

Santa Rosa Junior College

Program Resource Planning Process

Administration of Justice 2015

1.1a Mission

The mission of the Public Safety Department is to provide an education and training environment, which fulfills the diverse needs found within the professions involved in public safety. This environment promotes the opportunity for intellectual, social and occupational growth in three major areas:

- 1.) A comprehensive pre-employment curriculum leading towards an Associate Degree and/or transfer to a four-year institution;
- 2.) Basic academy programs for state and federal mandated certificate programs; and
- 3.) In-service training programs which provide current and professional course offerings reflecting the needs of the professions.

1.1b Mission Alignment

The Public Safety Department is completely aligned with the tenants of the district's mission. Public safety provides vocational education from entry-level through advanced and continuing education for the Public Safety professions. We provide access to a career path for students desiring to enter the public safety professions and provide an academic path for acquiring a college degree (A.S. Administration of Justice). Education and training provided by the department enables graduates to enter direct service jobs, administrative and regulatory positions at the local, State and National levels.

The department is committed to maintaining an exceptionally high (but realistic) academic standard and employs an "academy" and semester approach to training in its core class offerings. Students learn strong leadership skills which promote respect and integrity both personally and professionally. Faculty and staff maintain the professional standard expected of the Public Safety community and are active and respected members of that community. We are dedicated to providing the most comprehensive, effective and current teaching methodologies, technological applications and facilities to support student learning and development.

The goals and initiatives of the district are consistent with the goals and initiatives of the department. The Public Safety department provides entry-level course offerings at regional high schools and articulates with an Introduction to Public Safety course which promotes awareness of all Public Safety professions.

As part of a Multi-Campus plan for coordination, Public Safety maintains an active relationship with administration and faculty on the Petaluma, Santa Rosa and Windsor campuses. Many faculty members teach on multiple campuses and the administration of Public Safety is actively involved in each of these areas. This serves to maintain a current link between facilities.

Public Safety participates in continual self-study efforts to maintain accreditation standards in each aspect of the program disciplines.

Public Safety curricula are learning objective driven. Program Student Learning Outcomes are completed and are reviewed periodically for relevancy pursuant to the changing climate of the

demands of the Public Safety sector.

The department as a whole recognizes the evolution in student preparation and motivation entering the Public Safety careers as well as the preparation, motivation and needs of the continuing education and in-service student. The department recognizes and responds to trends in student populations, demographics, ethnicity, gender, and cultural aspects. The department seeks the most highly qualified staff and faculty who not only represent the student populations, but understand the unique challenges faced by our students.

1.1c Description

The Public Safety Department includes the discipline of Administration of Justice and is centered at the Windsor campus known as the Santa Rosa Junior College Public Safety Training Center. The course offerings are degree-bearing courses in preparation for transfer, vocational offerings that include state-certified entry-level academy programs as well as a variety of in-service and management certifications, the breadth and scope which are approximately 200 separate offerings annually. The Public Safety Department includes the disciplines of Fire Technology (Fire) and Emergency Medical Care (EMC) that are being reviewed separately in the PRPP process.

1.1d Hours of Office Operation and Service by Location

The Public Safety Program courses are offered throughout the region. While centered at the Public Safety Training Center, the Administration of Justice Program is offered primarily at the Santa Rosa Campus and the Petaluma Campus. In addition, courses are offered at various Santa Rosa hotel locations and public safety departments throughout the college district as well as out of district including Marin, Southern Mendocino and San Francisco Counties. Hours of operation and staff coverage varies depending on class size, activity and location. Courses are offered during daytime and nighttime, as well as on weekends. PSTC office hours are 8am to 4:30pm Monday through Friday.

1.2 Program/Unit Context and Environmental Scan

The labor market for the students in our programs is government agencies, which have been significantly impacted by the past budget crisis. Many government employers are now forecasting a positive change to this situation in the next two years, which will result in a recruitment increase for entry-level positions in next two years. Students are being encouraged by our department and government employers to complete a four-year degree before seeking employment.

The CSU and UC systems have also experienced similar cuts to criminal justice course scheduling as SRJC. State-level press releases from this year has announced an increase in spring admissions, but continues to encourage students in the CSU and UC systems to attempt to obtain enrollment seats in the community college system. The transfer degree was updated and approved to facilitate student transfer to the CSU system. Across the discipline, we experienced approximately a 12% decrease in course offerings during 2013/2014; however, we experienced a 1% increase in student enrollment when comparing semester to like semester.

Mandated in-service training needs have decreased slightly, being affected by the current budget climate. Licensing and accrediting agencies' requirements remain constant, thus, no decrease in these course offerings are anticipated.

2.1a Budget Needs

The Administration of Justice budget is very complex. While it does not compare to other budget units in the district, it is effectively allocated and used with a few minor exceptions.

The AJ Department mixes both district general funds with student fee-based funds and covers multiple locations. It covers a center (Windsor) as well as the AJ department at the Santa Rosa and Petaluma campuses.

\$45,000 is needed in the 4000 account to cover the increasing cost of fuel, tires, maintenance and varying costs associated with the Emergency Vehicle Operations course of instruction. (The change from 2011-2012 FY, 2011-2013 FY and 2013-2014 was a decrease in the 4000 account by 36.20%.)

