

Santa Rosa Junior College

Program Resource Planning Process

Child Development 2015

1.1a Mission

Mission:

- prepare a diverse population of students to educate and care for young children, support families and contribute to the early childhood and foster care community; and
- provide a high quality campus child care development program that supports the needs of children and families, the ongoing professional development of staff and students, particularly those interested in pursuing a career in education.

Purpose

Santa Rosa Junior College Child Development and Teacher Education Department consists of four major strategic priorities:

- 1) A program that prepares students through coursework and practical work with young children and their families in a variety of roles and settings; and provides coursework to meet certificate, state permit and Child Development major requirements and or for students pursuing a variety of educational pathways including certificates, AA and BA degrees, as well as career advancement in the field of early education and development.
- 2) A child development program for SRJC student parents that also provides a model demonstration site for students studying child development and those involved in a guided practicum experience with infants, toddlers and preschool age children.
- 3) A Teaching Fellows program awards promising students interested in the education professions and provides a mentor college instructor. The mentor partnership is based on activities and projects that allow the student to gain a better understanding of the field of education, participate in group activities that exposes them to new content knowledge and also promotes leadership opportunities and develops skills.
- 4) A foster care program that provides training for foster parents and independent living skills for college age students; and in regional partnership with other service organizations provides a support network for students completing college and transferring to BA programs.

1.1b Mission Alignment

The Child Development and Teacher Education Department is consistent with the district's mission and initiatives by being responsive to community by providing both transfer level and vocational courses for the early childhood education, teacher education and foster students and parents, and those interested in the various and allied fields in Sonoma County. As the primary

workforce development and educational institution in the county, we offer students a broad range of classes that are known for relevance and currency. We work closely with, and receive support from many community agencies in Sonoma County to ensure that their workforce has the necessary education and tools to provide optimal learning environments for young children, foster students, and their families.

Our student population is among the most culturally diverse departments in the district. Additionally, we prepare students to be contributing citizens in the community as they affect the lives of young children and their families.

The Call Children's Center provides an exemplary learning environment for college students whether enrolled in the practicum class or taking one of the numerous courses requiring observation of a children's learning environment. It also supports hundreds of student-parents who are able to fulfill their educational goals. The families who enroll their children in the center are not able attend college without this critical service.

The department has created SLO's for all classes. The program SLO's have already been approved.

1.1c Description

The Child Development and Teacher Education (CD&TE) Department serves a diverse group of students. Hundreds of students are enrolled in transfer level courses that fulfill requirements for CSU and UC. Additionally, the CD&TE Department serves as the primary education/training resource for ECE professionals in Sonoma County seeking to meet the educational requirements of Community Care Licensing and the Commission on Teacher Credentialing.

In addition, over 50 sections are offered each semester to support students with their educational endeavors. Over 3,000 students are served annually. Additionally, the Sonoma County Child Care Workforce study conducted by First Five Sonoma and the Sonoma County Child Care Planning Council found that 81% of the ECE workforce in Sonoma has taken classes and recognize the department as the primary source for professional development in the field of early education and development.

The Children's Center serves approximately 100 children each year and provides a full developmental program. The funding is tied to a complex set of California Title 5 and 22 regulations and requirements. Extensive self-evaluations of program quality and documentation of children's developmental profiles are completed annually. Additionally, the program is monitored and evaluated by a number of outside agencies including: Early Education Support Division of the CA Department of Education (CDE), Child Food and Nutrition Services, Sonoma County Fire Marshall, WestEd, and others. The Children's Center also serves as the primary practicum site for students enrolled in classes. Students from other programs including nursing, English, psychology also use the center as an observation site. Thousands of child observations are conducted each year in support of college class assignments. The curriculum of the program reflects best practices in early education.

Faculty have designed special strategies some include the following:

1. Offering early education and core content classes in Spanish,
2. Offering Spanish classes to support the non-English speakers,
3. Linking English 100 and Child 10 to create a learning community, and
4. Focusing on student achievement and completion as noted in the CARES+ program.

During the 2014-15 academic year, funds from grants and contracts are expected to continue, some examples of the programs follows:

Child Development Training Consortium (CDTC) --- Students employed in child development programs are issued stipends to cover the costs of tuition, books, parking, and health fees for classes that will help them complete courses to qualify them for Child Development Permits. Child development text books were placed in the reserve library. These books are lent out to participating students.

The CDTC program has served all sectors of the field, including family child care, school age, and state funded and private sites. This program also pays for the processing fees associated with acquisition of the Child Development Permits (\$145). Funding is from the CA Department of Education, Early Education Support Division.

Mentor Teacher Program --- Also a statewide network, this program recognizes individual teachers and directors in child care settings who have the talent and experience to mentor others in the field. A network of mentors throughout Sonoma County is established. Mentors take specific classes and then must apply to a committee for their designation as such. Mentor sites are used for practicum placement. Additionally, monthly seminars and/or meetings are held with a representative group of child development directors. The mentors receive an honorarium stipend for their work. Funding comes from the Department of Education, Early Education Support Division.

Child Development classes for Spanish speakers --- Child Development classes that are taught in Spanish to bi-lingual and Spanish speaking students. We regularly offer four sections. These classes allow Spanish speaking students to earn both department certificates and the Child Development Associate Teacher Permit. These classes support students in child development and to develop their English skills so they can transition into required General Education classes.

CARES+--- This program, is funded by First Five Sonoma and operated by the Child Care Planning Council out of the Sonoma County Child Care Planning Council (SCCCPC). It provides stipends to students pursuing their Child Development Permits. These funds do not appear in any of our budgets, although the support to students has a positive affect on the college enrollment. The focus of the program is on degree attainment and completion of degrees resulted in a revision to the CARES+ program. The program now requires all participants to meet twice per year with an academic counselor and take math/English/ESL placement tests. Students receive a \$100 stipend for each child development unit and \$200 for each GE unit. They also have the opportunity to participate in cohort groups, including one specifically for Spanish speakers

Expedited Child Development Permit Processing--- The department is one of 10 in the state authorized by the Commission on Teacher Credentialing (CTC) to provide expedited processing of required Child Development Permits. The process requires a review of student applications prior to forwarding them to Sacramento. Applications approved are routinely issued within 3-5 weeks. Students applying directly to CTC receive their permits in approximately 11-12 months. The process here are SRJC/CD

&TE reduces the time for processing, allows for the issuance of permits sooner, and facilitate the application for employment and/or advancement with a permit.

