2.1a Budget Needs

The Title V, META4 is a 5-year categorically funded project by the US Department of Education under the Hispanic Serving Institution (HSI) program. We are in the second year of the program implementation with an annual budget of \$525,000. During the first year the lengthy hiring process of staff resulted in a significant carry over amount. In the second year, the budget with an approved carry over amount in the amount of \$280,000 provided a total of \$805,000 enabling the program to support library faculty orientations, reassigned time for faculty, student study groups, the expansion of the Connections program and a cohort in the Petaluma campus.

The META4 initiative is funded on a different fiscal year starting in October and ending in September, adding complexity to planning, implementation and overall monitoring. The budget is adequate to meet the proposed goals of the program in the 4000s and 5000s areas except in the areas of direct support to student such as counseling and books. Counseling has been covered by SSSP and the books have been provided by Student Equity funds. However going forward these funds or support are not guaranteed.

The existing fiscal year expenditures currently found in the PRPP system are not current and are below the amounts that the program is working with by nine months. The expenditures missing are from July 1, 2015 to today.

2.1b Budget Requests

Rank	Location	SP	M	Amount	Brief Rationale
0001	ALL	01	02	\$78,762.00	The grant and current budget did not take into account the enormous amount of student counseling and advisement that is needed for students. The actual projections were not accurate. Going forward counseling is critical to the success of retention of students.

2.2d Adequacy and Effectiveness of Staffing

Does the program have adequate classified staff to support student needs?

No, currently the HSI staff provides leadership and support of the program for planning and implementation. However the first year has been instrumental to determine the great need for consistent counseling services and academic advisement. In addition, other faculty needs are apparent to support students in the area of Mathematics. Students need math tutoring and study groups that were not projected or budgeted.

Does your program/unit have any unfilled vacancies or positions that have been eliminated?

No

2.3a Current Contract Faculty Positions

Position	Description
ESL Instructor x 4	The Title V META4 project covered a percentage of the ESL faculty members load. ESL faculty members' specialized duties with the HSI project were to reconfigure and redesign the entire SRJC English as a Second Language (ESL) curriculum. In addition, ESL faculty members are responsible for the implementation and training of ESL staff to the demands of the new curriculum. This new proposed Accelerated English Pathway will focus on the preparation of Spanish speaking students for the demands of transfer-level composition courses.
English (Generalist) x 2	The Title V META4 project covered a percentage of the ENGLISH faculty members load involved with the Connections program (Learning Community). English faculty members provided instruction to first generation, low-income and/or Hispanic students. English faculty are responsible to assist students in understanding in the area of English and in thinking more critically and reports on student progress to HSI staff.

These changes involve new courses, an integration of skills, and other best practices features such as common assessments, supplemental instruction, and extended electronic classrooms.

2.3c Faculty Within Retirement Range

Retirement information is not available for this initiative. Any retirements of faculty that we are collaborating will pertain to other departments. Continuity of assignment for faculty as essential for the success of this initiative. META 4 works with several departments.

2.3d Analysis of Faculty Staffing Needs and Rationale to Support Requests

Ideally, consistency of faculty is critical to the success of the initiative, however since META 4 does not hire faculty and will be integrated into the college systems, all faculty positions are hired by the different academic departments. The participating departments work within the agreed to processes and policies of hiring and open available teaching opportunities to faculty in their departments. There is discussion about experiences and skills necessary for success with Latino, low income first generation students at Connections to refine the recruitment of faculty for courses offered.

2.3e Faculty Staffing Requests

Rank	Location	SP	M	Discipline	SLO Assessment Rationale
0001	Santa Rosa	01	02	Counselor	With the increase of the Connections program (Learning Community) in the Petaluma campus and the start of the second year in Santa Rosa campus, there will be a larger need to provide of counseling services and educational plans to students.

2.4b Rationale for Instructional and Non-Instructional Equipment, Technology, and Software

The HSI staff and students services are currently housed in Barnett Hall. The MI CASA (Multicultural Innovation Center for Academic Success & Achievement) center is currently being finalized and all instructional and technology needs have been taken into account for a student lounge and a study center.

In addition, in the area of software, one of our highest priorities is to improve the academic planning and connectivity of resources available to new and current students. With the support of the Title V META4 federal grant, we contributed to the district \$140,000 to purchase an Outreach Software package for the college. This software should provide IT tools towards a more personalized system to improve academic planning for all students.

2.5b Analysis of Existing Facilities

The existing facilities where the Title V META4 project operates from are old, inadequate and temporary. The Hispanic Serving Institution (HSI) staff has been operating out of Barnett Hall 1282 since January 2015. All services offered to students; staff office area, counseling office, study & lounge areas and computer lab, are currently shared with two departments ESL and HEP in a building that is scheduled to be demolished.

Because space and adequate facilities are needed, the HSI staff has been engaged in an ongoing process of planning for the purchase and installation of modular classrooms for the new MI CASA (Multicultural Center). It has been recommended that the Title V META4 project be assigned in a permanent central location and consistent with the Prop 'H' planning and development process.
