

Santa Rosa Junior College

Program Resource Planning Process

Student Life and Engagement Programs 2022

1.1a Mission

Vision

To engage all students in transformative learning experiences that develop the whole person and inspire them to affect change in their lives and communities.

Mission

To empower students and provide co-curricular learning environments that foster a sense of belonging and inclusivity, decrease barriers, and create meaningful opportunities in the following areas:

- Leadership Development,
- Advocacy & Activism,
- Problem-Solving & Critical Thinking,
- Civic Engagement,
- Cross-Cultural Understanding & Anti-racism, &
- Sustainability (Equity, Environment & Economics).

STUDENT AREA OUTCOMES 2020-2021

- • Students will be able to analyze and apply complex information in solving real world problems.
- • Students understand how to identify systems of oppression and unconscious bias in order to dismantle structural racism.
- • Students feel a sense of belonging, community, and inclusion as a result of participating in Student Life programs.
-

1.1b Mission Alignment

The Student Life, Equity & Engagement Program's mission is consistent with the District's mission and goals in the following ways:

- Improving students' foundational skills at the Santa Rosa and Petaluma campuses

- Providing a comprehensive range of student development programs through co-curricular events and student club activities
- Promoting awareness and sensitivity to ethnic, cultural, and gender diversity through co-curricular events and student club activities
- Creating opportunities for civic engagement
- Providing mentorship for students so regular assessment, self-reflection and continuous improvements can be made

1.1c Description

The Student Life, Equity and Engagement Programs (SLEE) department serves as the hub for student life and engagement programs and provides general information and student communications regarding college information, student involvement opportunities, and leadership development programs. We believe students get the most from their collegiate experience and increase their chance of success when they get involved in our unique programs designed to support and complement classroom learning. By engaging in our programs students make valuable connections with other students, staff, and the larger community, give purpose and meaning to their experience, and open paths to personal success and development.

The department administers a comprehensive program of activities and services to address student learning outcomes in collaboration with campus, community and statewide leaders and organizations. Many of the programs and activities are facilitated jointly with the Student Government Assembly (SGA and SGA Committees), the Inter-Club Council, Student Services, Public Relations, Facilities Planning & Operations, and various other campus departments/offices.

Programs & Services

- Student Government Assembly & Public Service Fellowship
- Santa Rosa/Petaluma Inter-Club Council
- Club Sports / Club Sport Coaches
- Intercultural & Queer Resource Center
- Heritage Month & Intercultural Events Programming
- District Student ID Operations
- District Information Desk
- Santa Rosa/Petaluma Campus Tours for Prospective Students & Community Members
- District Student Rights & Responsibilities
- Santa Rosa/Petaluma Student Resource Centers
- Peer to Peer Support Programs: Basic Needs Navigators
- Santa Rosa/Petaluma Food Distribution & Pantry
- Peer to Peer Support Programs: Student Ambassadors
- Student Development Programs (i.e. Empowerment Academy)
- Peer to Peer Support Programs: Student Success Coaches
- Student communications: BearFacts, Back To School Guide, Cohort communications
- MySRJCAApp moderation and updating

1.1d Hours of Office Operation and Service by Location

SRJC Student Life, Equity & Engagement

In March of 2020, SRJC transitioned to online learning due to the Covid-19 pandemic. Student Life, Equity, and Engagement primarily functioned online via zoom events, online club meetings, etc. We did host basic needs and emergency response drive-thru events and by the end of the year had various drive thru or curbside engagement opportunities such as scholarship celebrations, co-sponsored food distributions, and end of year celebrations/graduations.