General Child Development Funds ---This is the primary funding source for the provision of Child Development services to student parents. The Children's Center serves approximately 100 children each year and provides a full developmental program to all enrolled. The funding is tied to a complex set of California Title 5 and 22 regulations and requirements. Extensive self-evaluations of program quality and documentation of children's developmental profiles are completed annually. Additionally, the program is monitored and evaluated by a number of outside agencies including: Early Education Support Division (CDE), Child Food and Nutrition Services, Sonoma County Fire Marshall, WestEd, and others. The Children's Center also serves as the primary practicum site for students enrolled in classes. Students from other programs including nursing, English, psychology also use the center as an observation site. Thousands of child observations are conducted each year in support of college class assignments.

Child Nutrition Grant--- Each year, more than 30,000 meals and snacks are served to children and prepared on site. These meals meet stringent nutritional guidelines set by the state. In order to receive the funds, extensive documentation is kept on every meal served, the income level of the family of the child receiving the food, and every component of the meal, including the weight. Approximately \$50,000 is received annually and determined on the numbers of meals served to children.

Program for Infant Toddler Care (WestEd) --- The Children's Center has been one of four programs in the state designated as a demonstration site for the Program for Infant Toddler Care (PITC). PITC is evidence based pedagogy for the care of infants and toddlers in group settings. It was developed by WestEd's Center for the Study of Children and Families, and funded by the Early Education Support Division, State Department of Education.

The funds have helped improve the quality of services and supports professional development with coaching and materials. Although there have been reductions of funding in the past few years as with all other state early childhood programs; we anticipate continued support in 2014-15.

Teaching Fellowship Program---The Spring 2013 semester was the beginning of the new Teaching Fellowship Program. This Program was made possible by a large anonymous donation to the district. The goal is to identify promising students who are interested in the education professions and provide a mentor college instructor. In partnership, the faculty and the fellow develop activities and projects that allow the student to gain a better understanding of the field of education, participate in group activities that exposes them to new content knowledge and also promote leadership opportunities.

1.1d Hours of Office Operation and Service by Location

The instructional office is open from 8 a.m. to 4 p.m. M-F in Santa Rosa. Classes are offered in the evenings until 10 p.m. at both the Santa Rosa and Petaluma sites. Several daytime sections are also offered in Petaluma.

The Children's Center operates 8:30-4:30 M-Th and 8:30-3 on Fridays during the academic year. The hours were shorten by thirty minutes Monday-Thursday in response to state budget cuts. The Children's Center is open during the academic year.

1.2 Program/Unit Context and Environmental Scan

The Child Development Department is unique for several reasons. It operates the campus Children's Center which serves 100 children of students while their parents take classes and serves as the lab school and practicum site for training ECE professionals. We operate with a large number of grants on both the Children's Center and Instruction. These were described in section 1.1c. The diversity of services gives us many opportunities to support the children and families enrolled in the center and provide various supports for students and ECE professionals enrolled in classes.

A particular challenge that the department addresses is the changing demographics of Sonoma County. While the children under 5 years old population is 5.4%, a growing number are Latino. Currently the K-12 enrollment is 43% Latino. Overall Sonoma county's total Latino population is 20.2% of the population. Our department is working to address the needs of the Latino community, including the large immigrant population.

Other trends affecting the ECE workforce include:

- California has more than 40% of the nation's immigrant children.
- By the year 2025, California's children's population will have grown by 55%. Nationally, the children's population will have grown by only 14%.
- The K-12 public education system has integrated ECE as part of its services and now is considered an effective approach to addressing the educational achievement gap.
- The federally funded HeadStart program requires half of its teachers to have a baccalaureate and assistants to hold an AA degree.
- The Sonoma State University, School of Education has begun a new baccalaureate program in Early Childhood Studies. This will allow ease of transfer for majors in early education.

The 2012 Child Care Economic Impact Analysis for Sonoma County prepared for the Child Care Planning Council of Sonoma County revealed the following about the licensed industry (there is also a very significant unlicensed sector of the industry) for which we prepare the workforce:

- In Sonoma County, early education is a \$123.8 million annual industry. This spending creates an additional \$90.2 million in the local economy. .
- The \$123.8 million supports 3,507 jobs countywide.
- For every direct job in childcare, an extra 26 jobs are created in the local economy.
- The data from the Economic Census found the child care industry in Sonoma County generates more gross economic activity than the food manufacturing industry, HVC industry, sports industry, waste collection, personal care services, advertising and public relations, and software publishers.
- Of the 116 industrial sectors in the county, child care places in the middle.
- There are an estimated 21,150 licensed child care spaces in Sonoma County.

2.1a Budget Needs

Overall the budget has been used efficiently and there have not been cost overruns in either the instructional or the child care cost areas. The instructional department's expenditures in the 4 & 5000's are relatively minor in comparison to the personnel costs. While regular replenishment of consumables is necessary, the instructional department has not made any equipment requests for several years. In 2014, investments were made to upgrade and replace a security

camera system for the children's center; and replacement of two document projectors for classroom instruction.

Both instructional and child development areas have funds from grants and are reflected in several sections of this document. The external funds support child and families services and student tuition, books and parking fees.

The table below depicts the major categories of cost centers for the Child Development and Teacher Education Department and compares the categories against the total district costs. The current level of funding is not adequate given the need for three additional faculty positions and the lack of administrative support. See sections 2.3.c., 2.3.d. and 2.3.e.

The overall budget for the department has decreased despite added responsibilities for programs across campus. The decline in costs imply savings in the personnel areas as a result of the absence of a Dean for 4 months in the last fiscal year. In addition, there was no consistent administrative support for the department. An STNC carried some responsibilities part time for the 9 months of the last fiscal year. Also, the department lost a faculty position as a result of a late resignation. The position was not approved for replacement.

	Amount for CD & TE		District Total	% of District Total
Total Expenditures	\$2,225,228.		\$120,253,860.	1.85%
Total Faculty	\$712,896.		\$43,245,547.	1.65%
Total Class. Payroll	\$676,688.		\$19,181,736.	3.53%
Total Salary/Benefits	\$2,131,444.		\$90,311,306.	2.36%
Total Non-Personnel Costs	\$87,752.		\$15,816,838.	0.55%

2.1b Budget Requests

Rank	Location	SP	M	Amount	Brief Rationale
0001	Santa Rosa	01	01	\$225,000.00	There are four faculty positions with full loads. As described in Section 2.3d, workload reductions have resulted in a critical need for full time faculty to maintain and stabilize academic instruction.