The PSTC is required to purchase P.O.S.T. LD workbooks through FED EX, the number of workbooks needed has increase, as well as the cost of the printing. To cover the additional cost the 4331 account needs an additional \$35,000.

The PSTC does not have a travel fund at this time; due to the increase of mandatory meetings, training conferences \$10,000 is needed for travel.

The following cost savings measures were implemented in 2013/2014:

- Copy codes were limited to minimum personnel in order to reduce copy costs; resulted in a 29% reduction of use.
- Implementation of electronic "handouts" in each course of instruction, in the form of file depot links, pdfs on CD's or thumbdrives.
- Use of wireless technology and laptop computers for testing, further reducing copying and paper costs.
- Monitoring of office supplies, postage and other goods resulting in reduction of total amount spent.
- Reduction of water use by monitoring irrigation and "barely" keeping lawn area alive.
- Soliciting "donations" of supplies from agencies, reducing expenditures for supplies.

Administration of Justice - FY 2013-14

2.1 Fiscal Year Expenditures

Santa Rosa Campus

Expenditure Category	Unrestricted Funds	Change from 2012-13	Restricted Funds	Change from 2012-13	Total	Change from 2012-13

2.1b Budget Requests

Rank	Location	SP	M	Amount	Brief Rationale
0001	Windsor	00	00	\$45,000.00	We continue to experience an overdraw on this account due to large needs for tires, maintenance on vehicles, and supplies.
0002	ALL	08	04	\$10,000.00	Travel fund needed for conferences and training
0003	ALL	00	00	\$35,000.00	off site printing for FED EX- POST LD workbooks

2.2a Current Classified Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Administrative Assistant II	40.00	12.00	Perform administrative duties requiring a high degree of expertise in the areas of office management, fiscal management, customer relations, or other specialized services.
Administrative Assistant III	40.00	12.00	Perform administrative duties requiring initiative, independence, and confidentiality in the areas of office management, fiscal management, customer relations or other specialized services.
Executive Assistant	40.00	12.00	The Executive Assistant coordinates component administrative tasks of a highly complex nature; provides administrative and clerical support to assigned supervisor(s); initiates and recommends changes in procedures as required; provides technical assistance to others; and manages complex projects as assigned.
Admissions & Records Technician	26.00	12.00	Perform moderately complex clerical work in the areas of admissions and records; performs related work as required.
Coordinator Facilities Operation	40.00	12.00	Coordinates maintenance and custodial activities on campus; perform skilled maintenance in construction trades; act as lead worker to designated classified employees at facility; and perform related work as required.
Building Maintenance Generalist	40.00	12.00	Perform journeyman level work in the repair and maintenance of related facilities.
Custodian (2)	80.00	12.00	Perform a wide variety of custodial and maintenance duties in order to provide a clean, orderly and safe environment
Groundskeeper I	40.00	12.00	Perform grounds maintenance and gardening work
Administrative Assistant I	24.00	12.00	Perform administrative duties requiring proficiency in office management, fiscal management and customer relations.
Administrative Assistant II	40.00	12.00	Perform administrative duties requiring proficiency in office management, fiscal management and customer relations. Support for the Modular Basic Law Enforcement Academy and Ranger programs.
Administrative Assistant II	40.00	12.00	Perform administrative duties requiring a high degree of expertise in the areas of office management, fiscal management, customer relations, or other specialized services.
Administrative Assistant II	24.00	12.00	Performs administrative duties to support the In Service/Corrections programs.

2.2b Current Management/Confidential Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Dean III, Public Safety	40.00	12.00	Management of the Santa Rosa Junior College Public Safety Training Center programs, equipment and facilities, as well as the Administration of Justice and Fire Technology programs at multiple campus locations.
Dir. Public Saf./Basic Acad	40.00	12.00	Specific responsibilities for the Basic Academy.
Dir. Pub.Saf./In-Service	40.00	12.00	Specific responsibilities for the In-Service and Corrections Programs.
Dir. Pub.Saf./Mod./Ranger Academy	40.00	12.00	Specific responsibilities for the Basic Academy - Modular format and Ranger Academy

2.2c Current STNC/Student Worker Positions

Position	Hr/Wk	Mo/Yr	Job Duties
93 AJ Evaluators	70.30	12.00	Responsible for explanation, demonstration, supervision, evaluation and documentation of discipline specific subject matter and related skills under the direct supervision of lead instructor.
17 Contract Evaluators	9.60	12.00	Responsible for explanation, demonstration, supervision, evaluation and documentation of discipline specific subject matter and related skills under the direct supervision of lead instructor.
7 Fee-Based Evaluators	2.60	12.00	Responsible for explanation, demonstration, supervision, evaluation and documentation of discipline specific subject matter and related skills under the direct supervision of lead instructor.
10 AJ Recruit Training Officer	16.60	12.00	Counsels recruits regarding professional matters; supervises and monitors recruit discipline; supervises other temporary academy staff members as needed.
14 Instructional Aids	8.70	12.00	Demonstrates subject matter skills; supervises students in practical labs; tutors students on problem areas related to subject matter

2.2d Adequacy and Effectiveness of Staffing

The Public Safety Department, including the Administration of Justice courses, current staffing ratios are adequate to meet the needs of our students and department members, other than facilities and equipment maintenance. The PSTC currently has .65 FTE vacant Administrative Assistant position that previously supported the front desk and all the programs. The Administration of Justice faculty previously had student workers for assistance with clerical needs; but due to budget concerns, the student worker position was also vacated. Due to the large increase in vehicle maintenance needs and facility maintenance the PSTC needs a minimum of an additional 1 F/T general maintenance classified position.