Prior to moving to the online environment, the SLEE department operated during the following hours:

Santa Rosa Campus - Bertolini Student Center

Monday, Tuesday, Thursday, Friday, 8 am – 5 pm

Wednesday, 8 am - 6 pm

Santa Rosa Campus - Pioneer Hall

Monday - Friday, 8am – 5 pm

Student Resource Center

Monday - Thursday, 8 am – 4:30 pm

Friday, by appointment only

Petaluma Campus - Richard Call Building PC 608

& CyBear Center South PC 607

Monday Tuesday, Thursday, 10am – 5pm

Wednesday, 10am - 7pm

Friday, tours available by appointment

2.1a Budget Needs

<p>In all your responses to the questions in this section, please refer to Attachment 1: Program/Unit Review Data Sheet to provide evidence. [Refer to other appropriate sources of evidence (and cite your sources) such as existing budget printouts from Accounting, annual budget development worksheet (three year trend). Hot link to definitions</p> <p>These questions only apply to budget categories of 4000s and 5000s (supplies and services). Faculty and classified staffing will be addressed later.</p> <ul style="list-style-type: none">•Is the budget allocated/used effectively?•How do your budget statistics compare to the district-wide range?•Describe areas where your budget might be inadequate to fulfill your program/unit's goals and purposes.•If you need additional funds, please explain.	<p>As monies from Basic Needs and Equity have recently transitioned to other areas, Student Life is working on more limited resources than in years past.</p> <p>Since we did not collect student fees while serving students online, Covid was extremely difficult for our student budgets. This resulted in the need to utilize reserve funds. We anticipate balancing the budget this year through reduced programming (using student funds).</p> <p>It would be extremely beneficial for Student Life to have funds for food, both at events and for 'grab and go' food pantries located in SLEE areas.</p> <p>Accounting processes have been very difficult to navigate.</p>

0001	Santa Rosa	04	02	Urgent	Bertolini	Servery	\$25,000.00	The salad bar needs to be remodeled/redesigned so that customers can reach the back row of salad/salad toppings; currently some customers are not able to reach this row without ducking their heads under the sneeze guard.
0001	Santa Rosa	04	02	Urgent	Bertolini	Student Activities Center	\$5,000.00	The floor sockets need existing covers removed and replaced with covers that are flush with the dance floor; current covers present a safety hazard.
0001	Santa Rosa	04	02	Urgent	Bertolini SAC	Student Activities Center	\$25,000.00	The Student Activities Center needs mecho shade replacement for most windows.
0001	Santa Rosa	04	02	Urgent	Bertolini	Student Activities Center/Dining Commons	\$25,000.00	Add tables/chairs that are lighter for Custodians, still aesthetically pleasing. Many are either broken or unusable.
0001	ALL	00	00	Urgent	Bertolini Student Center		\$0.00	Unknown Estimated Cost. Remodel SGA area to make better use of space for student leaders; this includes moving SGA leaders to the Rotary Center, converting the SRC into a conference room, upgrading the existing kitchen space, converting the Rotary storage to an office.
0002	Santa Rosa	04	02	Urgent	Bertolini	Student Activities Center	\$700.00	Theater style curtains for the entrance to the Bertolini Student Activities Center. This will create a buffer zone between the East double doors and the main room. These curtains would be much like the curtains that separate the Burbank lobby from the seating area. The breezeway in Bertolini is very noisy and a buffer zone would help with board meetings, movies and lectures.
0002	Santa Rosa	04	02	1 Year	Bertolini	Dining Commons	\$25,000.00	The Dining Commons needs mecho shades for the West upper windows. The sun is really bright during afternoon events and assemblies.
0002	Santa Rosa	04	02	1 Year	Bertolini	Student Activities Center	\$25,000.00	The projector screen needs to be raised at least 2 feet higher; this can be accomplished by cutting the wall that hangs from the ceiling over the stage; I believe this is only a cosmetic wall and not load-bearing. The screen is currently too low when used for movies, presentations, etc. A facade will need to be built so the naming rights can be appropriately added.

Rank	Location	SP	M	Time Frame	Building	Room Number	Est. Cost	Description
0003	Santa Rosa	04	02	1 Year	Bertolini	Main entrance Lobby	\$5,000.00	Build casework for trophies, recognition plaques, etc. for student leadership programs and Larry Bertolini memorabilia.