2.2a Current Classified Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Administrative Asst. II-Childr	40.00	12.00	Responsible for office management of the children's center including family and child records, customer service, file and grant organization, certain budget processes.
Admin. Asst. III- Child Dev. De	40.00	12.00	Responsible for general instructional office management, customer service, file and grant organization, certain budget processes.
Cook	25.00	10.00	Oversees operations of the food program, including hygiene, meal planning and preparation, food

			distribution, record keeping and all kitchen operations.
Childcare Master Teacher	33.75	10.00	Assists instructor in guiding students in the practice of teaching young children; is a co-teacher in the classroom; designs curriculum; confers with parents. This position needs to be increased 5 hours a week to meet the CA requirements for licensing.
Childcare Master Teacher	33.75	10.00	Assists instructor in guiding students in the practicum; is a co-teacher on the classroom; designs curriculum; confers with parents. This position needs to be increased 5 hours a week to meet the teacher/child ratios for CA licensing requirements.
Childcare Teacher	38.75	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	38.75	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	36.25	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	31.25	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	36.25	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	30.00	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	22.50	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	25.00	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Teacher	31.25	10.00	Provides care and supervision to children enrolled; implements age appropriate curriculum for children; establishes and maintains supportive relationships with children and parents.
Childcare Associate Teacher	25.00	10.00	Assists the Child Care Teacher in providing care and supervision to children enrolled in the Child Care Program
Childcare Associate Teacher	31.25	10.00	Assists the Child Care Teacher in providing care and supervision to children enrolled in the Child Care Program
Childcare Associate Teacher	38.75	10.00	Assists the Child Care Teacher in providing care and supervision to children enrolled in the Child Care Program
Childcare Associate Teacher	25.00	10.00	Assists the Child Care Teacher in providing care and supervision to children enrolled in the Child Care Program
Childcare Associate Teacher	33.75	10.00	Assists the Child Care Teacher in providing care and supervision to children enrolled in the Child Care Program
Childcare Associate Teacher	20.00	10.00	Assists the Child Care Teacher in providing care and supervision to children enrolled in the Child Care Program
Child Care Site Supervisor	40.00	11.00	Assist in the coordination of the daily operations and support of child care center and maintains licensing and state regulations.

2.2b Current Management/Confidential Positions

Position	Hr/Wk	Mo/Yr	Job Duties
----------	-------	-------	------------

Dean II, Child Development and Teacher Education	40.00	12.00	Responsible for the overall administration, supervision and coordination of the Child Development Center, Instructional program and associated categorical programs. Supervises Teacher Academy, Teaching Fellows Program, Foster and Kinship Care and Education
Program Spvsr, Children's Ctr	40.00	12.00	Manages Child Care/Lab School Operations in the Infant, Toddler, Pre-School classrooms; assists integration of lab school and child care components; and supports student teacher's on-site experience in conjunction with instructional faculty.
Program Manager FKCE	40.00	12.00	Manage grants related to the training of foster parents and the support of foster youth transitioning into independent living and attending college

2.2c Current STNC/Student Worker Positions

Position	Hr/Wk	Mo/Yr	Job Duties
Student Employee	20.00	10.00	Assists Administrative Assistant III in instructional office work.
Intern	23.00	10.00	Assists teacher and assistant in implementing curriculum and supervision of children.
Substitute Teachers (STNC)	110.00	10.00	We use approximately 10 different substitutes who fill in for absent child care teachers and assistants
Student Workers (Students)	276.00	10.00	Approximately 20 student workers at any given time are used to provide housekeeping and support to teachers in the children's center.
Student Employee	20.00	11.00	Assists Administrative Assistant II in Children's Center office work.
Intern	22.50	10.00	Assists teacher and assistant in implementing curriculum and supervision of children.
Intern	22.50	10.00	Assists teacher and assistant in implementing curriculum and supervision of children.

2.2d Adequacy and Effectiveness of Staffing

Instruction

The Child Development and Teacher Education Department uses its staff resources efficiently and effectively. We generate enough FTES income to cover faculty costs. We have one FTE Administrative Assistant III who is supported by a 25 hour per week student assistant. We recommend that the department continue to be supported by the student position because of the expanding amount of work that has come from department growth, new grants, and the need for student supports.

The Teaching Fellows Program is currently experiencing an increase in numbers of student applicants; follow up is needed with faculty to ensure that there is continuity of engagement, and the preparation and implementation of programmatic elements which will require greater administrative support. It is recommended that a part time Administrative Assistant II at 30 hours be added for a 10 month work year calendar.

Additionally, the Child Care Master Teachers' hours need to be increased to adequately support students in the practicum course, work with the instructor, and provide required supervision for the children to meet the California Child Development Division staff and child ratios. This request is to increase 5 hours for each of the two positions to bring them up to 38.75 hours from 33.75 a week. It is important to note that the Children's Center must meet Title 22 and Title 5 staffing requirements for adult/child and teacher/child ratios.

2.2e Classified, STNC, Management Staffing Requests

Rank	Location	SP	M	Current Title	Proposed Title	Type
0001	Santa Rosa	02	01	Child Care Master Teacher	same	Classified
0002	Santa Rosa	02	01	Child Development Interns	same	STNC
0003	Santa Rosa	01	01	Student Assistant (Instruct)	same	Student

2.3a Current Contract Faculty Positions

Position	Description
Laura Vallejo	Generalist. Teaches in Spanish and English and works with many English Language Learner Students.
Paul Moosman	Generalist. Teaches online, face to face courses. Serves as department Co-Chair, shares in the Department duties such as scheduling, textbook ordering and oversight of department facilities.
Alice Hampton	Generalist. Teaches a variety of classes including online, and the practicum course.
Jeanie Harmon	Generalist. Serves as Department Co-Chair (department chair of record), lead for department curriculum committee and oversees faculty and adjunct evaluations.
One full time faculty position	There is one faculty position open due to a late spring 2014 resignation.

