

Santa Rosa Junior College

Program Resource Planning Process

Food and Nutrition 2019

1.1a Mission

Mission of Foods and Nutrition Program: To provide students with a general education in nutrition to gain practical and science-based knowledge about the relationship between food and health for preparation for college or university transfer, entrance into profession program in health sciences (including Dietetics), and personal knowledge.

1.1b Mission Alignment

SRJC passionately cultivates learning through the creative, intellectual, physical, social, emotional, aesthetic and ethical development of our diverse community.

We focus on student learning by preparing students for transfer; by providing responsive career and technical education; and by improving students' foundational skills.

We provide a comprehensive range of student development programs and services that support student success and enrich student lives.

We support the economic vitality, social equity and environmental stewardship of our region.

We promote personal and professional growth and cultivate joy at work and in lifelong learning.

We foster critical and reflective civic engagement and thoughtful participation in diverse local and global communities.

We regularly assess, self-reflect, adapt, and continuously improve.

Support Student Success

1.1c Description

The Foods and Nutrition Program provides nutrition and food science courses to fulfill both general education and allied health prerequisite needs. In addition, we have a major in Nutrition & Dietetics that provides transfer requirements to 4-year institutions with clinical dietetic degrees preparing individual for a career as a Registered Dietitian Nutritionist (RDN). Our core courses are FDNT 10 Elementary Nutrition, a general education course, and FDNT 62 Nutrition and Diet Therapy which has been a prerequisite for the Associates Nursing Degree. In addition we have courses in nutrition and physical fitness, introduction to the profession of nutrition, and principles of foods (food science).

We offer courses at both the Santa Rosa and Petaluma campuses. In addition, our course FDNT 10 is required by the Fitness, Nutrition and Health certificate.

1.1d Hours of Office Operation and Service by Location

The **Foods and Nutrition program** is located in the Plover Temporary however there is no administrative assistant support for the program at the Plover Temporary. For administrative and program questions students and the public should contact the **Health Sciences Department Office**, Room 4062, William B. Race Building, Santa Rosa Campus

Telephone: (707) 527-4272

Fax: (707) 527-4426

Hours: 8:00 am - 5:00 pm

1.2 Program/Unit Context and Environmental Scan

2.1a Budget Needs

The **Foods and Nutrition Program** was reassigned to the Health Sciences Department in July 2016. Since the Health Sciences Department works as one large department with the Dean acting as department chair, the Foods and Nutrition program is now managed by a Program Coordinator who oversees the academic scheduling, budget and personnel needs of the program under the purview of the Dean. The Program Coordinator has been allotted 24% release time for these duties.

The physical location of the FDNT program has also been moved from Garcia Hall to the Plover temporary. The Plover temporary houses the primary FDNT classroom, as well as, offices for the three contract faculty and an office for adjuncts. The independent location of the FDNT program and the large number of students using the Plover temporary classroom result in a number of critical and unique budgetary need for the program.

The major resources needed by the FDNT program fall into the following areas:

1.) Learning activities in the classroom/lab: Although the majority of FDNT courses are lecture courses, the FDNT program is committed to incorporating

active learning techniques in the classroom to help students understand critical principles in nutrition. FDNT instructors have designed a number of in-class activities that require tools such as body fat analyzers, food scales, food models and actual food. In order to maintain these activities the program requires a minimum of \$2000 for supplies and maintenance/replacement of equipment. In addition, the course FDNT 75 Principles of Food which is a lab course taught in the Culinary Arts department requires equipment for teaching food science principles and healthy cooking techniques. Needed equipment include, but are not limited to: instant read thermometers, food scales, and storage units for supplies. The estimated budget needs for this equipment is \$1000.

Total estimated need: \$3000

2.) Program outreach: As a new program within the Health Sciences department the FDNT program is in need of new outreach materials indicating the new affiliation with Health Sciences, as well as, promotion of the program overall various events. Critical needs include banners, sandwich-board signs, table covers, print materials, name badges for faculty, etc. Estimated need: \$3000

3.) Faculty support: Faculty within the program are required to complete continuing education to maintain registration with the Academy of Nutrition and Dietetics (AND). Since one of the FDNT program's goals is to provide undergraduate training for dietetic students planning to pursue careers through the AND it is critical that faculty maintain their continuing education requirements that AND mandates. In addition, maintaining ServSafe licensing, a required certificate for the food service industry, is needed by faculty teaching in the food service area. This training and licensing renewal cost a minimum of \$300 per instructor.

Estimated need for all faculty: \$3300

4.) Program facilities support: The stand-alone location of the FDNT program in a portable requires specific equipment (e.g. copier, printer, computers) and supplies that need to be maintained on site. It is difficult for the program faculty, especially the adjunct faculty, to continually obtain supplies at the Health Science office. The FDNT program needs to have an independent supply budget so that it can maintain stores of critical items for its faculty. Although the program faculty are realizing more paperless means of supplying students with assignments and instructional material, the need for graphics is still a budgetary issue. For all these needs the FDNT program estimates a need of a minimum of \$5000.

2.1 Fiscal Year Expenditures

Santa Rosa Campus

Expenditure Category	Unrestricted Funds	Change from 2016-17	Restricted Funds	Change from 2016-17	Total	Change from 2016-17

2.2d Adequacy and Effectiveness of Staffing

The **FDNT program** currently has 3 contract faculty and 13 adjunct faculty. We reviewed adjunct applications and conducted screening/interviews in April 2018. At this time there is not a need for additional hiring.