2.5b Analysis of Existing Facilities

The Santa Rosa Campus Student Life operation, including the Student Resource Center and the Student Body facilities, moved into the Bertolini Student Center in January, 2010. There are starting to be signs of wear and tear that need to be repaired. There are also issues that should be addressed on the first floor as referenced in section 2.5a. Also, with the new EMS, we need to plan for how to best repair wear and tear on the building, including furniture and structure by including it in the cost of using the facility by outside groups.

3.1 Develop Financial Resources

At this time of restructure and right-sizing the college, there is extreme caution used with resources and efficiently utilizing current allocations.

3.2 Serve our Diverse Communities

Student Life, Equity and Engagement Programs is committed to diversity in hiring professional staff and student employees, and equal access for student groups. Cultural competence is promoted via District ECI trainings and Professional Learning series.

Student Life promotes diversity issues and awareness through our many intercultural programs, clubs and activities. By using the District and Student Equity funding, we are able to provide and/or support approximately 50 programs a year on multicultural awareness. These programs are often collaboratively sponsored with the Student Government Assembly, Arts & Lectures and many academic departments.

3.3 Cultivate a Healthy Organization

Classified staff are encouraged to participate in the events and activities of the college. The Sr. Dean and manaters are flexible with their schedules so that this is possible. They are also supported

when they want to take classes at the college or elsewhere. One (1) of them is Job Steward Secretary to the CEC; and one (1) is the President of SEIU; the classified staff also sit on several college wide committees.

Staff actively supported the SRJC Fit program and participated at many different levels.

Mutual respect in regards to cultural and individual perspectives is fostered and couragesou conversations are encouraged.

Overall emergency preparedness is included in planning and regular staff meetings.

3.4 Safety and Emergency Preparedness

Buidling Safety Coordinators and Area Safety Coordinators have been identified, see list below. For 2018-19, there were several traninigs offered, and emergency supplies were organized. For 2019-20, Student Services managers, Lily Hunnemeder-Bergfelt and Hilleary Zarate, in collaboration with Dawn Carter in EH&S, are planning another training as a refresher and to include new hires.

The Building Safety Plan was developed in previous years for responding to emergencies:

BSC Emergency Protocol

1. Determine Type of Emergency (power outage, earthquake, fire, active shooter, medical)
2. Notify District Police at 527-1000
3. Activate the BSC Emergency Protocols
4. Inventory of staff present if possible
5. Check in with BSC BSC's and ASC's
6. Make decision on whether or not to clear the building
7. Make sure any special needs students are assisted out of the building
8. Check on status of fire doors
9. Do Floor/Wing Check including Food Service Staff (1 West)
10. Check stairwells, bathrooms and other special areas for any problems or people
11. Hold staffs in place until such time as they are officially released
12. Position Student Ambassadors and staff at exterior entrances to keep anyone else from entering the building, put out signs
13. Check on elevators; have student ambassadors at elevators to escort riders (only special need students)

Bertolini Building Safety Coordinators (BSCs): Hilleary Zarate/Lily Hunnemeder-Bergfelt

Bertolini Area Safety Coordinators (ASCs)

1st Floor East – Sandy Sigala/Zack Miranda

1st Floor West – Andy Chhay

2nd Floor East – Marcia Labrucherie

2nd Floor West – Monica Gachet

3rd Floor East – Joshua Pinault

3rd Floor West – Marianne Schwarz-Kesling/Amy Ethington

We have also been meeting regularly as the Bertolini Student Center Advisory Committee to discuss safety issues and make building improvements including procuring radios, survival kits, etc.

3.5 Establish a Culture of Sustainability

Student Life, Equity, & Engagement has been on the front lines of the College's movement towards more sustainable policies and practices from the beginning. Student leaders have been adopting and championing sustainability principles and practices, while strategically positioning themselves to influence the College's implementation of goals and initiatives. Within our department, staff and students prioritize sustainability as a foundational framework for practices, events, and budgeting considerations. Sustainability is also an important part of student engagement and provides hands-on leadership development opportunities.