2.3b Full-Time and Part-Time Ratios

Discipline	FTEF Reg	% Reg Load	FTEF Adj	% Adj Load	Description
Child Development	0.0000	0.0000	0.0000	40.0000	There are six adjunct faculty teaching two courses of 3 units each
Child Development	0.0000	0.0000	0.0000	20.0000	There are five adjunct teaching one class
Child Development	0.0000	0.0000	0.0000	60.0000	There are two adjunct faculty that are teaching three 3 unit courses.
Child development	0.0000	0.0000	0.0000	53.3000	There is one adjunct faculty that is teaching two 3 unit classes and one 2 unit class
Child development	0.0000	0.0000	0.0000	60.6700	There is one adjunct faculty that is teaching three 3 unit classes and one 1 unit class
Child development	0.0000	0.0000	0.0000	66.6700	There is one adjunct faculty that is teaching three 3 unit classes and one 1 unit class
Child development	4.0000	100.0000	0.0000	0.0000	There are currently four full time faculty with 100 % work load. In the spring 2014, one instructor resigned, leaving a larger number of courses to be picked up by adjuncts. There are 18 adjuncts teaching 12 courses with a varying number of units. .
Child Development	0.0000	0.0000	1.0000	0.6700	There is one adjunct teaching a one unit course at .6667% time

2.3c Faculty Within Retirement Range

Two of four current regular faculty members and Program Supervisor are in retirement range; however none have yet determined their date of retirement. One regular faculty has chosen to reduce her load to 80%, effective fall 2015, and one regular faculty will be on sabbatical for spring 2016. Also, the majority of adjunct faculty are of retirement age. Therefore, it is critical for the department to hire faculty this year to maintain instruction and stability.

2.3d Analysis of Faculty Staffing Needs and Rationale to Support Requests

There was an unanticipated (late spring of 2014) resignation of a full time faculty member at the Santa Rosa Campus; the request to **replace** this key position was not approved.

Replacement of this position, plus two additional full time faculty positions are requested for maintenance and stability of instruction. **The total request is for three full time faculty positions.**

In spring of 2014, we had 5 instructors at 100% each, resulting in 500%.

In fall of 2014, we lost 1 FT instructor, resulting in 400%.

Also in fall 2014, 2 faculty agreed to serve as co-chairs for the department. Each reduced their load by 20%, resulting in 360%.

In fall of 2015, one of the regular faculty members will exercise her early retirement option, resulting in a 20% decrease of her load. The Department has gone from 500% to 340% in one academic year.

Furthermore, in spring 2016, 1 regular faculty member will be on sabbatical, **further reducing the full time faculty load to 240% among 3 regular faculty members.**

Of these remaining 3 faculty members, 2 will act as department co-chairs, 1 is responsible for the practicum, leaving only 9 classes (or 27 units) to be taught by regular faculty. On average, 53 classes (or 150 units) are offered each semester. **Therefore, less than 20% of classes will be taught by regular faculty.**

In the last 6 years, 1 FT faculty member was hired, and 1 resigned. Of the 4 FT faculty, 2 are married to each other, thereby creating issues with performance evaluations. Also, the remaining 2 FT faculty are both eligible for retirement and/or reduced workload.

In addition, of the 19 individuals in the adjunct pool, 11 are eligible for retirement.

In the last 3 years, we have interviewed each year to add to our adjunct faculty pool. Approximately 5 candidates were selected for interview from a pool of 15 - 20 applicants. Each year, we added 2 instructors to our adjunct pool; of this group 1 adjunct is no longer part of the pool, and 1 is newly added. Compared to applicant pools of other departments, Child Development seems to have a fairly limited pool.

2.3e Faculty Staffing Requests

Rank	Location	SP	M	Discipline	SLO Assessment Rationale
0001	ALL	01	01	Child Development 10 online and other core courses	There is high demand for core courses that represent Child Development Permit requirements
0002	ALL	01	01	Child Development core courses taught in Spanish	Classes taught in Spanish have a high enrollement and retention and draw sectors from the labor market not often targeted for services.
0003	ALL	01	01	Education/GE	EDUC 55 is a key course that offers transfer opportunities to the students interested in education. It has a foundation in general education requirements. It is important to recruit into this position a faculty member that has k-12 experience. it is important to consider this experience in the future as a preferred criteria.

2.4b Rational for Instructional and Non-Instructional Equipment, Technology, and Software

This is a review of the current status of both the Children's Center and Early Education Instructional Facilities equipment needs, generated in conference with faculty and staff and a careful consideration of priorities. The conversations have resulted in the following recommendations:

Non Instructional Equipment Requests:

The fence of the Children's Center needs to be replaced as the posts have lost their integrity. In order to stabilize the fence, last year some braces were attached to the fence posts; however, the fence continues to deteriorate, and is now over 20 years old. This is a licensing requirement for the operation of children's services by the Department of Social Services, Community Care Licensing. We believe that our campus facilities team can do this work; however materials will need to be purchased. The estimate for fence replacement is \$10,000.

The dishwasher in the Children's Center needs to be replaced. The current dishwasher was a used model when the Children Center received it. It was moved from the Brickyard Center when the SRJC Culinary program moved into the B. Robert Burdo Culinary Arts Center. The dishwasher is reaching the end of its functional life and currently requires frequent repairs. A functional dishwasher is a necessity in order to maintain the health and safety of the children who attend the Children's Center. Estimated costs \$8,000.

The children's classrooms need a paint job to refresh and keep them clean. The entire center is a high traffic area with more than 150 adults and children entering and exiting several times a day. In addition, we receive thousands of observers from other departments and outside of the college. In order to maintain the exemplary status of the operation, minimally we need to keep the center clean and fresh. Estimated costs: \$ 10,000

Instructional Equipment Requests:

The Child Observation Rooms in the Children's Center serve as teaching opportunities for many core classes such as the Practicum (capstone), Observation and Assessment, and Child Growth and Development. Also, hundreds of students from other departments use the rooms to enrich their learning in different disciplines. Some examples include: nursing, psychology, and other health related fields. Hundreds of individuals use and benefit from the observation rooms. The rooms are equipped with microphones and headphones to enable students to listen and watch children in the normal course of their day. This equipment was originally installed in 1995. The remote mic system is frequently malfunctioning, and needs to be replaced. We need to continue our work on upgrading the technology to enable faculty and students to use the viewing of children in natural settings in the least disruptive manner. Funds were received in the 2014-15 funding cycle to upgrade two of the five observation rooms. The requested funds are to be used to upgrade the remaining observation rooms. Estimated costs \$10,500.

This total request is estimated at \$ 38,500.