The nature of our program at the Public Safety Training Center demands numerous instructional employees to provide a wide diversity of highly technical and current public safety related training courses, which is difficult to measure and compare to district-wide totals. These courses are of short duration and offered numerous times during each semester. This structure increases the demand on our classified, management, professional experts and STNC employees. Our professional expert employees are used as direct instructional support staff; therefore, the statistics received from the district are not accurate for our department.

There are three out of four positions filled for the faculty instructing in the Administration of Justice academic transfer program. The courses continue to indicate high enrollment efficiency with eight out of nine courses at 80% or better efficiency with six of those at or above 100% efficiency. The remaining vacant position is currently filled by adjunct faculty hired on a semester-to-semester basis, which runs the risk of instructional inconsistencies.

Student, faculty, and facility needs are being met and maintained to a degree that indicates effective use of our classified and management employees. Due to external and State certification requirements our classified employees often have additional duties not typically assigned to district classified employees.

Calculations

Data Element	Value	Change from 2012-13	District Total	% of District Total
FTE-S : FTE-F	100.0794	2.43%	26.9336	371.58%

0003	Windsor	00	00	Admin. Assist. I .65	Admin. Assist. 1 FTE	Classified

2.3a Current Contract Faculty Positions

Position	Description
AJ Faculty	Instructs the courses that introduce students to the criminal justice system.
AJ Faculty	Instructs the courses that introduce and continue students in criminal law and corrections.
AJ Faculty	Instructs the courses that introduce and continue students in criminal law and corrections.
AJ Faculty VACANT	

2.3b Full-Time and Part-Time Ratios

Discipline	FTEF Reg	% Reg Load	FTEF Adj	% Adj Load	Description
Administration of Justice	3.0000	0.4800	2.5600	0.2100	The ratio FTE-AF to FTE-CF is .667, which continues to be high with one contract faculty positions remaining vacant and being filled by adjunct faculty. There is a concern that instructional inconsistencies may occur without the continuity of instruction by full-time, contract instructors.

2.3c Faculty Within Retirement Range

We have one faculty member within retirement range. If not replaced with a FT faculty member, the position would be covered by adjunct faculty, resulting in no loss to FTES. If not replaced, this would leave two FT faculty member in the Department (down from 4 FT faculty members), resulting in less assessment of SLOs and updating curriculum due to no full time faculty member to complete the tasks.

2.3d Analysis of Faculty Staffing Needs and Rationale to Support Requests

The total enrollment and average class size in the AJ department remained higher than the district-wide enrollment averages. The average class size at the Santa Rosa campus where were two vacant contract faculty positions was 49 students per class in 2012/2013, which was an increase of 19% from the previous academic year. The average class size at the Petaluma campus was 43.56 students per class in 2011/2012, which was the same as the previous year. The average class sizes at the Santa Rosa and Petaluma campuses are above the District average.

One of the three contract faculty members needed to work overload schedules each semester to meet the demand of our student enrollment. Annual interviews are held for our adjunct faculty pool. However, a majority of our adjunct instructors prefer to work the short courses offered at the Public Safety Training Center instead of the semester-length courses since many are still employed full-time in the criminal justice system. Approx. over 25% of our semester length courses are being taught by adjunct instructors. The department recently recruited to replace two contract faculty positions in order to maintain the level, complexity, and breadth of course offerings to meet the student needs at the Santa Rosa and Petaluma campuses. Faculty staffing levels are adequate at this time.

2.3e Faculty Staffing Requests

Rank	Location	SP	M	Discipline	SLO Assessment Rationale
------	----------	----	---	------------	--------------------------

2.4b Rational for Instructional and Non-Instructional Equipment, Technology, and Software

At the Public Safety Training Center (PSTC) instructional equipment needs continue to focus on replacement of worn/outdated items, student safety and effective educational delivery to adult learners.

Due to the high-risk activities and job-specific equipment demands of the Training Center's client base, instructional equipment must be current and meet the safety requirements set forth by our certifying state and federal agencies.

Rifle and Electronic Control Device training has been newly added to the Federally Accredited Law Enforcement Ranger Program. Ongoing need for pistols and shotguns remains due to the high use/breakage of the weapons. Many training tools like laptops and weapons were previously donated by partner agencies, but PSTC has no ability to maintain the gifts or loans. Instructional technology will be a challenge in the coming year due to police, rangers, paramedic, corrections, and in-service using on line testing with a short supply of laptops to do so. Fire Technology Program will within the next year convert to on line testing, which will further impact the use of the very limited supply of laptop computers.

In addition, the PSTC scenario village pavement directly near the range should be painted to emphasize live weapon training and prohibition of live weapons in the training area.

The Administration of Justice Department courses are mostly taught in the SHUHAW building on the Santa Rosa Campus. The classrooms are not "smart" classrooms, lacking in media technology. Additionally, the individual desk type seating in the classrooms are inadequate.