The SLEE department facilitates the following programs, activities, and services in support of the Sustainability at SRJC and the 2018 Greenprint Goals (pasted below for reference):

- Earth Week programming
- Student Sustainability Committee
- Active participation in the District-wide Sustainability Committee
- Reusable water bottle distribution, refilling station advocacy, and plastic water bottle ban support
- Installation of student community garden (Food Justice Garden) located near the Food Pantry
- Student Eco-Leaders Club
- Sustainable Transportation: Bike events, bus program promotions, smart train discounts, carpool programs.
- Student engagement and promotion of District-wide sustainability living lab features via campus tours and student communications
- Promoting of sustainable events, club meetings, giveaways and transportation options.
- Equity and intercultural programming
- Basic needs and food security programs

Student Government provides bike light giveaways, reusable utensil giveaways, and models the scaleable sustainable policies and practices for shared governance.

In 2019-2020, Student Life worked collaboratively with faculty to develop the green leaf program that provides a 'flag' in the class schedule of a small green leaf indicating the course is taught with a lens of sustainability.

Student Life also facilitates the CubCard Premium program and student transportation fees that directly support robust sustainable transportation at SRJC, including the Any Line, Any Time free transportation program, Carpool discounts, bike repair tools, bike lockers, and more.

Sustainable SRJC | Creating a Culture of Sustainability, A Greenprint for Achieving 18 Sustainability Objectives by 2018

This proposal is about a “big picture” mission of coordinating the District’s sustainability efforts and aligning them with best practices and community benchmarks for sustainability. We believe the institution needs to use the framework of our Strategic Plan, and Goal E: *Creating a Culture of Sustainability*, as the foundation for moving forward, and building on the tenets of the Talloires Declaration, signed by former President Agrella in 2011 and approved by the Board of Trustees. For this to happen in such a way to make SRJC a state-wide leader in Sustainable policy and practice, any plan will need to have a comprehensive and collaborative focus in several key areas:

- Campus Culture*
- Sustainability Education*
- Student Organizations*
- Facilities Planning*
- Green Building*
- Sustainability Projects*
- Water*
- Carbon Neutrality*
- Energy Use*
- Food*
- Responsible Sourcing*
(Environmental Purchasing)
- Waste Diversion*
(Compost/Recycling/Reuse)
- Transportation*
- Community Partnerships*
- Health & Wellness*
- Curriculum Infusion*
- Sustainable Agriculture*

An institution that facilitates the interaction of these areas so they are moving at the same pace and direction towards *Creating a Culture of Sustainability*, is an institution which understands the true meaning of sustainability and our collective responsibility as educators and environmental stewards. The college also has a moral imperative to make sure our students understand the demands of our global resource challenges and are prepared to work in environments where a sustainability IQ is necessary for success. A more thoughtful approach to our sourcing, use and disposal of resources, will benefit not only our institutional

carbon footprint but the overall financial bottom line. **Furthermore, recent reports, including the *Sonoma County Annual Report for 2014* and the *Sonoma County Winegrower’s Association Sustainability Report*, signify an increased emphasis on sustainability in Sonoma County. We believe SRJC has much to offer in creating a sustainable future and should join other regional leaders in this endeavor.**

To demonstrate our leadership and commitment, we must integrate best practices and policies that further the college’s sustainability objectives. Our strategic plan has laid a foundation for *Creating a Culture of Sustainability*; now our challenge is to develop a process for decision-making and implementing plans guided by research, community standards, and state and national goals. We must also establish a performance measurement system that tracks progress for the strategic plan scorecard. Based on these guiding principles, the SRJC Sustainability Collaborative has agreed upon 18 target objectives that should be achieved by the year 2018 (the college’s 100th anniversary) for SRJC to emerge as a leader in college and community sustainability. They are listed below in order of priority and with specific timelines where appropriate:

1. Establish Office of Sustainability Programs (Timeline: by Fall 2015)

Pursue creative fund sources for a Director, Sustainability Programs (reporting lines TBD); this includes resources to create the Office of Sustainability Programs & Services. Explore reassignment of staff to support programs and/or amending current job descriptions to include roles supporting sustainability programs. Cost-saving measures should be calculated as a way to support funding. The Director should be responsible for coordinating the priority list of objectives and the liaison with all committees and groups related to Sustainability.