2.4c Instructional Equipment and Software Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
0001	Santa Rosa	01	01	Continue upgarde of existing observation systems	1	\$10,500.00	\$10,500.00	Yolanda Garcia	Children's Center	Yolanda Garcia

2.4d Non-Instructional Equipment, Software, and Technology Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
0001	Santa Rosa	04	07	Commerical Dishwasher - Children's Center Kitchen	1	\$8,000.00	\$8,000.00	Yolanda Garcia	Children's Center Kitchen	Kari Poulsen

2.5a Minor Facilities Requests

Rank	Location	SP	M	Time Frame	Building	Room Number	Est. Cost	Description
0001	ALL	04	07	Urgent	Call Children's Center	Children's Center	\$10,000.00	The original fence has been repaired numerous times over the years. The poles have lost their integrity and the entire fence needs replacement, this is a licensing requirement. We need the fence replacement as soon as possible.
0002	ALL	00	00	1 Year	Call Children's Center	Interior of classrooms & exterior doors	\$10,000.00	The children's classrooms need a paint job to refresh and keep them clean. The entire center is a high traffic area with more than 150 adults and childrens entering and exiting several times a day. In addition, we receive thousands of observers from other departments and outside of the college. In order to maintain the exemplary status of the operation, minimally we need to keep the center clean and fresh.

2.5b Analysis of Existing Facilities

The Call Children's Center continues to be a good environment for teaching child development classes and serves an essential service for instruction as the students can compliment their knowledge by observing children in their natural environment; however the three classrooms for college students in the Call Center at the Santa Rosa Campus are highly impacted and classes have been scheduled in other locations.

The Children's Center continues to be a model in the state. Overall the building is almost two decades old (built in 1995) and is showing serious signs of wear. It needs refurbishment - exterior doors, beams, columns and hand rails need painting. Additionally, the downstairs Children's Center and upstairs instructional classrooms (and doors) need to be painted.

3.1 Develop Financial Resources

Currently there are two grants from the Early Education Support Services, California Department of Education, the Teacher Mentor Program and the Child Development Consortia that support SRJC's efforts and strategic goals for student learning and success. The Teacher Mentor program supports quality initiatives in community and serves to bridge the instruction to practices in early education services. The Child Development Consortia supports tuition reimbursement, the costs of books and parking fees which all contribute to student retention. Local priorities with community partners via the Child Development Advisory Board on a biannual basis and take into consideration the results of an annual survey of professional development needs for early educators.

3.2 Serve our Diverse Communities

The Child Development Department is committed to hiring a diverse faculty and staff. In an effort to reach a broad audience we have advertised in statewide e-newsletters that are sent to child development programs. Additionally bilingualism is one of the screening criteria and listed as a preferred skill for faculty and staff job announcements when appropriate.

We currently have one full time faculty who can teach in Spanish and another two adjunct faculty who are able to teach in Spanish. Each of our Infant/toddler rooms has a Spanish/English bi-lingual teacher, and we have one bi-lingual Mandarin/English teacher.

The Children's Center enrollment in Spring 2014 was over 40% Latino. This percentage was self reported by families when making application for services. We believe that these numbers represent a window on the future enrollment demographics of the district. As demographics continue to change, we will need to monitor the representation of staff and faculty.

The student population in our department is approximately 90% female and reflects the composition of the workforce in early education (both statewide and nationally). Of the sixty regular, adjunct and STNC employees in the department, only two are male.

3.3 Cultivate a Healthy Organization

When financially feasible, support is provided for faculty to take classes, or participate in professional development activities that will increase their professional skills and knowledge. Several faculty have attended various regional workshops held by the California Community College Early Childhood Educators (CCCECE). Also some faculty have attended a variety of professional workshops throughout the Bay region. This year, one faculty member attended the California Association for the Education of Young Children.

The serious need is to bring up the skills of adjunct faculty to ensure that they are current with the knowledge and latest research in brain development, assessment tools, use of technology, and understanding of diverse family needs to name a few examples. It has been raised as a concern by both students and full time faculty that adjunct faculty need to participate in professional development activities that will ensure that we maintain the most current and best practices in instruction.

Bi-annual training on pediatric first aid and CPR are provided to the Children's Center staff to maintain certification; additionally they are offered training on how to deal with blood-borne pathogens. They receive annual trainings in regards to food program regulations to ensure that all nutritional standards and documentation requirements are met.

Children's Center staff also take classes and attend workshops. The individual personnel evaluation may also be used to identify areas for development. The ability of the Child Development Department to continue to provide ongoing training to Children's Center staff has been seriously compromised with reductions of state contracts from the Early Education Support Division, California Department of Education (EESD/CDE). It is now much more difficult to find the time to train staff appropriately. We continue to receive outside development support from the Program for Infant Toddler Care, WestEd; however this source has also been decreased since the source is from the EESD/CDE.

3.4 Safety and Emergency Preparedness

The Administrative Assistant III in the Child Development Department and the Manager of the Children's Center are designated area safety supervisors. The Dean is deemed the Building Coordinator. The on-line safety procedure training has been completed and all safety procedure documents have been sent to the Campus Safety Coordinator to be updated. Also, one of the co-chairs for the department provides facility oversight.

3.5 Establish a Culture of Sustainability

In 2014, the building's water supply and safety was comprised by a major water line break as a result of the Napa County earthquake. The event caused disruption in child and family services. The state deemed the event a natural disaster, thereby not reducing funding levels. Also, critical was the quality of the water in all parts of the building resulting in a need to replace two water heaters. Given these experiences, it is critical to acknowledge that large equipment and systems are now at the "end of life". It will be necessary to ensure that the quality of the building and surrounding external

environment is maintained and sustained, therefore we will need to continue to monitor all operations and collaborate with appropriate departments.

The faculty infuse sustainability practices in as much as it is feasible and reasonable. It is clear that they have a commitment to recycle instructional materials and do so when appropriate.

There is a culture of sustainability, social justice and equity within the department and in the Children's Center, which attests to the respect and value of these principles for the communities served.

A goal is to try to lease or better use the facility as two children's rooms remain open and empty and community programs have a need to serve children that have been displaced by the loss of classrooms on elementary campuses. This approach can represent the leveraging of other public funds for our student population and communities.

In the current year of 2014-15, recycling continues both in the Call Children's Center and instructional classrooms. There are also efforts to maintain the equipment in the classrooms to ensure that energy efficient practices are in place.

4.1a Course Student Learning Outcomes Assessment

Every course has the required SLOs. All active courses have a plan for assessment of all SLOs. Several courses show completed assessments with changes implemented or not needed. Regular faculty and adjunct faculty are working together to complete assessments, dialogue in regard to changes and monitor changes/improvements as they are implemented.