2.5b Analysis of Existing Facilities

Petaluma Campus: Facility is adequate and is ADA compliant.

Santa Rosa Campus: Facility is ADA compliant, however, the current classroom spaces located in Shuhaw is lacking support for the use of technology due to not being "smart" classrooms. This lack of support has hindered the use of numerous instructional techniques by the faculty members.

PSTC Campus: Facility is adequate at this time and is ADA compliant. Plans to relocate the Fire Academy back to the PSTC will have an enormous impact on the facility, reaching its full use potential. A wireless network was installed in 2011 that enhances the learning experience of the students, as well as reducing the number of copies of handouts, tests, etc., previously required due to the lack of a wireless network.

The largest area impacted by the number of students attending course at the PSTC is the multi-purpose room. At peak periods the space is inadequate to meet the numerous course requirements.

With the relocation of the Fire Academy to the PSTC, the planned expansion will become necessary to meet the demands for space. It is hopeful this will be accomplished by using some of the Measure "H" bond funds.

3.1 Develop Financial Resources

Future and Current Grant Funding

Among the programs in Public Safety, Administration of Justice, the ones which grant funding plays an integral role is the Police and Ranger Academy and the In Service Programs. As CTE programs that trains individuals to become law enforcement officers or continue skill sets as law enforcement officers, it is necessary to maintain the same body of equipment required by not law enforcement agencies. That has made the success of the program extremely dependent upon grants and donations.

While donations far remain the largest source of our equipment, in the future we will continue to rely on Perkins (CETA) funding to purchase that we cannot obtain through donations. However, we will also explore other potential opportunities such as the *Institutional Education and Library Materials (IELM)* grants for which we were successful in obtaining equipment in 2014.

3.2 Serve our Diverse Communities

As part of the ongoing hiring process for all adjunct and regular faculty, emphasis is placed on selection criteria which demonstrate a prospective candidate's sensitivity and understanding of the cultural and gender diversity of our population both in terms of our student body and the society which we serve.

The program promotes awareness and sensitivity to diversity through ongoing instructor development. Instructors and staff are encouraged to learn more about our students as

individuals as well as representatives of the great variety of cultural backgrounds, and utilize our students as a learning laboratory for our improved awareness and sensitivity.

The department recognizes and responds to trends in student populations, demographics, ethnicity, gender, and cultural aspects. The department seeks highly qualified staff and faculty who not only represent the student populations, but understand the unique challenges faced by our students.

AJ programs attract a high number of White students (56.7%), next highest is Hispanics (29.5%) and the fewest number of Filipino students (0.7%). These numbers are consistent with the population in the industry, though not the population of Sonoma County.

3.3 Cultivate a Healthy Organization

Permanent classified staff and their managers engage in a dialogue during their annual evaluations regarding formal staff development goals. During the evaluation period, classified staff is encouraged to identify and engage in staff development programs which will be beneficial to them and assist the Department to meet its goals.

STNC classified staff and Professional Experts, engaged in student evaluation, receive formal and informal training focusing on meeting college and state criteria required of students.

Examples of training completed by classified staff:

- Short term seminars delivered by college staff in the software applications, including
- Disaster roundtop exercises
- "In Design", "Excel" and "Access"
- On-line course development training (CATE)
- Enrollment Management System training
- PRPP training workshops
- Convergence software
- DreamWeaver
- Sharepoint
- PDA Day

3.4 Safety and Emergency Preparedness

The Districts illness and prevention program is reviewed yearly with employees and they are advised the District policy is section 6.8.2 and the procedures are located at 6.8.2 in the procedure manual. Representatives of the Environmental Health & Safety department completed presentations on the program.

The Department needs additional yearly training on the Districts' Illness and prevention program, specifically in the area of Hazard Assessment; Accident/Exposure Investigations; Hazard Correction; Training & Instruction; and Record Keeping.

Classrooms	All	All	C. Arnold	PSTC	Classrooms	A. Chapman

3.5 Establish a Culture of Sustainability

AJ department faculty reduced the use of printed paper by having students submit assignments electronically through the District email and/or programs such as Turnitin.com. Many instructors placed many previous handouts on transparencies so the activity is projected by the overhead projector and students turn in activity responses on separate pages that can hold two to four activity responses. Many handouts are now posted on instructor homepages and/or posted in File Depot for student access.

Wireless Internet access was installed at the PSTC in 2011, reducing the need for paper copies of assignments and handouts. PSTC courses and programs are presently in the process of converting all testing to an electronic format.

4.1a Course Student Learning Outcomes Assessment

We have begun a regular cycle of assessment in our department per the recommendations of the District and Project Learn. A spreadsheet has been set up for tracking which courses have been assessed. All offered courses SLO's are assessed, the cycle will start over in order to complete the next assessment within the 6 year cycle.

Department 6-Year Cycle SLO Assessment Plan

Course	SLO #s	Participating Faculty	Semester Initiated or to Be Initiated	Semester Completed	Comments	Year of Next Assessment

4.2b Narrative (Optional)

5.0 Performance Measures

NA

5.1 Effective Class Schedule: Course Offerings, Times, Locations, and Delivery Modes (annual)

The department offers courses every weekday and Saturdays, and approximately 4 Sunday offerings (short courses) per semester excluding summer session. Courses are offered mornings (0700 – 1200), afternoon (1300 – 1700) and evening (1800 – 2200) to accommodate student school, work, and family schedules.