2.3e Faculty Staffing Requests

Rank	Location	SP	M	Discipline	SLO Assessment Rationale
------	----------	----	---	------------	--------------------------

2.4b Rationale for Instructional and Non-Instructional Equipment, Technology, and Software

Instructional Equipment/Technology Rationale: The **Plover temporary classroom** has the basic hardware for presentations (e.g. computer, projector and 2 screens/monitors) however it is missing a document camera, remote control for the computer, the software to control room media, and clickers or audience response system for interactive learning activities. Faculty have requested all of these items in order to more effectively present their lectures. The document camera is needed for displaying assignments or examples of forms that need to be shown to the entire class but are not needed in hard copy. The remote control is critical to allow instructors to be able to move about the classroom and present their lecture. And the software to control the room media is needed in order to control the media going to the screen, this will be critical when a document camera is installed but is also needed so that instructors can control the screen view from the computer. Currently if instructors want to black out the screen while working on the presentation computer to edit presentation, they need to manually turn off the screens and then manually power up the screens again once they have made their changes to the presentation. Finally, we would like to have a set of "clickers" to set up an audience response system that can be used to provide students a more interactive learning experience.

Non-instruction Equipment/Technology Rationale: The adjunct office in the Plover temporary is used by adjuncts for both their office hours and their preparation for class presentations. There is one computer that is used by all the adjuncts for accessing their faculty portal, email, CANVAS, as well as, working on their PowerPoint presentations. This computer was purchased in December 2010 and runs very poorly. We would like to provide adjuncts with a more updated system to help them serve students more effectively.

2.4c Instructional Equipment Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
0000	ALL	01	01	Clickers	45	\$50.00	\$2,250.00	Tammy Sakanashi		Tammy Sakanashi
0000	ALL	02	01	computer adjunct office	1	\$995.00	\$995.00	Tammy Sakanashi	Plover 505T	Tammy Sakanashi
0003	ALL	01	01	instruments,scales, and equipment needed for food	1	\$5,000.00	\$5,000.00	Tammy Sakanashi		Tammy Sakanashi
0004	ALL	01	01	Document camera	1	\$600.00	\$600.00	TAmmy Sakanashi		Tammy Sakanashi

2.4d Non-Instructional Equipment and Technology Requests

Rank	Location	SP	M	Item Description	Qty	Cost Each	Total Cost	Requestor	Room/Space	Contact
------	----------	----	---	------------------	-----	-----------	------------	-----------	------------	---------

2.5a Minor Facilities Requests

Rank	Location	SP	M	Time Frame	Building	Room Number	Est. Cost	Description
0001	Santa Rosa	04	07	Urgent	Kunde		\$0.00	Office space for 3 faculty and adjuncts in the DIET/FDNT programs due to the elimination of the Plover Temporary.

2.5b Analysis of Existing Facilities

The **Foods and Nutrition** program moved into the **Plover Temporary** just before the start of the Fall 2016 semester, prior to the completion of the installation of the portable. However as of April 2017 the interior of the building has been completed. The major facilities request that is needed is a protected seating/standing area for students while they are waiting for the classroom (501T) to be available.

- For the safety of the students the Plover Temporary needs to have an area where students can wait for the classroom to be available. We have back to back classes in the classroom through out the day and when students arrive they often have to wait outside the room. The only place for them to wait is in the driveway in front of the classroom in which cars travel regularly. There needs to be a designated area for students to be able to congregate safely between classes that is protected physically from the elements as well as car traffic.

3.1 Develop Financial Resources

3.2 Serve our Diverse Communities

3.3 Cultivate a Healthy Organization

3.4 Safety and Emergency Preparedness

3.5 Establish a Culture of Sustainability

4.1a Course Student Learning Outcomes Assessment

A group assessment that involved 8 different faculty members, was completed for one SLO of FDNT 10 and one SLO of FDNT 62. Additional assessments were subsequently completed by individual or small groups of faculty over the last year resulting in 100% of the SLOs being assessed at least once for each of these courses. Results of these assessments combined with input from various faculty resulted in completion of a course review and update for FDNT 10, Elementary Nutrition during Spring, 2014.

FDNT 75, Principles of Food, has had ongoing SLO assessments and all SLO were assessed in the Spring 2017.

Currently 100% of FDNT courses have had one or more course level SLO assessment completed and posted to Sharepoint. Results of these assessments are being used to improve effectiveness in the classroom.

FDNT Program 6-year Cycle SLO Assessment Plan: 1304

Course	SLO#	Participating Faculty	Semester initiated or to be initiated	Semester Completed	Comments	Year of Next Assessment

4.1b Program Student Learning Outcomes Assessment

The FDNT Program Student Learning Outcomes

Upon successful completion of this major, the student will be able to:

1. Identify the role of nutrients and healthy food preparations for optimal health and well-being;
2. select appropriate foods for a healthy diet and disease risk reduction;
3. clearly communicate nutrition concepts in oral and written formats;

4. use critical thinking to analyze and interpret information from various media sources and draw scientifically-based conclusions; and
5. transfer to a four-year program in Nutrition, Dietetics, and/or Food Science

4.1c Student Learning Outcomes Reporting