Child Development Department 6-Year Cycle SLO Assessment Plan

Course	SLO #s	Participating Faculty	Semester Initiated or to Be Initiated	Semester Completed	Comments	Year of Next Assessment
CHLD 10	#1,3,4	Harmon	2011-2012, 2013-2014	Spring 2014		2020

4.1b Program Student Learning Outcomes Assessment

As described in 4.1a Program Level Outcomes and course SLOs have been identified.

Faculty take seriously their responsibility to support student learning. This is done in several ways; one of the key activities is related to a statewide initiative and described below:

The Child Development Department program is aligned with the California Early Childhood Curriculum Alignment Project. In the last few years, eight core-curriculum classes were revised to align with other community colleges. Currently, 77 colleges are aligned or are awaiting review and approval. One hundred of the community colleges have committed to alignment. This alignment allows students to transfer to other 2 and 4 year colleges without a loss of units. It also is providing the foundation for the Child Development Transfer degree that is in the C-ID system.

In the 2013-14 year, the new AS-T in Early Childhood Education was implemented based on the CAP alignment work.

There are three certificates that students can complete in the Child Development Department.... Associate Teacher, Teacher, and Children in the Justice System (shared with the Administration of Justice Department). Each of these certificates has been fully assessed as of Fall 2014. Ongoing assessment will be completed within the next 6 years.

Students can complete three majors in this department....the Child Development Major, the Early Childhood Education Major (TMC), and the Elementary Teacher Education for Transfer Major. Assessment for each of these majors has been completed as of Fall 2014. Ongoing assessment of individual courses and majors as a whole will continue within the next 6 years.

Assessments for certificates and majors are dependent on individual course assessment. See section 4.1.a for the plan for individual course assessment.

4.1c Student Learning Outcomes Reporting

Type	Name	Student Assessment Implemented	Assessment Results Analyzed	Change Implemented

4.2b Narrative (Optional)

The department addresses the district's institutional goals in several ways, including:

1. An emphasis on active learning. Faculty incorporates teaching and learning methodology in all classes, which requires students to actively engage with their peers by discussing, presenting opinions and materials to others. (1c,2a,2b,3a,3b, 4a,6b)
2. A commitment to embed the diversity, respect for differences and the identification of assets of diverse children and families through all our courses. (4a,4b 5,6a, 6b, 6c, 7)
3. Promoting advocacy for children on the part of our students (7)

It is notable that SRJC's Child Development and Teacher Education Department has played an active role in a statewide effort by community college educators to implement the Curriculum Alignment Project. The goal of the project was to develop a 24-unit core of classes among all the community college child development departments that have both common program outcomes and student learning outcomes for each of the eight designated classes. Transfer students can move from one community college to another (or a 4 year institution) without losing child development units. Additionally, SRJC continues to work with the CSU system to have the whole package of 24 units fully transferable.

5.0 Performance Measures

The Child Development department has clearly been established as the central provider of professional development in Sonoma County's early childhood community. Staff, faculty and administrators participate in numerous ECE county events and advisory boards. Most prominent among these are:

- CARES Advisory Board
- Sonoma County Child Care Planning Council
- Child Care Coordinating Council of Sonoma County
- Evening of Honor
- Early Learners Conference
- SSU Early Childhood Education Advisory Committee
- California Community College Early Childhood Educators
- Sonoma County Association for the Education of Young Children
- First Five Sonoma
- Curriculum Alignment Project
- California Community College Early Childhood Educators
- Cradle to Career

Especially revealing is the 2009-2010 Early Childhood Workforce study funded by First Five Sonoma, 4Cs, and the Sonoma County Childcare Planning Council.

It found that 81% of the county's center-based teachers and administrators have come to SRJC for classes. Additionally, 75% of the family childcare providers have come for classes. This is especially notable since family childcare providers are not required to take any classes by licensing. Overall these statistics show that the community has a great deal of confidence in the Child Development program and the courses offered. <http://www.scoe.org/files/provider-survey-110509.pdf>

5.1 Effective Class Schedule: Course Offerings, Times, Locations, and Delivery Modes (annual)

The department offers approximately 60 different sections and 30 courses each semester. Core and transfer level courses are offered in Petaluma and Santa Rosa. Additionally, summer classes as well as one and two unit courses are offered at both campuses.

There is a continued demand for core courses. These core courses are required to operate a licensed children's facility; additionally, many of these courses are certificate and degree applicable, not only in this department, but in others as well. Several sections are offered each semester at both campuses, during the day, in the evening and online. Monitoring of student enrollment will continue annually to determine the demand for specific courses each semester.

The offerings in Petaluma continue to grow incrementally, predicated on student demand and available faculty. The core courses generally do well; however the electives generally have lower enrollments. Again, monitoring of student enrollment will continue and offerings will be made based on enrollment and retention to build services in Petaluma.

5.2a Enrollment Efficiency

Overall our efficiency numbers are excellent. The last three years reflect a consistent high level of efficiency for both Petaluma and Santa Rosa Campuses; however the decline in full enrollments may reflect a slow growth in the profession as a result of reduced levels for publicly funded children's programs.

EFFICIENCY

Spring 2012	Fall 2012	Spring 2013	Fall 2013	Spring 2014	Fall 2014
104%	92.3%	100%	107.8%	89.7%	88.6%

Petaluma numbers also reflect an even higher level of efficiency in our scheduling. In the fall of 2013, the enrollment efficiency at Petaluma was 102%.

The drop during Fall 2012 was primarily due to the Foster Kinship Care Education classes which were challenging as they work to meet requirements for the enrollment procedures. Those classes were eliminated from the schedule and now are being offered as non-credit. As a department, we continue to consider options for offering foster parent training, independent life skills to students and ultimately, how best to support their success. We will continue to develop strategies to support the Foster Kinship Care Education program and determine how best to integrate the services into SRJC.

5.2b Average Class Size

Child Development Average Class Size

S 2010	F 2010	S2011	F2011	S2012	F 2012	S 2013	F 2013	S 2014	F20
30	27.8	30.7	30.3	28.3	27.5	26.9	32.3	24.2	25.6

The above numbers show that classes are generally full. The slight upturn in the most recent semesters is indicative of the retention of the students.

The numbers are comparable in both Santa Rosa and Petaluma Campuses.

All classes in the department are listed as 30 slots with a wait list of 3.