Course demands are analyzed for each class offering every semester (and summer session) to determine efficiency of scheduling to benefit day, evening, and distance education students. The department regularly polls students about preferred class times and uses these data in determining additions to the class schedules.

5.1 Student Headcounts The number of students enrolled in each discipline at first census (duplicated headcount).

Santa Rosa Campus

5.2a Enrollment Efficiency

The enrollment efficiency for the Administration of Justice Department is in alignment with college efficiency goals. The Administration of Justice program enrollment efficiency for all locations was 96.1% in Fall 2013 and 104.8% in Spring 2013.

Last-minute agency emergencies along with State and local budgeting constraints have created an unstable market for in-service courses that have a direct impact on enrollment efficiency. The College remains in direct contact with the Training Managers Group and AJ Advisory Committee to plan training that is efficient for the College and the agencies.

5.2a Enrollment Efficiency The percentage of seats filled in each discipline at first census based on class limit (not room size).

Santa Rosa Campus

5.2b Average Class Size

The average class size for the Administration of Justice Department at the time of the Fall 2013 first census was 38.2 students and at the Spring 2013 first census was 41.9 students, which is well above the District totals of 30.5 students for both Fall and Spring semesters.

State and local budget restraints are directly impacting the in-service courses, resulting in a lower than average headcount.

5.2b Average Class Size The average class size in each discipline at first census (excludes cancelled classes).

5.3 Instructional Productivity

*(Some figures are artificially high due to the District's inability to calculate instructional hours from the Master PAFs)

The AJ department academic transfer program is above the District's goal of the 18.7 instructional productivity ratio, with 49.39% for Fall 2013. Some classes are scheduled in larger classrooms, which produces a slightly higher ratio. The ratio began to increase when the AJ department (AA Degree courses) moved from smaller temporary classrooms to larger permanent classrooms.

5.3 Instructional Productivity The ratio of Full-Time Equivalent Students (FTES) to Full-Time Equivalent Faculty (FTEF) in each discipline at first census.

5.4 Curriculum Currency

All course offerings are up to date.

5.5 Successful Program Completion

The Public Safety Training Center and the Administration of Justice Department support student completion of certificates and majors by offering courses at a variety of times and days and at a variety of locations when applicable. All faculty members keep regular office hours and meet with students during those hours. Faculty members also communicate with students outside of office hours via email and the SRJC portal. The courses at the Public Safety Training Center are governed by state boards, which manage course completion requirements.

The Administration of Justice Department has maintained a high successful course completion rate since 2003-2004. For 2012/2013 the Department had a successful course completion rate of 83.4% in Fall 2013 (compared to 87.9% in Fall 2012) and 80.9% for Spring 2013 (compared to 84.7% Spring 2012).

Students in the Administration of Justice Department/PSTC completed 58 A.A. degrees, 38 Administration of Justice for Transfer A.A. degrees, 31 Children in the Justice System certificates, 11 Corrections certificates, 8 Law Enforcement certificates, 62 Intensive Basic Police Academy certificates, 16 Modular I Basic Academy Certificates, 30 Modular II Basic Academy certificates, 43 Modular III Basic Academy certificates and 64 Park Ranger Certificates in 2012/2013. The last two years have seen an increase in Administration of Justice A.A. degrees. Certificates have remained fairly consistent with the exception of the Basic Police Academy. This is possibly due to the reduction of section offerings experienced by the current budget cuts and an uptrend in the Basic Police Officer Academy certificate program.

Males make up 64.9% of the Administration of Justice Department student population, which has remained fairly constant over the last two academic years. The two largest ethnic groups participating in our programs are White and Hispanic students, with White students at 56.7% and Hispanic at 29.5%, which was an increase for the Hispanic group and a decrease in the White student group since last year. The percentage of students declining to indicate their race or ethnicity was 3.9%.

5.6 Student Success

For fiscal year 2012/2013 students in the Administration of Justice program demonstrated successful course completion rates of 83.4% for Fall 2013, and 80.9% for Spring 2013. The grade point averages for AJ program students include: Fall 2013 at 2.64 GPA (compared to 2.63 GPA Fall 2012) and Spring 2013 at 2.10 GPA (compared to 2.37 GPA Spring 2012).

5.6b Successful Course Completion The percentage of students receiving a grade of A,B,C, or CR in each discipline (duplicated headcount).

5.7 Student Access

Ethnicity

Overall, enrollment in the Administration of Justice (AJ) discipline is very similar, except for one area, to enrollment for the District as a whole. The exception to this is for the percentage of White students. At the District level, White students comprise 55.3% of the student population, whereas within the AJ discipline the percentage is 56.7%. The second largest group served in the AJ discipline is the Hispanic/Latino population at 29.5%, which is slightly higher than the District at 17.2%. The most underrepresented group within the AJ discipline is the Pacific Islander at 0.2%. This is nearly equal to that of the District at 0.6%.