Proposed 2015/16 Start-Up Budget for Office of Sustainability Programs

Category	Use	Amount
Operations & Supplies	Speakers, Events, Etc.	\$3,000
Travel	AASHE Conference, Etc.	\$2,000
Memberships	AASHE, Etc.	\$1,000
Student Employees	Sustainability Ambassadors to support events, recycling, etc.	\$2,000
Director	Oversight of Strategic Plan, Goal E & Priority List	\$90,000
Total		\$98,000

2. Establish the *President’s Sustainability Council* Devoted to Achieving Goal E (Timeline: by Fall 2015)

This Presidential Advisory Committee should be devoted in both name and purpose to *Creating a Culture of Sustainability* by charting a path for how the institution can achieve its sustainability objectives, build partnerships with community projects and initiatives, and reach benchmarks in sustainable practices. This body could include members who have traditionally been involved in other committees that interface with sustainability including Auxiliary Enterprises Committee, Integrated Environmental Planning Committee, Institute for Environmental Education, Parking & Transportation, Facilities Planning, and student organizations; essentially combining committees working on Goal E. There should be an official media launch where the President announces this new committee. This group should also provide guidance in selecting a position to oversee the Office of Sustainability Programs.

3. Align Values, Key Performance Indicators (Scorecard) and Strategic Plan Goal E Objectives (Timeline: by Spring 2016)

- ✓ Aspire to Zero Waste
- ✓ Provide Sustainable Transportation
- ✓ Integrate Source Reduction Strategies
- ✓ Utilize Renewable Energy Sources
- ✓ Practice Responsible Water Use & Conservation
- ✓ Fair Trade & Ecologically-Sound Purchasing Policies
- ✓ Establish Recycling/Composting Diversion Standards
- ✓ Practice Local, Organic Food Sourcing
- ✓ Integrate Sustainability throughout the Curriculum
- ✓ Limit Greenhouse Gas Emissions
- ✓ Use Green Building Principles in all Projects
- ✓ Pursue Green Initiatives/Projects

4. Name, Brand and Market the College's Sustainability Initiatives (Timeline: by Spring 2016)

Currently we are using Sustainable SRJC as our brand/logo to promote our projects and initiatives. This messaging should be refined and coordinated with Public Relations. It should also be included on all recycle labeling, etc.

5. Implement Revised Environmental Procurement Policy (Timeline: by Spring 2016)

We need a serious, well-thought, research based Environmental Purchasing Policy; this policy directs sourcing and contracts so is fundamental to all further change regarding sustainability. The city of Santa Rosa and the County of Sonoma have already developed EPPs that are congruent with sustainable practices. We should explore source reduction strategies that lead to decreased waste. We also suggest using internal college services when possible, i.e. campus printing services.

6. Align Water, Food & Waste with Best Sustainable Practices (Timeline: by Fall 2016)

Purchase of food should align with an updated EPP that follows best practices in procuring local, organic, and fair-trade goods and services. Water use as coordinated by the Grounds & Recycling program should establish reduction targets based on community benchmarks. Best practices in waste diversion, including recycling and composting, should be supported and mandated. Water conservation should be maximized in all green spaces.

7. Conduct Baseline Audit of Resource Utilization (Timeline: by Fall 2016)

The college, or an out-sourced agency, should conduct a comprehensive audit of resources to identify areas for improvement and to help ensure responsible allocation of financial resources. This includes auditing the use of energy, water and other resources; a baseline audit of our carbon footprint/budget (GHG emissions) is a priority.