5.3 Instructional Productivity

Our overall numbers are as follows:

Child Development instructional Productivity

	S 2010	F 2010	S2011	F2011	S2012	F 2012	S2013	F2013	S2014
FTEs	159.22	151.22	155.34	148.55	139.97	139.85			13.72
FTEF	10.24	11.17	9.92	9.62	8.82	9.23	10.64	12.05	10.78
Ratio	15.55	13.54	15.66	15.45	15.86	15.15	15.19	16.77	12.96

Classes in the Child Development Department are capped at 30 with a wait list of 3; large size lecture classes are not in keeping with our educational pedagogy. One FT faculty has responsibility for our practicum students. Approximately 25 students enroll each semester, and this accounts for 80% of this faculty member's load, thereby decreasing the overall faculty to student ratio. Productivity in Petaluma is roughly equal with the department's Santa Rosa numbers.

Our recommendation: as the college allows, sections/classes can be added and assigned to adjunct faculty.

5.4 Curriculum Currency

We have a regular 6 year review cycle. All classes are current. A full time faculty curriculum committee is responsible for this review and the department chair is the lead for this work.

5.5 Successful Program Completion

Between 2009 and 2013, a total of 575 certificates were awarded, **including 362 Associate Teacher Certificates, 87 Teacher Certificates, and 126 Children in the Justice System certificates jointly offered by Administration of Justice Department;** these figures are based on the SRJC FACT Book 2013. Additionally, the 2011 ARCC report from the Chancellor's office lists child development as the discipline with the most certificates and second highest among all unit based awards in the state. A high proportion of those certificates were earned at the 12 unit Associate Teacher level by Latino students.

Permits issued by the California Commission on Teacher Credentialing (CTC) are important as they are required to work at different levels in publically funded and private programs. The Child Development department offers assistance to expedite applications to CTC. Additionally, in conjunction with the CARES program, workshops are provided to students on how to fill out the application for a child development permit. The Child Development Training Consortium program, Mentor Teacher Program and CARES all support the continued academic progress of students.

5.6 Student Success

Overall retention has consistently been better than the district figures. The District retention rate was taken from the Fact Book.

Retention	S2010	F 2010	S2011	F2011	S2012	F2012	S 2013	F2013	S2014
Child Dev.	83	81	81	80.2	81.3	82.4	81.5	85.7	
District	77	76.4	77.3	77.9	78.6	76.9	77.3	76.4	

Completion	S 2010	F 2010	S2011	F2011	S2012	F2012	S13	F2013	S2014
Child Dev.	79.3	76.4	79.53	77.04	78.8	78.2	78.37	84.7	7
District	72.5	71.6	73	73.2	74	72.1	72.8	72.0	7

GPA	S 2010	F 2010	S 2011	F2011	S2012	F2012	S2013	F2013	S2014
Child Dev	2.91	3.0	3.086	2.958	2.85	2.82	2.91	3.30	2
District	2.56	2.56	2.6	2.63	2.65	2.63	2.63	2.62	2

Overall the above statistics show that students are retained at higher rates and significantly better than students in the district from 2010 to 2014. More students in child development successfully complete their coursework. Spring courses seem to retain students at higher rates than in the fall.

Retention is good for all ethnicities except for African-American students who drop at a rate almost 35% more than other groups. The retention rate between genders is also roughly equal. Students age 31 to 60 have a significantly higher retention rate than younger students and those over 60.

Completion rates don't vary significantly by income group, disability, or college assessment of basic skills.

Students between 31 and 60 had the highest GPAs. It is notable that the basic skills ESL students had a commendable GPA average of 3.147 in 2012. The students seem to do well in classes and maintain a consistently high GPA average.

5.7 Student Access

Ethnic Composition of Student Population

Asian	3.0%
Black	1.7%
Hispanic/Latino	37.2%
White.....	49.2%
Unknown.....	3.0%

As noted in previous years, the Child Development department has a significantly higher population of Latinos than the district overall. The Child Development and Teacher Education Department has successfully created classes that meet the specific needs of the Latino and Spanish speaking early educators. Core courses are offered in Spanish. Outreach is continuous through word of mouth, brochures in Spanish, and a flyer is available for students outlining classes to be offered, academic pathways and other important information. Additionally, the department sponsors a listserv for all program directors in the county where they share information and classes can be promoted. This outreach is made possible by the Mentor Teacher Program funded by the California Department of Education, Early Education Support Division.

Also, the student population is predominately female (approximately 84.3%); this is consistent with the field of early education nationally. The source of the data above is from the Fact Book 2013.

5.8 Curriculum Offered Within Reasonable Time Frame

The Child Development and Teacher Education Department scheduling committee thoughtfully plans each semester's offerings ensuring that all necessary permit/certificate classes are offered every semester. Every effort is made to offer face to face classes at a variety of times, days and locations so that students will have access to a full compliment of core courses each semester or at minium, on a rotational semester basis. Additionally we continue to expand our online course offerings.

A rotational plan for certificate completion is in place. The class offerings are evaluated each semester when the scheduling committee meets for planning purposes. The committee also tries to vary the certificate/permit courses rotated through Petaluma; however dedicated classroom space continues to be difficult to schedule.

In addition, the Scheduling Committee reviews a county wide assessment of professional development needs and interests of the child development community. The assessment aggregates data on prefered days and times that are most attractive for early educators as work/family issues dominate their decisions about professional development opportunities. The assessment is completed by the Child Care Council of Sonoma County.

5.9a Curriculum Responsiveness

The department has a diverse and representative advisory group that meets twice a year and reviews the curriculum, course offerings, and reflects and ensures that the needs of the community are met. The committee is made up of about 30 representatives from industry plus full time and adjunct faculty. Attendance is consistent.

Additionally, the Spanish language classes and the attached VESL classes are in direct response to the changing demographics of children in Sonoma County.

5.9b Alignment with High Schools (Tech-Prep ONLY)

The work with the high schools on articulation has continued. Following numerous meeting with the ROP/ tech prep instructors and administrators from Sonoma County Office Education articulation; credit by exam procedures are now in place and being implemented. "Counselors' Guide to the Child Development Department" was distributed to all the Sonoma County high school counselors. Annually, high schools tour the Children's Center and the instructional facilities. Student data from the high schools is analyzed, and work to build the relationships with the high schools will continue in 2015-16. Two high school partnership meetings have been held at SRJC and attendance by the department continues, as a means of relationship building with high school representatives and the SRJC programs/representatives charged with outreach and recruitment.

5.10 Alignment with Transfer Institutions (Transfer Majors ONLY)

The department has good relations with the faculty in the School of Education, Sonoma State University and First Five Sonoma to create a baccalaureate pathway in Early Childhood Studies that articulates with the Curriculum Alignment Project classes. The new AS-T in Child Development has been completed. Students can now pursue a clearly articulated pathway between these two programs. Both institutions will review and renew current agreements and consider how best to strengthen the relationship to best serve transfer students.