The percentage of students enrolled by gender within the Administration of Justice discipline is nearly the opposite of that of the District as a whole. The District's numbers for 2008-2009 showed that females outnumbered males 56.5% to 40.1%. In comparison, males dominated the AJ programs at 64.9% compared to females at 30.8% in 2013-2014. These numbers reflect the industry standard of a male dominated environment in the law enforcement and corrections fields. This is long recognized in the industry, as well as the College's AJ programs, and something which is continually being evaluated for future improvement.

Both ethnicity and gender populations have remained relatively the same for the last four years, with a slight decrease in the male population of 2.8%. The needs of our students have remained the same in that a large number of students lack basic English skills. This is a recurring theme in the Police and Corrections Academies. In addition, given the economic climate of the last few years more and more students are returning to school after being displaced from the job market. They are in search of a new career, but experience financial hardship. Therefore, financial assistance is often needed by students in the AJ discipline, specifically in the Police Academies.

The faculty and academy directors invite guest speakers and evaluators from surrounding government agencies to promote stronger attendance by females and other minority groups. In addition, the use of multimedia presentations that reflect personnel diversity in justice system careers is a tool used by the AJ program. Last, participation by our diverse AJ staff in Career Fairs at both the elementary and high school levels is important in that it introduces justice system careers to children and teens at young ages.

5.7a Students Served - by Ethnicity The number of students in each discipline at first census broken down by ethnicity (duplicated headcount).

5.8 Curriculum Offered Within Reasonable Time Frame

Most courses in the Administration of Justice program are offered in the Fall and Spring semesters in either an in-class or distance delivery format of the material. Four courses are offered once a year due to the advanced material in the courses: Basic Criminal Investigations (AJ51A), Advanced Criminal Investigations (AJ51B), Public Safety Communications (AJ52), and Correctional Interviewing (AJ71). Courses for evening-only students in the AJ program are offered at a minimum of once during an academic year.

The Dean and faculty are currently scrutinizing the courses in the degree and certificate programs to assist students with completion of the course work. One suggestion is to allow students to emphasize law enforcement and court procedures or corrections and juvenile. By implementing emphases in the program, it will be unnecessary for students to take all courses in the AJ program. Students would be able to take core discipline courses and courses within their emphasis.

5.9a Curriculum Responsiveness

The nature of the academic transferrable courses in the Administration of Justice program addresses current issues in all communities and populations, which is an important component of all careers in the justice system. As societal issues arise, faculty members update curriculum to allow exploration and analysis of the impact of those issues on the career and society.

The transferrable general education course in the AJ program, which is Crime and Criminal Justice in Society (AJ56), is current and meets the criteria for Area D in the CSU diversity requirements for the social sciences. Courses in the AJ program support majors and certificates in Human Services: Advocacy, Social and Behavioral Sciences, and Child Development.

Currently, faculty is evaluating the need to expand course offerings addressing juvenile justice issues with an emphasis on juvenile offender behaviors and rehabilitation. When the budget permits and the evaluation of the need are completed, the Children in the Justice System certificate may be modified to meet this predicted need in the justice system.

Our law Enforcement Advisory Committee has 25 members and meets on a quarterly bases. The Ranger Academy Advisory Committee has 17 members and meets after each Ranger Academy graduation. In addition, the Sonoma County law Enforcement Training Managers meets monthly and has over thirty members.

5.9b Alignment with High Schools (Tech-Prep ONLY)

5.10 Alignment with Transfer Institutions (Transfer Majors ONLY)

The Administration of Justice Transfer Model Curriculum (TMC) was approved in 2012 and is accepted by California State University: Chico, East Bay, Long Beach, Sacramento, San Francisco State University, San Jose State University, Sonoma State University, and UC Irvine.

5.11a Labor Market Demand (Occupational Programs ONLY)

The demand for educated and trained criminal justice employees remains in spite of the economic slowdown that is impacting the local and regional economies. Public safety employees remain in relatively high demand as many criminal justice agencies must provide basic services in their respective jurisdictions.

The Basic Police Academy, the Corrections Course and the Public Safety Dispatch courses are operated in accordance with state-mandated training requirements. Graduates of these programs meet state certification requirements for employment in their respective fields. Law enforcement employers are more likely to hire entry-level officers who have successfully completed the Basic Police Academy.

The certificate programs in the Administration of Justice academic program provide students with foundational knowledge to assist them in preparing for careers. The certificates are useful in demonstrating to prospective employers that the student has a basis of knowledge in their chosen field. The student's education serves as a foundation for additional state mandated training.

The AJ degree program demonstrates to the prospective employer that a student has foundational knowledge in the criminal justice field. Prospective employers in the criminal justice field are more apt to hire students who have earned a degree as there have been studies that have shown that entry level law enforcement candidates who have earned a degree suffer less job related injuries; are less apt to be the subject of misconduct complaints; are more likely to successfully complete a career, and are more likely to be successful in assignments that require critical analysis and thinking such as investigations, crisis response teams and supervisory and training positions.

The labor market demand for graduates of the Seasonal Law Enforcement Ranger Academy is extremely high. The demand is from both federal and local parks. The demand is enhanced by the National Park Service Centennial Initiative where the Park Service is building its workforce by 1000 seasonal rangers by year 2016.