8. Assure Green Building & Sustainable Facilities (Timeline: Now and into 2018)

Design destination buildings and green spaces throughout the District modeled on best practices in sustainable construction. This includes the renovation of current facilities and the construction of new facilities funded by Measure H bond revenue. We should include "smart" infrastructure in all buildings for energy efficiency and greater safety; in particular we should make sure we are using the most energy efficient solution for servers and wireless technology. We should also explore greater use of solar panels and other forms of renewable energy. Emphasis should be placed on native, drought tolerant landscaping to improve water conservation and energy efficiency; rain catchment systems should also be considered. Finally, and most importantly, sustainability must be a key principle guiding all decisions

regarding the Facilities Master Plan (FMP); and transparency must be safeguarded for integrity in the process.

9. Establish Sustainable Transportation Improvements (Timeline: Plan by Fall 2016)

We should increase access to all facilities by improving mass transit usefulness, create more safe pedestrian entry points that consider the user's perspective, and build safe avenues for bikes and other non-motorized vehicles. Sample projects include partnering with city agencies to enhance bus service to our campuses, ensuring connectors to the future SMART train services, creating bicycle lanes through city streets to our campuses, adding crosswalks through busy thoroughfares, and carving out pathways for skateboards and bikes through our campuses. Finally, we must re-envision our relationship with Mendocino Avenue and other neighborhoods surrounding our campuses and sites.

10. Increase Community Outreach & Collaboration (Timeline: On-going)

In addition to the establishing a new committee, other outreach and relationship building should take place with the numerous organizations and institutions actively working on sustainability in our local community. Examples include the Center for Climate Protection, Climate Action 2020, the Leadership Institute for Economy and Ecology (LIFEE), SMART Train, the Sonoma County Winegrower's association, the Sonoma County Bike Coalition and more.

11. Infuse Sustainability throughout the Curriculum (Timeline: by Spring 2018)

Goal E should be infused in all parts of the curriculum so that students have a well-rounded view of sustainability and how it connects to and affects all parts of our lives. There are several key faculty that are working on these issues and are best to lead this aspect of the project. PDA workshops and other trainings should be encouraged.

12. Establish Sustainability Equipment Initiatives (Timeline: On-going)

There are many projects that could be implemented to simultaneously save money, support our sustainability goals, model sustainability practices, increase social equity, and improve efficient use of our resources. For example, we recently installed a new water bottle filling station in Bertolini Student Center and will soon install a new bike repair stand on the quad. We also need to upgrade our classroom facilities to include the most sustainable teaching equipment. The use of more hybrid college vehicles is another example of this objective.

13. Support and Align with Social Equity Projects (Timeline: Now and On-going)

In addition to Student Equity Funding initiatives and HSI services, we need to support creative projects such as the Phi Theta Kappa Food Bank, the CalWORKs Clothes Closet, and the many multicultural clubs that support cultural understanding. One current project that combines food and equity is the need for EBT card acceptance.

14. Implement Sustainable SRJC Lectures & Events (Timeline: Now and On-going)

Education and awareness activities are important to generate a shared understanding of the vision of a sustainable college culture. We are bringing Dr. Geoffrey Chase to speak as the 2015 Del Monte Lecturer; he is Dean, Undergraduate Studies at SDSU and Co-Founding Board Member for AASHE, the largest Higher Education & Sustainability organization in the nation. We should also support and expand existing opportunities such as the Green Energy Conference, the Environmental Forum, Day Under the Oaks and Art & Lectures programming.

15. Research & Sign Appropriate State & National Documents for College Sustainability (Timeline: by Fall 2016)

We believe we need to further research the advantages of signing such documents as the [American College & University's Presidential Climate Commitment](#). Currently, 29 CCCs have signed this particular commitment.