As noted previously, the core courses in Child Development were approved with the ECE Curriculum Alignment Project (CAP). As one of the first departments in the state approved for alignment, a report was required to be filed with the Early Education Support Unit, California Department of Education. This year we reported that only minor adjustments were made with regards to the use of textbooks. A plan has been developed to expand our aligned courses in conjunction with CAP's current recommendations.

The accreditation process provided an opportunity to update active and non-active classes. Continuous improvement will be ongoing with the systems of review and monitoring.

5.11a Labor Market Demand (Occupational Programs ONLY)

One of the most revealing studies of the business of childcare is the 2009 Child Care Needs Assessment for Sonoma County conducted by SCOE/Child Care Planning Council <http://www.scoe.org/files/needs-assessment-2009.pdf>.

In addition to the direct benefits for children, the child care industry positively impacts the economy of Sonoma County indirectly, it is a secondary support to other industries. There are numerous economic benefits from early childhood education. Children who receive a high quality childhood education are more likely to have increased behavioral and academic readiness, greater success in grades K-12, including higher test scores and graduation rates, lower public dollars spent on remedial education, and a more prepared workforce to support the local economy. Early childhood education can also decrease the amount of public spending by lowering criminal justice costs and the reduction of welfare use. Investing in children at an early age generates life-long benefits for children and society(Sonoma County Office of Education, Local Planning Council Needs Assessment, 2011).

Salaries for early educators remain low and there are few incentives to continue education and stay in the field; this is a long term and national problem. The commitment to increase professional development and educational opportunities is also a state wide imperative. This year 2013-14, 17 counties applied to pilot quality improvement initiatives with federal funds through Race to the Top/Early Learning Challenge Grants. Sonoma County did not apply; however SRJC is well ahead of most colleges/counties in the provision of articulation and transfer arrangements. In a report from the Center of Industrial Relations, Center for Child Care Employment, UC Berkeley worked with a special governor appointed committee which resulted in the passage of SB 1440 (Padilla) to create a clear pathway for community college students transferring to the California State University System.

The primary challenge is to develop a support system for an experienced workforce that is ethnically diverse and reflects the children that are served in group settings (Whitebook, 2009). Over the next 10 years, the County's population of children will increase, and children as a percent of the total population will increase from approximately 18.5% to 20.1% by 2019, according to a study by the Department of Finance. The labor and market demands for more services and increased quality will only reinforce the need for care and service to young children. The real key to effectiveness and quality in early education is professional development. SRJC is in a unique position to ensure that the content presented to current and future early educators is relevant and based on the latest research.

5.11b Academic Standards

The staff and faculty have numerous planning and work sessions on student academic success and barriers and challenges. There have been numerous opportunities to support faculty and staff for continuous improvement in the area of academic success. Some examples include:

- Ongoing workshops for full time and adjunct faculty on writing and grading
- Continuation of a faculty curriculum committee to review course content
- Recommendations for syllabi improvement and necessary revisions
- Establishment of the CARES + program with the Child Care Planning Council
- Extensive review and assessment of Student Learning Objectives
- Development of 6 year plan for ongoing SLO assessment

We have chosen to use PDA work sessions to review, assess and plan for academic needs in this department. This allows full time and adjunct faculty to work together to maintain academic standards.

6.1 Progress and Accomplishments Since Last Program/Unit Review

Rank	Location	SP	M	Goal	Objective	Time Frame	Progress to Date
0001	ALL	01	01	Develop and implement a tracking system to identify and support students who are working toward certificate and/or major completion.	1. Work with existing college systems to track students.	July 1 - June 30	None yet
0002	ALL	01	01	Increase the number of students who complete degree and certificate programs	<ol style="list-style-type: none"> 1. Review the current course rotation to ensure that students can follow course offerings using a clear educational path. 2. Evaluate and renew outreach strategies to ensure that students are benefiting from all available resources such as the permit processing, CDTC tuition reimbursement, mentoring opportunities, and or scholarship support. 3. Intercommunication with campus Counselors to update information. 4. Continued outreach to high school students. 	July 1 - June 30	Time for planning between and amongst faculty, adjuncts, and staff of the Call Children's Center.
0003	Santa Rosa	07	02	Investigate and secure funding options for the child development services.	<ol style="list-style-type: none"> 1. Incorporate more full fee families into funding stream. 2. Seek new grant funding 3. Consider integration opportunities with foster care, EOPS, CAL Works etc. 	July 1 - June 30	<p>Planning with the various sectors to consider integration, streamlining of services, and identifying new funding options.</p> <p>Ongoing communication with Child Development Department Advisory Board</p>
0004	ALL	01	01	Stay current on Curriculum Alignment Project course revisions, review the new assesment tool COMPStat and CA Competencies for integration into course content.	<ol style="list-style-type: none"> 1. Update course outlines as needed, review the new state on line resources such as competency content areas. 2. Stay current of all Early Education Support Division, CA Department of Education requirements. 3. Seek funding for faculty summer work for course revisions. 	July 1 - June 30	<p>Required course updates and revisions are current in cycle.</p> <p>Request for CTE funding has been drafted and submitted.</p>

6.2a Program/Unit Conclusions

Location	Program/Unit Conclusions
Petaluma	Continue program services and instruction in Petaluma to offer complete course rotation for certificates.
Santa Rosa	Continue to offer comprehensive child development services. Seek new funding sources to expand services to more children fully utilizing the empty classrooms

6.2b PRPP Editor Feedback - Optional

The department has been successful in meeting its obligations and goals by stabilizing the administrative support unit and electing a department chair and program coordinator. However, additional administrative support is needed and has been requested.

New responsibilities have been added to the department which require much support and structure that did not exist. New programs include high profile and community visible elements. The Teaching Fellows program needs structure, protocols and formal systems. In addition, the Foster Kinship Program continues to shift and change as a result of decreased funding, thereby jeopardizing the level of service and quality. Also, responsibility for the Hispanic Serving Institution (HSI) initiative requires much coordination across campus and involves new federal accountability. Most of these responsibilities are overseen by the Dean of Child Development and Teacher Education with insufficient administrative support.

6.3a Annual Unit Plan

Rank	Location	SP	M	Goal	Objective	Time Frame	Resources Required
------	----------	----	---	------	-----------	------------	--------------------