Per the California Employment Development Department:

In California the number of Police and Sheriff Patrol Officers is expected to grow faster than average growth rate for all occupations. Jobs for Police and Sheriff Patrol Officers are expected to increase by 17.8 percent, or 10,900 jobs between 2006 and 2016.

Estimated Employment and Projected Growth Police and Sheriff Patrol Officers

Geographic Area (Estimated Year-Projected Year)	Estimated Employment	Projected Employment	Numeric Change	Percent Change	Additional Openings Due to Net Replacements
California (2006-2016)	61,300	72,200	10,900	17.8	16,400

Source: EDD/LMID [Projections of Employment by Occupation](#)

[View Projected Growth for All Areas](#)

More opportunities are expected in local and special police departments than in federal and State law enforcement agencies. Because of attractive salaries and benefit packages, there is a larger supply of qualified applicants than there are jobs in federal and State law enforcement agencies, resulting in increased hiring standards and selectivity by employers.

Detectives and Criminal Investigators Estimated Employment and Projected Growth

Geographic Area (Estimated Year-Projected Year)	Estimated Employment	Project ed Employment	Numeric Change	Percent Change	Additional Openings Due to Net Replacements
California (2006-2016)	11,300	14,300	3,000	26.5	2,500

5.11b Academic Standards

The implementation of student learning outcomes and assessments of our courses and program opened the dialogue within the department on maintaining academic standards for transferability and employability of our students. The review and update of our AA degree program and three certificate programs evolved from using the information about student success from past program review reports.

6.1 Progress and Accomplishments Since Last Program/Unit Review

Rank	Location	SP	M	Goal	Objective	Time Frame	Progress to Date
0000	ALL	00	00				
0001	Windsor	00	01	Present a Homeland Security Academy	Address the need for Homeland Security Courses	12 months	Attempted several times in different formats, however, due to low enrollment course was canceled.
0002	ALL	00	01	Offer an AS-T Degree course in Homeland Security and Emergency management	Meet the need for Homeland Security courses	12 months	pending curriculum development IF job market analysis proves need for this degree.
0002	Windsor	01	01	Growth in Ranger Academy from 420 to 650 hours within the next 12 months (Federal mandate)	Intergrate extended operations within existing facilities constricts	within 12 months	Cirriculum approval in progress, impenetation scheduled for 2016.
0003	ALL	00	01	Offer a Children in the Justice System Major	Address the needs of additional courses of instruction	12 months	No progress at this time.
0004	Windsor	00	06	Make progress on seven goals listed in 3.1a.	As listed below in priorities 5-11.	3-5 years	As described in 3.1b
0005	Windsor	00	01	- Growth of Police Academy	Meet POST standards	3-5 years	2015 classes are fully enrolled.
0006	Windsor	00	01	- Changing role for In-Service course due to growth and new course offerings	met demand of shareholders	3-5 years	Variable offerings meeting demand of stakeholders
0007	Windsor	00	01	- Demand for other Academies (Ranger, Corrections, Probation and Juvenile Corrections.)	Meet various requirments by licensing agencies	3-5 years	Offering additional academies to meet demand.
0008	Windsor	00	06	- Equipment and facilities challenges.		3-5 years	
0009	Windsor	00	07	- New construction project.	12,000 square feet	3-5 years	Original approval June 2005. Measure H bond passage makes it promising that this will be built.
0011	Windsor	00	03	- Relationship building/Advisory Committees	Continue to meet shareholder training needs	3-5 years	Stronger membership and participation in all advisory committees.

6.2a Program/Unit Conclusions

Location	Program/Unit Conclusions
Windsor	Complete details of challenges and goals are analyzed in 6.2b, but the categories of concern and conclusion are listed below: In 2013 an additional Basic Police Academy was added, and we continue to offer it in 2015.
Windsor	1. Growth of Police Academy interest
Windsor	2. Changing role of Public Safety Training Center for In-Service courses
Windsor	3. Demand of other Academies (Range, Corrections and Probation)
Windsor	4. Equipment and facility challenges.
Windsor	5. New construction project.
Windsor	6. Emergence of Homeland Security

6.2b PRPP Editor Feedback - Optional

There are a variety of challenges and goals (listed below) established for the PSTC/ Administration of Justice programs to sustain safety and excellence and continue to meet the demands of the district constituency over the next 3-5 years.

1. The Growth of Police Academy Interest:

After a period of austerity for local cities and counties, police and deputy sheriff hiring has rebounded. Plus retirements and turnover have added to demand for police recruits. 2013 was the first year since 2010 that PSTC needed to offer 3 full police academies in the intensive 20-week format causing overlapping classes and facility and equipment shortages. The 3 intensive and 1 modular format pace is expected to be needed for each of the next several years. We expect the percentage of affiliated (sponsored) students to increase as well. Anticipated changes in curriculum from POST over the next several years include more required hours of driver training (emergency vehicle operation – EVOC), and higher minimum academy hours overall.