16. Provide Enhanced Leadership Training in Support of Student Organizations (Timeline: by Fall 2016)

For any lasting and serious institutional change on sustainability, the students need to be actively involved, providing resources to the A.S. Sustainability Committee and any related clubs is imperative. We also need a non-credit leadership training program for students and staff; a year-long program with certification. We propose creating the *Leaders Academy for Sustainable Communities* (LASC).

17. Enhance Professional Development Opportunities

There are numerous state and national trainings and conferences that can be attended; locally, there are numerous symposiums happening this semester alone where SRJC leadership should be present. We should send a delegation to the 2015 California Higher Education Sustainability Conference (CHESC), held at SFSU, and possibly the AASHE conference. Staff should also be eligible to participate in a program such as LASC.

18. Develop Communication Strategies to Effectively Deliver & Update Sustainability Information

All information regarding projects, initiatives and accomplishments should be widely publicized for maximum transparency using all tools available online and inside the institution. This will include agendas, minutes and important documents.

In Summary

Santa Rosa Junior College has a wealth of human resource who are sustainability-wise and committed to establishing SRJC as a regional, state and national leader in higher education sustainability programs and practices. This proposal is a first step in developing a shared and coherent plan for *Creating a Culture of Sustainability* that aligns with our institutional values and engages our community partners. The overall plan should include shared outcomes for one, three and five years, establish realistic timelines for each priority, develop metrics to measure success with public accountability mechanisms in place, and conduct annual evaluations for improvement and modification of the Goal E objectives.

“In colleges and universities across the United States, students, faculty, and staff are forging new paths to sustainability. From private liberal arts colleges to major research institutions to community colleges, sustainability concerns are being integrated into curricula, policies, and programs. New divisions, degree programs, and courses of study cross traditional disciplinary boundaries; Sustainability Councils become part of campus governance; and new sustainability issues link to historic social and educational missions.”

Student Life, Equity & Engagement Programs

Student Area Learning Outcomes:

As a result of participation in one or more programs and services within the Student Life, Equity & Engagement Programs department, students should:

1. feel a sense of belonging, community, and inclusion.
2. be able to analyze and apply complex information in solving real world problems.
3. understand how to identify systems of oppression and unconscious bias in order to recognize and dismantle structural racism.

4.2b Narrative (Optional)

Through an on-going and deliberate program of compelling educational opportunities, the Student Life, Equity and Engagement addresses ILOs daily and then evaluates at staff retreats. Students are challenged to increase awareness in the areas of cross-cultural understanding; critical thinking; global understanding; communication; problem-solving; decision-making; and personal responsibility. It is through our diverse array of involvement opportunities that students begin to apply their knowledge and skills to real-life situations in the student development learning laboratory. Students are given feedback and held accountable so that personal change may occur. In this unique community, students are able to find meaning and purpose to open up their respective leadership pathways now and in the future.

In Spring of 2021, a survey was distributed to students who participated in Student Life, Equity, and Engagement programs. The survey was comprised of general service satisfaction and feedback questions as well as questions pulled from the institutional Student Survey instrument that is administered by Institutional Research every three years. This provides vetted climate questions and an institutional comparison group. While causality cannot be determined based on the data due to confounding variables, when partnered with the qualitative feedback it does provide some insight into how SLEE might be impacting student experiences and success rates. It also helps center student voice in departmental planning and leverages frameworks established as part of the Student Equity & Achievement program evaluation, which is required as a condition of receiving Equity funds.

The 2019-2020 SEA program evaluation data indicates that Student Life participants have a Fall to Spring persistence rate of 89% compared to the District average of 55%. And a Fall to Fall persistence rate of 60% compared to the district average of 42%.

Additionally, a technology survey was conducted in March and April of 2020 of all students as a result of the transition to remote learning following the onset of the coronavirus. Due to the findings of that survey, a laptop and hotspot loaner program was developed. Currently, the inventory of laptops is approximately 700 and hotspots is approximately 250. Here are the survey results:
