-3 years.

Medical Assisting - FY 2020-21 (plus current FY Summer and Fall)

5.6b Successful Course Completion The percentage of students receiving a grade of A,B,C, or CR in each Discipline (duplicated headcount).

Santa Rosa Campus

5.6 Student Success

Narrative: A lot of change has disrupted the program in the last 2 years. It is now becoming more comfortable for students with a new coordinator who is supportive of staff and student needs. Expect increases in retention of students and successful course completion in next few years. Hope is to make coordinator a full time employee and further give stability to program and help students.

Medical Assisting - FY 2020-21 (plus current FY Summer and Fall)

5.7 Student Access

In Medical Assisting we are seeing an increase in Hispanic attendance and enjoy a diverse population of students ethnicity and diversity in age. We expect this to continue in the future as the population of Sonoma County changes and becomes more diverse. We could benefit from diversity in staff but in the meantime we may need diversity training for all instructors.

Medical Assisting - FY 2020-21 (plus current FY Summer and Fall)

5.7a Students Served - by Ethnicity The number of students in each Discipline at first census broken down by ethnicity (duplicated headcount).

ALL Locations (Combined totals from ALL locations in the District)

Medical Assisting	Ethnicity	2018-19	Percent	2019-20	Percent	2020-21	Percent	2021-22	Percent
	White	81	33.1%	24	24.0%	63	21.1%	56	17.6%

5.8 Curriculum Offered Within Reasonable Time Frame

Both clinical and administrative students begin the program in the Fall with their prerequisites of anatomy, medical terminology, psych, and microsoft word.

The core MA classes are then taken in the following Spring. After that, depending on which track the student has chosen, they will either take their clinical and/or administrative focused classes.

All tracks are completed in either 4 or 5 semesters, depending on the specialty chosen.

5.9a Curriculum Responsiveness

One way that the curriculum in the MA program is responding to students and the needs of the local health care community is that all course sequences for all 6 tracks of the MA program have been revised to provide a more streamlined experience for all MA students. These new sequences are better aligned with having all students take the required courses in the required order, instead of the student being able to "skip around" and take classes out of order. Taking courses in the recommend sequence prevents errors in educational plans, prevents delays in finishing courses, and provides for better graduation rates overall. In addition, this forced cohort allows for more opportunities for stronger student relationships to form which result in more peer support, and better outcomes overall.

Another way the curriculum in the MA program has responded to the students and the needs of the local health care community is by specifically addressing one class in particular: MA 166.1 Administrative Externship. This class was teaching both clinical and administrative skills, instead of just administrative. The feedback from our community, our students, and our instructors is that the clear deliniation between clinical and administrative needs to remain separate and well defined. For example, a student taking an administrative only track (which includes only office tasks) should not be made to learn how to do hands on patient care skills, like taking blood pressures and physically transporting patients. This class, MA 166.1, was revised through curriculum, and now as of Summer 2016, only teaches what its name implies: administrative tasks.

Another way the curriculum is responding in the MA program is that there are currently several revisions to the MA clinical courses that are in queue and awaiting approval. These changes include more skills lab time, less onsite clinical time and generally more alignment with regionally accredited MA programs.

The MA Advisory Board meets every Fall and Spring. Attendance includes members from Kaiser, Sutter, St. Joe, and the smaller private physician offices in the community. Attendance at these meetings has been very good, and it is a very diverse population of members. Attendees that are faculty are 3-5 people. We have also had our MA student class reps in attendance at the last meeting. The last meeting reaffirmed that our local health care organizations do not wish our MA program to become accredited, and they are wanting our students to spend more time in Family Medicine offices, rather than going into specialties when they are new. We have responded by placing more students in FM offices, rather than specialty areas. There was also a desire for phlebotomy, so we are currently looking at the possibility of adding that to the program.

5.9b Alignment with High Schools (Tech-Prep ONLY)

Meet with high school counselors on a regular basis. Gave talk for Petaluma class and talked to group of students regarding the program. Recently met with a class from Marin County.

5.10 Alignment with Transfer Institutions (Transfer Majors ONLY)

Considering working with LVN program to form a bridge to that step.

5.11a Labor Market Demand (Occupational Programs ONLY)

Students are employable and in demand upon graduation. The shift towards more online/computerized health records has helped us to focus on providing the new Electronic Medical Records class, as well as to work with the clinical sites to train our students on the patient charting software found there.

Recent job search for Medical Assistant jobs showed hundreds of job openings for medical assistants in Sonoma County. Medical assisting Certificates are awarded by Empire College and College of Marin (only area junior college and only competition monetarily).

5.11b Academic Standards

Academic standards are high at SRJC. All students in last 17 years have passed certification exam.

6.1 Progress and Accomplishments Since Last Program/Unit Review

Rank	Location	SP	M	Goal	Objective	Time Frame	Progress to Date
0001	Santa Rosa	02	01	To maintain an academically excellent MA program.	To perform SLO assessments for classes from Spring 2022	Fall 2022	Adjunct instructors who taught the lectures will complete SLO assessments and be compensated per AFA contract
0002	Santa Rosa	02	06	Align the MA curriculum with current industry needs	Continue to align the program with our clinical partners needs.	Fall 2022/Spring 2023	We wil continue to assess our new program sequence, classes, and learning objectives to see if they remain in alignment with our industry partners needs.