2. Changing Role of PSTC for In-Service Courses:

PSTC was originally positioned as a California Regional Training Center, and still serves in that role today. Increasing costs and tight facility scheduling at PSTC have driven some local agencies to train themselves instead of coming to SRJC. The need to use off-site venues like hotel conference rooms will continue until the facility and equipment needs at our Windsor PSTC get addressed. As EVOC trends change in the academies and state-wide PSTC will need to support/maintain in-service EVOC courses and opportunities as well. Our high-tech simulators for driving and force options have significant maintenance and operation costs not fully reimbursed by POST. The documented and projected “down-time” for the driving simulator has already impacted credibility and scheduler confidence. In response to the upturn in hiring in-service will need to expand to meet regional agency needs. The 40-hour Field Training Officer course, and corrections, probation, and juvenile corrections academies, are all examples of needed in-service growth. In-service students are mostly working professionals and require specific subject expertise from instructors which can be difficult for PSTC given long adjunct faculty hiring timelines and restrictive HR rules.

3. Demand for Other Academies (Ranger, Corrections, Probation):

In addition to mainstay police, fire, and emergency medical care courses, PSTC-AJ will continue to feel demand for law enforcement related academies such as the National Park Service Ranger Academy, the California Corrections Academy, and the Probation Academy. The National Park Service Ranger Academy

and the Adult Probation Academy are scheduled to increase in the mandatory hours. Each serves needs within the district plus draws students from other districts, and each competes for gym, range and classroom space including regular late night and weekend scheduling.

4. Equipment and Facility Challenges:

As mentioned previously, the classroom space for the AJ Department at the Santa Rosa Campus is inadequate for promoting an excellent learning environment due to the age of the building, seating arrangements and the lack of technology.

The Windsor Campus PSTC was 12 years old in June 2014, and now enters its second decade of service. The custom facility remains state-of-the-art in many ways, but routine maintenance like HVAC, floors, rust, and equipment are in serious need of renewal. Tile floor replacement, rusted stanchions, aging pistols and shotguns, are some concerns that must be addressed in the next 2-4 years for the facility to remain viable. Many training tools like laptop computers and weapons were previously donated by partner agencies, but PSTC has no ability to maintain the gifts or loans. The lack of a regular recurring maintenance/replacement budget degrades our ability to safely meet the mission. The quality of student training decreases and liability increases when the only sources of new training aids are donations and occasional CTE grants. Instructional technology will be a challenge in coming years. Police, rangers, and paramedics already use online testing, and fire will within a year. The recent addition of student wireless internet has helped, but the inventory of laptops for online testing and report writing is inadequate and in need of systematic replacement. Additionally more student content will be available online making tablets, smart phones and e-readers more a necessity than luxury. The movement of the Fire Academy training to the PSTC will impact the other programs as our volume of training increases. Temporarily repurposing the weight room to a secondary mat room would provide some temporary relief to one of our significant scheduling choke points. All of these facility and equipment shortfalls cost money so increasing budget needs are expected.

5. New Construction Project:

The expansion initiative consisting of a new construction classroom and multi-purpose laboratory rooms has been designed and approved for the northwest corner of the Windsor Campus, and waits only funding. The project is formally named "Public Safety Training Center Advanced Laboratory and Office Complex." The proposal was signed by President Robert Agrella on June 1, 2005 and submitted to the Chancellor's Office for review. Subsequently the project was approved at the state level, again only deferred while a funding formula was arranged. The project originally addressed the growing demand for public safety training and included one 50-person classroom, and 7 laboratory spaces for emergency medical care, fire, and police-style training including physical education. The total square footage approved was 11, 953 and would solve most or all the facility challenges described in this strategic plan. It is hopeful that with the passing of Measure "H" bond, this project will be completed.

6. Emergence of Homeland Security:

PSTC will continue to explore offering a 3-unit Homeland Security Academy. This survey course is a only an orientation to the relevant challenges and job opportunities, but is intended to become the foundation for an AA degree in Homeland Security, and the kernel of a Department of Labor grant proposal. This new field will cross disciplines within PSTC between AJ, Fire, and EMC supporting the

goal of cross-training and mutual program understanding. There will be a great opportunity over the next 3 years to build new external and Federal relationships.

7. Relationship Building/Advisory Committees:

The past several years of successful Advisory Committees for Ranger Academy has led to reshaping the course to ensure district as well as national priorities are met. Business partnerships should also be explored in a search for nontraditional revenue. The need for orientations to PSTC and on-site agency recruiting like our popular Career Days will likely increase, but these investments take scarce time and resources, and should be studied for consolidation.

PSTC AJ Measurable Goals 2013-2017:

- Grow Police Academy throughput and percentage of affiliated students; sustain 4 police academies per year.
- Obtain funding for new Windsor Campus building by 2015.
- Increase In-Service course offerings in response to regional needs and new hires.
- Continue Ranger, Corrections and Probation Academies as resources allow.
- Add safe, modern equipment to the inventory for training.
- Establish modest but recurring equipment maintenance/replacement budget dedicated to PSTC.
- Hold to training equipment replacement cycles; replace mats, shotguns and laptops in 2014.
- Invest in Homeland Security as new program; assess interest and grant opportunities.

6.3a Annual Unit Plan

Rank	Location	SP	M	Goal	Objective	Time Frame	Resources Required
0000	ALL	00	00				
0001	Windsor	00	00	Present a Homeland Security Academy	Address the need for Homeland Security Courses	12 months	Classroom
0002	ALL	00	00	Offer an AS-T Degree course in Homeland Security and Emergency management	Meet the need for Homeland Security courses	12 months	classroom Approval of Course
